BRITISH EMPIRE SHOPPING WEEK.

Sir.—This being "British Empire Week" when all the British possessions have a campaign on to buy goods produced within the Empire, and every paper you pick up being full of this great subject, it does not seem very fitting to the occasion to see a large German steamer in our harbour with a cargo of Mineral salt from Hamburg, Germany.

The Malagash Salt Works at Malagash, N. S., (exactly 35 miles from Charlottetown, by water) have spent close to a million dollars developing their salt mine, which is second to none in the world, and this winter they have spent \$100,000 on a most modern evaporating plant, where the salt is evaporated in a dry salt, and in consequence have now some of the finest Mineral salt to be found anywhere on the globe.

After spending all this money to develop a purely Maritime industry, of which any country would be proud, and when after years of very hard work and worry, they have succeeded at last in producing a salt that will suit all classes of people, and have now some of the finest Mineral salt to be found anywhere on the globe.

Mr. Ernest Corney, Appin Road, P. E. I., was a visitor to Augustine Cove, the guest of his niece, Miss Buelah Robinson.

Mr. and Mrs. Heath Chisholm and daughter Helen, North Tryon, passed through Augustine Cove Sunday afternoon.

Mr. Artemas Cameron, Summerside, and two children Vivian and Kenneth, were visitors to Augustine Cove Sunday.

Miss Etta Cann, Craupaud, spent the week end visiting in Augustine Cove, the guest of her niece Miss Buelah Robinson.

Messrs. Archie Robinson and John Carr were visitors to Cape Traverse Sunday afternoon.

Mr. Walter Cann is at present visiting in Port Borden, P. E. I.

Mrs. George Leard left by train to visit in Freetown, the guest of her daughter, Mrs. Fred Reeves.

Mr. A. Keith Lord, Cape Traverse, passed through Augustine Cove Sunday afternoon.

Mr. Albert Callbeck, Tryon Cross Roads, was a visitor to Cape Traverse Sunday evening.

Messrs. Stanley Thompson and George McWilliams passed through Augustine Cove Sunday evening, en route to Cape Traverse.

Mr. Milton Carr was a visitor to Cape Traverse Sunday evening.

Mr. Leslie Campbell, Cape Traverse, passed through Augustine Cove Saturday afternoon.

Mr. and Mrs. Hillard Francis and little son Leith, were visitors to Craupaud Saturday evening.

Mr. Harry McPhee, Tryon, passed through Augustine Cove Monday morning.

Mr. Wilfred Cann returned back to Augustine Cove, after spending a short visit at Clyde River, P. E. I.

(Capt.) John L. Read, Borden, passed through Augustine Cove Sunday, en route to Tryon.

Miss Nina Boulter spent the week end visiting in Victoria the guest of her parents Mr. and Mrs. Ross Boulter.

Central Guardian

THERE ARE FIVE JUDGES FOR tonight's Oratorical Contest. Their work is cut out for them all the same.

BAPTIST SERVICES—North River Field, Sunday, April 29.—Fairview—11 a. m.; North River—3 p. m.; Long Creek—7 p. m. W. R. MacWalker, Minister.

SERIOUS ILLNESS—The many friends of Mr. Preston McNeill, son of Mr. D. J. McNeill of this city, will be sorry to learn that he has developed meningitis from the fracture sustained ten days ago as reported at the time in "The Guardian." Last night his condition was reported as not favorable.

THE PUBLIC ARE INVITED TO attend the Recital by Paul Kollins in the Prince of Wales College Hall, Wednesday, May 2nd, at 8 p. m. Admission 50 cents. 4079-4-27-1mw.

INSTITUTE WORK—The St. George's Women's Institute held their regular monthly meeting at the home of Miss Margaret Moirarty with thirteen members and five visitors present. The meeting opened with the singing of the Ode, followed by roll call. The minutes of the last meeting were read and accepted. A session took place of procuring funds to proceed with building. It was decided to hold a social and dance in the hall for that purpose.

THERE WILL BE NO APPLAUSE permitted at the contest so that all candidates may have a fair field and no favours.

ANOTHER TREAT—Paul Kollins' Recital in the Prince of Wales College Hall, Wednesday, May 2nd, at 8 p. m. Admission 50 cents. Tickets at door. Auspices Prince Edward Island Teacher's Federation. 4079-4-27-1mw.

