GOLDWYN presents The Charles Brabin Production GOLDEN DAYS by Elinor Glyn

Scenario by Ouida Bergere June Mathis Editorial Director
With Corinne Griffith and Frank Mayo
Directed by Charles Brabin

LOVE'S ZERO HOUR
Two lovers trapped in a dugout. She, engaged to another. It was a matter of a few days before their food would go, and eternal darkness would set in. He loved her so. And she, despite her pledge, loved him passionately. Could anything keep them apart now?

Pathe Review and Topics of the Day

Central Guardian

SHOP FROM Holman's Catalog
(FUNERAL NOTICE) - The funeral of the late Chief of Police Cameron will leave his late residence, Queen Street this afternoon at 2.45 for the People's Cemetery. Service at the house starts at 2.15, Rev. G. C. Taylor, officiating clergyman.

TO GO TO ST. JOHN. - The services of A. R. Jones, who has been acting as assistant manager of the Prince Edward Island Co-operative Egg Exchange during the past year, have been procured by the New Brunswick Poultry Producers' Association as manager of the egg grading and shipping center, which is being established at St. John. Mr. Jones came to Prince Edward Island first from Upper Canada as a Federal poultry promoter. About a year ago he became assistant manager of the exchange operated by Prince Edward Island poultry men, with which he has been associated. He was appointed last week by representatives of the New Brunswick Poultry Producers' Association and offered the post of manager of the St. John plant. After a personal survey of the situation in this province, he accepted the post.

PERSONALS

Mr. T. B. Kelly, Summerside, was a visitor in the city yesterday.
Mr. E. Manson, Summerside is among the guests registered at the Victoria.
Mr. Fred Cameron, Fredericton, N. B. arrived in the city last night to attend the funeral of his father, the late Marshal Cameron.
Miss Helena McDonald of Boston has arrived at Stanhope, being called home by the illness of her father Allan McDonald.

THE MARKETS

(Canadian Press)
OTTAWA, Feb. 17.-(Eggs)-Market is easier today and indications point to a further decline in prices. Three cars of United States fresh are reported rolling to Toronto and other shipments are rolling to Montreal. The British Columbia market is reported weak and during the past week has declined 12 cents. Toronto unchanged. Montreal easier. Extras jobbing, 56; firsts 52, second 50 to 52, Saskatchewan and Alberta markets unchanged. British Columbia jobbing extra 58 to 40, firsts 36 to 38, seconds 33 to 36.

Montreal-No grain export, business was reported here today. The trade in coarse grains in the domestic market was slow, there being little demand from any source although the tone was steady. Ontario Number 3 white oats were quoted at 65 and No. 4 grade at 63 cents per bushel exstore. Little change occurred in the spring wheat flour market and trade was moderately active, winter wheat was unchanged. The weakness in the market for milled on Monday was again in evidence today and a further reduction of \$1.00 per ton was made for all lines which makes a net decline on \$5.00 per ton within the past few days. A moderate business was transacted in rolled oats. A neasier feeling developed in eggs and wholesale jobbing prices were reduced one cent per dozen. The butter market was inactive but steady prices were well maintained in the cheese market with fodder made No. 1 white and colored goods quoted at 20 1/2 to 20 1/4 cents per pound and No. 2 grade at 19 1/2 to 19 cents per pound. Owing to small demand for beans now prices are fluctuating. The average price was about \$2.75 dollars per bushel.

QUITE CLEVER

Bright notion of yours, Elaine, that when the leaves turn red in the fall they are blushing because they were so green all summer. Haw! Haw!

French Misconceptions.
In authoritative quarters here it was explained that the French calculations of what Great Britain expects from France are based on several misconceptions. First comes the belief that Italy will be asked to pay the same percentage of her debt as France. The Curzon note to France in August, 1923, estimated the present-day value of the British debt to the United States at £710,000,000. The French commentators now point out that the value of the Dawes annuities now accruing to England amount to £400,000,000 and that the balance of £310,000,000 is therefore all the Allies must make up to pay Britain what she has to pay the United States. Crediting themselves further with £500,000,000 gold which they claim is to their credit in the Bank of England, the French experts have suggested that since Italy owes Britain almost as much as France, the British demand on France amounts only to about £160,000,000 less the gold or total of £110,000,000. The British reply to this argument which demonstrates France must pay nearly three times this sum. I am able to give authoritative. It is the central idea and lies behind the terms of the Churchill note.

Values Confused.
The French fallacy, as the British Treasury considers it, is to confuse present values and gross values and the face value of the British debt to the United States with the face value of the German Dawes bonds which British experts believe are marketable at between 70 and 80. Churchill has taken 75 as a rough working basis, which reduces the present value of the British Dawes receipts from £400,000,000 to £300,000,000. The British debt to the United States, it is pointed out, is absolute. There is no transfer committee, no provision for mitigation, no chance for voluntary or involuntary default.

