

## SUNSHINE FURNACE

**DIRECT DRAFT DAMPER**

**There is no dust nuisance in connection with the Sunshine.**

Because the Sunshine is fitted with a dust flue (see illustration) When you rock down the ashes (no back-breaking shaking with the Sunshine) what dust arises is drawn from the ash-pan up the dust-flue, then across the fire-pot to the smoke-pipe, as shown in illustration, where it immediately ascends to the outer air.

Only two things to remember in connection with this operation — open both the dust and direct draft dampers.

Sunshine is just the cleanest, simplest, easiest managed, greatest labor saving furnace that you can buy

### 50,000,000 FOR ADVERTISING

James B. Duke, the tobacco king of Long Branch, New Jersey, recently claimed in an interview that he had spent more money in advertising than any other living man. He said that the figures would reach fifty million dollars.—Newspaper item.

Yet James B. Duke is today one of the wealthiest men in the world. When you see a liberal advertiser you see a rich man. The business man who in this age of advertising is afraid to invest any money in publicity will never accumulate a fortune. Recd.

### ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few; it is, rather, synonymous with a general, broadcast declaration, and the broader the scope of the announcement, the better the advertising. No occupied space that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged expensively.