C. P. R. OFFICIALS HERE—Among the visitors to the city yesterday were Mr. G. Bruce Burpee, District Passenger Agent C. P. R., St. John, N. B., and Mr. D. W. Allan, Travelling Passenger Agent. Both officials were optimistic regarding tourist traffic for the Maritimes, especially in view of the new hotel accommodation being provided in Halifax and Dieppe. But they were rather despondent regarding the prospects for Prince Edward Island, as the result of the Provincial Government's policy to search for liquor. They said tourists, especially Americans, resented the suggestion of such a search, and would not be induced to come where it was an operation. They were not aware what prospects there are for C. P. R. running power over the C. N. R., although the question was being agitated in Halifax. In addition to Messrs Burpee and Allan, Messrs Gerald Hiram, Divisional Freight Agent, and John S. Lord, Traffic Agent, were here on business and all leave this morning for the mainland.

MET WITH ACCIDENT—Mr. John McLaughlin of Bonshaw, met with a painful accident yesterday. While driving accompanied by his son the latter walking by the carriage and driving, the horse took fright at some distance. The horse became unmanageable and plunged to the side of the road and over a stump fence, leaving the carriage behind him but still attached. When the driver of the car saw the predicament he stopped, left his car and went forward to assist in disentangling the mess. Between them all the managed to unharness the horse but in doing so Mr. McLaughlin was kicked by the horse, a recent west-ern importation, with the result that his leg was broken between the knee and the ankle. The injured man, who is 88 years of age, pluckily bore his injuries. He was assisted to a carriage and driven home, the driver of the car following him and helping him to carry him into the house. The car driver then drove to Bonshaw corner and procured the services of a doctor, whom he drove back to the injured man's home. Mr. McLaughlin, although severely injured, and well advanced in years, is sufficiently strong and physically healthy to lead to the hope that his recuperation will be speedy and complete.

ELMHRS. Roll call was answered by "gargling hints". The twelve members and five visitors met in the hall. The school committee were reappointed. Mrs. W. P. Pierce and Miss Mary Harris were appointed on the lunch committee. The proposed sanatorium, this great movement was strongly endorsed by the members of this institute and have decided to subscribe the sum of seventy five dollars (\$75.00) towards the same. It was decided that the next meeting is to be held in the hall, and roll call is to be resuspended with a dress making hint.

By treating small plants with magnetism a Detroit scientist has stimulated their growth.

NEWPORT NOTES

On Tuesday morning, April 10th, at 5:30 o'clock, the S. S. St. George, made her first trip of the season. The Engineer reports the engine running good; the master, Capt. Sigsworth, hopes that the hull which is reported to be in poor condition will hold out till the new boat which is about to be constructed for that service is completed. Among the passengers were Messrs Malcolm Fay and George MacCormac, who had been spending their Easter holidays at their respective homes and were returning to resume their studies at S. D. U.

Because of the slump in the lobster business, some of the fishermen in this locality have decided not to go fishing this year. In all probability they will direct their energies towards the growing of Seed Potatoes.

Figuring from the amount of fertilizer which is being ordered, the potato industry has evidently gained considerable momentum in this district, and in order to facilitate the handling of this ever-increasing product, the firm of Messrs James Fay and Sons has decided to construct a frost-proof cellar under their large warehouse. We wish them success in their enterprise.

Some of the most observant citizens of Newport have noticed that the old Pannure Island Light shone more brightly than the new one.

Miss Agnes Fay paid a flying visit to Georgetown recently.

Mr. Jerome MacDonnell intends going fishing again this season. While he is absent his farm will be worked by his son A. D.

Mr. Peter Campbell is preparing for another large crop of tubers. While Peter is a very competent farmer, he is equally competent at histrionism which was fully exemplified in the role he played in a recent dramatic performance at St. George's.

Mr. Innocent Campbell has resumed his duties as manager of the Launching branch of the Eastern Canneries Ltd.

Mr. Jack Campbell spent the week-end visiting friends in Mitchell River.

Two of our local horsemen, Messrs Steele and Moran have acquired very speedy horses, and the conditions being favourable, they have had the opportunity of having several good try-outs during the past winter. Considering the fact that they are both young horses they were surely made a good showing. We look forward with interest to their respective performances this season.