PLEASANT VALLEY SCHOOL.
The following is the standing of the pupils in their several grades of Pleasant Valley School, for the month of January.
Grade X-1 Marbelle MacLennan, 2 Dorothy MacDowell.
Grade VIII-1 Ben'ha Stevenson, 2 Florence MacSwain.
Grade VII-1 Isla Weeks, 2 Ruby Smith, Earl Taylor, equal, 3 Donald MacSwain, 4 Alex MacDowell.
Grade VI-1 Alice Weeks, 2 May Smith.
Grade IV-1 William Hickox, 2 Ewen Buchanan, 3 Laura Smith, 4 Claude Smith.
Grade III-1 Elizabeth MacKay, 2 Evelyn McLure.
Grade II-1 William MacDowell, 2 Donald MacSwain, 3 Marion Stevenson, 4 Bruce MacLennan, 5 James Hickox.
Grade I-1 Ralph Peters, 2 Miller Weeks, 3 Ada Stevenson, Elmer Buchanan, equal, 4 Gerald Smith.

EGYPT SURE OF PROSPERITY.
CAIRO, Feb. 17.-The Assouan dam is full, meaning that Egypt's summer supply of water is certain and resulting prosperity assured.

WHAT A HIDE!
Two hundred pairs of boots, 25 pairs of shoes, much heavy belting and many gross of shoestrings have been made from the hide of one whale.

BIRTHS.
CRASWELL.-At Clyde on the 15th inst., to Mr. and Mrs. Benjamin Craswell, a son.

DEATHS.
BROWN.-Entered into rest at Little York, Feb. 17th, after a lingering illness, Louisa M. Swan, aged 68 years, beloved wife of Ebenezer Brown, leaving to mourn a loving husband and three sons. Funeral from her late residence, Little York, Thursday, 19th inst., commencing at 10 a.m., interment at the New York Cemetery. Rev. H. T. Smith, officiating clergyman.

IN MEMORIAM.
MRS. CATHERINE MacPHAIL.
There passed away at Bonshaw, P. E. Island on Saturday, February 14th, 1925, Catherine MacCahill widow of the late Donald MacPhail aged 79 years. Deceased had been in comparatively good health up to a short time before her death. She contracted a cold but had almost completely recovered when she was seized with an attack of paralysis from which she never revived. She leaves seven sons, four are in the United States and three, namely John, Malcolm, and Donald reside at Bonshaw, P. E. I. She was a woman of humble and devout nature, her hunger for the word of God and the love and peace which are found alone in Jesus Christ are abundantly satisfied and realized. On Monday the 16th, the funeral took place from her late home to the cemetery at Argyle Shore, and was largely attended. The services were conducted by Rev. Ewen MacDougall of Charlottetown.

U. S. Judge Commits Suicide.
MINNEAPOLIS, Feb. 17.-John Franklin McGee, United States district judge for Minnesota and prominent jurist for many years, died in his chambers at the Federal Building here yesterday from a gunshot wound self-inflicted. A note ascribed the act to fear of falling health. He had always been a hard worker and of late had become fearful that his physical strength had begun to wane. His body was discovered by his daughter and a janitor when he failed to return home for lunch. Judge McGee, who had held numerous public offices in Minnesota, had the distinction of becoming learned in the law without having attended law school or college. He gained his knowledge of the law in an attorney's office, and at the age of 21 he was admitted to the state bar in Illinois. Later he moved to Dakota territory and then came to Minnesota. He was 64 years old.

Lumbago.
It's a form of rheumatism. St. Jacobs Oil ends those pains like magic. It has done so for millions for 65 years. You can trust it. So with soreness, lameness, backache. Almost instant relief is in your call-the best men ever developed. Go get it. St. Jacobs Oil. Rube PAIN AWAY.

Wembley 1925 Changes; Canada to be Redecorated

LONDON, Feb. 17.-Wembley at present is a dead city. There is no place quite so forlorn and dismal as an amusement park once the throngs of people are gone and only empty echoes answer to the spoken word. Drizzling rain also was falling, recalling memories of the catastrophic wet season of 1924. In the words of one Wembley worker the weather was normal.

JOB EASY THIS YEAR

Yet signs are not wanting that 1925 opening will soon come around. This year's task compared to last year's is simple. This time last year the many buildings which comprise Wembley Exhibition had hardly raised their skeleton above the sea of mud which workmen were trying to sod and pave with roads. Debris lay all about, cinders were being raked and flattened over muddy hollows, trees and bushes were being cut down, lumber lay piled about, the general scheme could only be surmised or imagined from the architect's plans. Now the city is complete, all order and plan. The year's experience which saw eight million people file through the turnstiles makes this year's job easy. Rebuilding is not necessary, only change and improvement.

ROADS BEING IMPROVED.

Roads are being improved. That was necessary. The hurry-up of last year did not give time for the making of good roads. Wembley was only three-quarters complete when the King gave his inaugural speech last April 23rd. On dry days, people complained of the excessive dust on wet days of the excessive mud. In both cases they had reason to complain. This year roads are being laid which are dustless in hot weather and dry in wet. The gardens, also, which though late in getting started last year made up for it by their delightful profusion of scorable flowers are to be still more attractive this year. The lakes will still reflect the beauties of the multi-colored lights in their crystal waters.

