It is interesting to note that the German Emperor, who now receives from the state a modest salary of \$3,929,825 has asked for an increase on the ground of the general increase in the cost of living in Germany. To strengthen his claim it is pointed out that the Emperor "has to provide for his large family out of his private purse, as no special fund is placed at his disposal for this purpose." We are opposed on general principles to a salary grab but in a case of real need so modestly presented as that of the Kaiser what can one say?

Paton & Co's Easter millinery opening was the best in the history of the store and was densely crowded. It was indeed a display of beauty not one imported hat was to be seen in the magnificent showing. Each one was distinctly beautiful. Flowers as usual take foremost place in trimming while wings, plumes and dainty ribbons are greatly in evidence. The shapes are such as to suit every face. A lady from Ottawa in speaking of the opening said that she had attended the wholesale opening in St. John and that they were greatly surpassed by Paton & Co, notwithstanding the fact that they were all designed and made by Island girls. The arrangement of the main store with its new spring suitings, all over laces, silks, appliques, flowers ribbons etc is indescribable and would have to be seen as the display is so daintily attractive with the beautiful soft colors blended and draped in a most artistic manner.