Mr. Eugene Delorie spent a few days in Charlottetown last week on business.

The popularity of our local tailor, Mr. A. A. Johnson is shown by the fact that he has to work over-time to keep ahead of his work.

Mr. Reggie MacIntyre has purchased the Reynold MacDonald farm from Mr. Eugene Delorie. As Mr. MacIntyre is one of our best farmers his success is a foregone conclusion.

Mr. Thomas Sloane has been employed by the Dept. of Public Works at building a new Pile-driver, which to say the least, is a credit to its designer; for compactness and accessibility it is without an equal; two men can easily operate it and an ordinary dog can haul it anywhere. Well done Tom.

Arriving at his fox ranch on Sunday April 8th, Mr. Duncan MacDonald was gently surprised to find three young pups, one, however, succumbed to the cold. The other two are doing well.

Prompted by his success of last year Mr. Patrick MacIntyre has decided to go into the seed potato industry more extensively this year.

That building at Newport known as the MacKenzie property is to be let to parties in Georgetown to be used as a tonorial parlour.

LONG NON-STOP RUN PLANNED

Changing the crew while the traffic is speeding is the latest idea in the non-stop craze that has hit British railroads. One line is being constructed a locomotive tender containing a corridor so that the new engineer and fireman may take their places without stopping the train if the experiment proves successful. The permanent improvement is being made without a stop.

GILDED POTS.

Flower pots can be gilded and then lacquered to make a decorative touch when they hold only a fern or some other green that does not bloom.

GERMANS HONOR AUSTRIAN

In celebration of the 10th anniversary of Rudolph Alexander Schroeder, Austrian lyric poet and friend of Hoffmannsbal, he was recently created a doctor of philosophy honoris causa by the University of Munich. Dr. Schroeder's work on the highly respected magazine "Hyperion" has won him a large following in Germany and Austria.

The Public Forum

(Continued from page 4)

to their election promises, even throwing slurs at the two Alliance officials without whose efforts he could never have been elected. "Man's inhumanity to man makes countless thousands weep."

Yes, he holds on; he has travelled a long trestle road to get there and if five casks of gasoline exempt from this new 5c. gas tax, doesn't pull him through the summer, he may never get there again. So he applauds his leader for his inhumanity on the Temperance question, claiming less drinking because of strict enforcement of the act. If his leader was sincere with the Alliance why did he refuse 25-cents as he promised when bargaining with the Alliance officials for his election? Why did he increase the number to be sold and give as an excuse that if he stood by what he promised he would lose too many friends? Are voters worth more to our province than principle and sobriety. If 17 persons have not been left from our jails since the present Government took office why doesn't the leader of the Government accept Mr. Stewart's challenge to assemble the sheriffs and jailers before the Legislature and prove that there hasn't been that number let go? Is that what our Lower Beedeque member calls enforcing the Prohibition Act? Why was a certain man who was placed in Prince County Jail with a five hundred dollar fine and five months imprisonment over his head under the Stewart administration, allowed to go free almost as soon as the present Government came into office, if the act is being enforced there is less drinking now why is it that certain good women of Beedeque had to stop their little girls going down to the beach by mill pond to skate on account of the prevalence of drinking and drunken boys on the pond this last winter, something that used to be unknown? Why is it that a poor horse, man's most faithful friend, a friend who has played no mean part in his own dumb brute way in placing civilization on the plane where we see and enjoy it today, why is it that this faithful friend of man, if run conditions are improved get clear of his drunken driver on a cold stormy morning, frozen stiff less than a mile from the Lower Beedeque members oval floor? The news that a poor, faithful, dumb brute was found frozen and stiff on Sunday morning because of rum which flows like water as the present Government presides made the blood run cold in the veins of every Beedeque worthy of the name of man.

"Henry Ward Beecher" once said that should there be an hereafter for any animal it would be for a horse. If such should be, what shall this hon. member from Beedeque, who has kept silent and dumb on this barbarous happening so near his own house apparently for fear of showing up his party, say, if this frozen horse walks up in front of him and winnies on the Judgment Day, The Bible says, and the great men in time of trouble shall stand under the cliffs of rocks and ask the rocks to fall on them for the fear of the Lord shall be upon them.