CATERING PARCELLED OUT.

All the Dominions are now in including New Zealand as not including will be lacking which was shown last year. No new buildings, however, are to be added, though many of the small kiosks are being

Makes a Family Supply of Cough Remedy

Really better than ready-made. Easily and quickly prepared. If you combined the curative properties of every known 'ready-made' cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes. Get from any druggist 2 1/2 ounces of Pinex, pour it into a 16-oz. bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is 16 ounces of really better cough syrup than you could buy ready-made and saves easily \$2. Tastes pleasant and never spoils. This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membrane so gently and easily that it is really astonishing. A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better. Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs. To avoid disappointment, ask your druggist for '2 1/2 ounces of Pinex' with full directions, and don't accept anything else. Save time or money promised.

Moves Bill To Admit Women To House of Lords

LONDON, Feb. 17.-The Astors, Lady Astor and her husband, continue to attract attention as Progressive legislators. Viscount Astor has introduced a bill in the Lords to permit women who hold peerages in their own right to sit in the House of Lords. Under the present law such women are barred from membership. Lady Rhonda, a peeress in her own right recently carried her plea for membership in the Lords to the highest court and was defeated. Viscount Astor's proposed law would not affect his wife, who is a peeress by marriage.

Canada Could Secure Large Trade in S. A.

MONTREAL, Feb. 16.-Because of the high reputation of Canadian made goods in South America, opportunity for the development of Canada trade are numerous, in practically every country south of the equator in the opinion of J. Davosta Gomez, Dutch consul in Venezuela, now in Montreal. In no South American country do there appear to be greater opportunities for development than in Venezuela, a vast country four times the size of France, with a population of only two million people and vast undeveloped resources. Mr. Gomez said Canadian enterprise is already widely known and respected.

Canadian Public Health Matters

OTTAWA, Feb. 17.-Urging Federal Government's legislators in Canadian public health matters, a deputation from the Social Hygiene Council of Canada, waited on the Premier and other members of the Cabinet early this afternoon. The large deputation included Sir Arthur Currie, Hon. L. A. David, Hon. Dr. Forbes Godfrey, Mr. Justice Riddell, Sir George Foster and Dr. Gordon Bates. It was requested that the annual grant of \$200,000 to provinces for health purposes be increased to \$250,000 a year over a period of three years. The Council on its part agreed to raise a minimum of \$25,000 additional each year. The money was to be spent on the education of the public in co-operation with the Dominion and provincial Departments of Health.

CLUB FOR STAFF.

The Palace of Industry will be practically the same as last year. Housing models will be shown in the Palace of Engineering in place of last year's motor cars. India's building came in for a good deal of criticism last year, but it is doubtful whether it will be improved this year, through political reasons. The building is beautiful, but complaints were made that no typical Indian life was shown, but the whole place was turned into a selling bazaar to make money. The interior was certainly not very artistic. Burma's fine exhibit of last year will be repeated. Another change expected to be made is the foundation of a club for members of the staff who will thus have a common meeting ground. For the last year they ate anywhere on the premises. They are now all messing together in one place, and the benefit of daily discussion of problems is felt too valuable to lose when the crowds come again. It is not likely that Wembley will be open to the public on Sunday. One day a week likely Tuesday, will have a raised admission price, half-a-crown, to keep out excursion and school-children. The other prices will remain as before. The military tattoo will be repeated in the stadium, but not the rodeo. A circus may be staged there in the Summer. The official opening will

Newfoundland Loan

ST. JOHN'S Nfld., Feb. 17.-English financial interests have been awarded the Newfoundland colonial loan of \$4,000,000, it became known today. An agreement was made with the Trade Facilities Board whereby a portion of the money will be utilized in the purchase of ten thousand tons of steel rails, resulting in the undercutting of Belgian and German bidders, it was announced.

Said the bank teller to the new girl who was making a deposit: "You didn't foot it up." "No," she replied innocently. "I took a taxi."

Nervous Passenger: "But what would you do if boat capsized?" "Boatman: "Oh, don't worry about me, mum, I've nothing on that will spoil."

"How would you classify a telephone girl? Is hers a business or a profession?" "Neither. It's a calling!"

Sooner or later almost every woman is brought face to face with the fact that she is a victim of some weakness or ailment peculiar to her sex. It may be the young woman suffering from pain or irregularities, a mother who has brought on some weakness or displacement from overwork or the middle aged woman passing through the most critical period of her life. For each of these trying periods Lydia E. Pinkham's Vegetable Compound has proved the greatest boon ever given to women and there are women living in every town and city in the country who testify to its value.

LET US DO THE RUNNING. It is not necessary to make a trip to our store every time you require some drug store article. JUST PHONE 219 and you will be surprised how quickly your order will be delivered.

The newest thing in Projection printing Apparatus. At a cost of \$200.00 we have installed an Eastman Auto-Focus enlarger. To place our work before the public we are going to make an 8x10 photo from negatives made by our studio for the month of February at one dollar (\$1.00) each.
