EASTERN ITEMS.—The wet cold weather is retarding the operations of the potato bug, and he is not making the progress he made in former years. Another draw back to him this year, his numbers are not augmented like other seasons by millions from abroad who were thrown on our shores, and not drowned like anything right would be. They crawled in shortly on the sand, or the tide left them there, the sun dried their wings and they started inland to hunt for the potato patch. There is a better appearance of mackerel about the East Point than there has been for some years, and if the vessels with their destroying and destructive purse seines keep away, the pr bablites are, our shore fishermen will catch many. From Black Point along the north side there is a good appearance, and on the south side some have been taken as far along as off the West River.—Alfred McLean is here from Boston on a visit to his friends. He left here some thirty-four years ago, and has done fairly well among our southern neighbors. Still he advises none of our young men to cross the border in quest of fortune.—Jerome Mooney, son of Thomas Mooney, Greenvale, has enlisted to fight the Spaniards. Some more of our Eastern men in the American navy are writing home from Key West that they have to work down in the big war ships nearly forty feet (where it is hotter than any other place in this world.