But the fate of this poor dumb horse is only half the story. The driver went to Summerside for medicine where some more "Hon. Temperance members of the house" reside, but where run conditions are so rotten—with temptations on all sides, the poor unfortunate driv-

or imbued too freely, and when he arrived home with the medicine it was too late.

On whose shoulders shall rest the blood, or will five casks of untaxed gasoline wash it all away?

Truly this is the comedy Government. If Mr. P. C. Barnum, the once famous showman, were alive today he would buy the whole managerie, the price would be so colossal that the Premier could live the rest of his days in luxury sampling the chestnuts or chopping down these alder bushes on the western road while the member from Lower Beedeque could put in his supply of gasoline at will, and there'd be no fear of a new iniquitous 5c. gas tax and we'd be living in the millennium.

I am, Sir, etc.,

DISGUSTED BEDEQUE LIBERAL.

HON. MR. LEA'S IDIOTIC STATEMENT.

Sir.—We are beginning to get accustomed to banging in the house and to idiotic utterances on the part of Government members in the present session. But all of the senseless utterances ever uttered outside of an Insane Asylum a statement made by Mr. W. McLean in the house the other day caps them all. If this Hon. Gentleman were to make such an utterance within the walls of Falmouth he would probably be kept there.

In the course of a speech the other day he stated among other things that the reason our young men were leaving the province is because of the better equipment of up to date machinery, making it possible to do the same work with less men. Truly our immigration problem was solved in that senseless utterance of Mr. Lea's. If we could keep our own people here we would not need foreigners to swell our population and Mr. Lea has named the solving of the secret. Namely, Farmers don't buy any more machinery and junk that you already have and you'll have no trouble in keeping the boys home on the farm. Did anyone ever hear tell of such a senseless idiotic utterance coming from the lips of a man posing as a leader among men? The writer has often known fathers to buy certain kinds of machinery or a certain machine so as to make life easier by taking some of the drudgery out of it and never knew of farmers paying out sums of money for machinery so that some of the family could leave the farm and home, and still get the same amount of work done as before, which would be the outcome if Mr. Lea's senseless utterance were true. But the Hon. member seems to be aware of it and it would seem as though he has been preaching it with success to his brother members of the Government, for they have already squandered almost one hundred dollars on road machinery of which they claim will do away with labor. Does Mr. Lea and his party intend to keep buying machinery until there will be no need of men at all, so that we can all leave the province? Better examine Mr. Lea's head and find out what plans are being really carved out in that wonderful brain of his. Probably Messrs Lea and McIntyre are going to solve the problem of getting rid of our whole population by buying machinery on borrowed money. It would look as though there were a machinery shop in their heads but with a stripped cog, or a slipping mesh somewhere.

I am, Sir, etc.,

Beedeque Farmer Who Buys Machinery to Keep The boys home.

THE MARKETS

(Canadian Press)

OTTAWA, Ont., April 26. (Eggs)—No further change has been reported from Canadian egg markets today. American markets are unchanged with futures firmer.

TORONTO—The egg market is unchanged from yesterday's report with dealers continuing to buy from country shippers at extras 29-30; firsts 27-28c.; seconds 23-24c. delivered, cases returned. Prices to retailers are extras 34c.; firsts 31c.; seconds 28c.

MONTREAL—There is no change on this egg markets. Dealers are buying from country shippers at extras 30-32c.; firsts 28-29c.; seconds 25-27c.

WINNIPEG—There has been no change in prices and conditions on this egg market. Dealers are buying from country shippers at extras 27c.; firsts 25c.; seconds 21c.

ST. JOHN—The situation on this egg market is unchanged with dealers buying from country shippers at extras 28c.; firsts 25c.; seconds 20c. delivered, cases returned.

MONTREAL, Que., April 26—The foreign demand for Canadian grain here today showed some improvement and a moderate amount of business was worked with United Kingdom buyers in wheat and oats. Outside of an odd sale of a round lot of oats trading in cash grain was quiet. But the undertone was firm and prices showed no change. Prices for all grades of spring and winter wheat grades of flour were firmly maintained under an inactive demand. The undertone to the market for millfeed remained fresh with a good demand for local and country account and for shipment to the United States. Trade in standard grades of rolled oats was quiet and prices were steady. A feature of the egg trade was increased demand for
