SAYS SHRUBB IS TO COACH CANADA'S TEAM

PHILADELPHIA, Pa., Feb. 10. — Alf Shrubbs, famous Oxford University track and field coach, well known in the Dominion and in Montreal, will tutor Canada's spike shoe artists for the Olympic games next summer, according to the dope of Lawson Robertson, the boss of Uncle Sam's sons in this premier athletic function of the world.

Robertson, considered one of the greatest, if not the greatest track and field coaches in history, declares he has received "inside information" that Shrubbs will shortly be named to guide the Dominion's athletes at Amsterdam next July.

Although Canadian officials may deny this fact at present, the United States mentor feels confident the information given him can be relied upon.

Talking with the writer yesterday Robertson expressed the belief that the Oxford coach would visit Canada early in March to receive his appointment. "From what has been told me," said Robbie, "Shrubbs will sail from England on February 22nd. He undoubtedly has been offered the position and I have every reason to believe he will accept it."

CHRYSLER

52 NOW \$870 and upwards

ONLY in Chrysler "52" at its new low prices of \$870 upwards can you buy these qualities.

Characteristic Chrysler speed and dash, usable with complete comfort because of unrivaled engine and riding smoothness.

Ease of handling unlike anything ever before experienced in any low-priced cars.

Full-sized roomy bodies of exceptional fitness.

Smartness and beauty of line and color that set the pace for the industry.

Dependability and long life that result from a precision of manufacture totally unknown in the building of any other low-priced car.

The inevitably superior results of that Chrysler Standardized Quality of engineering and manufacturing which produces the Chryslers of higher price—"62," "72" and 112 h.p. Imperial "80."

There you have the smart New Chrysler "52"—which, at its new low prices and sensational values, public preference acclaims as more than ever the greatest car in the low-priced field. See this great car and ask for a demonstration.

Sensational New Low Prices
Coupe, \$870; Roadster (with rumble seat) \$870; Touring, \$870; Two-door Sedan, \$880; Four-door Sedan, \$930; DeLuxe Coupe (with rumble seat) \$930; DeLuxe Sedan \$1000.

All prices f. o. b. Windsor, Ontario, including standard factory equipment (freight and taxes extra).

THE CANADIAN-BUILT CHRYSLER FOR CANADIANS

Sally Comes Into Her Own
Thrills Galore In Crook Drama

IN "FRISCO SALLY LEVY" MISS O'NEIL FINDS HER FORCE.

Sally O'Neil, piquant as tabasco, and charming as a May breeze, has found her forte. "Frisko Sally Levy" proved it.

The new picture, which opened yesterday at the Capitol Theatre, proved a veritable triumph for the tiny heroine of "Mike," "Slide, Kelly Slide" and other recent hits. It is her best role since "Mike," the picture that made her famous. But it is a much better Sally O'Neil than the past months since her "discovery" has done wonders for her.

It is a Jewish-Irish comedy—with a few heart throbs mingled with the laughs, and Miss O'Neil is at once captivating, wistful and hoydenish—often extremely funny. She plays the daughter of a Jewish father and Irish mother, in a comical series of adventures in which two lovers, a family quarrel, and a dash of adventure enter. The story is a patchwork affair that every now and then digs deep into life and tugs at the heartstrings.

Tenacious Hols, as the father, gives a superbly natural portrayal, while Kate Price as the Irish mother is equally effective. The three children—Roy D'Arcy, in the role of a stock broker's clerk of the "shek" type, and Charles Delaney, and "College Days," as a young Irish motor policeman.

The children, Turner Salovey, Helen Levine and Leon Holmes, add much comedy to the play by their unstudied naturalness under Beaudine's direction—and just a bit of the laurels must also go to "Cam," the dog, whose comedy ability has often been demonstrated. Camco is a show all in himself.

HOCKEY
Kensington 4--Bedouque 3.

A very interesting game of hockey was played at Bedouque rink, Wednesday evening, February 8th, when the Kensington Hockey team played the Bedouque Beavers, the former winning by the score of 4 to 3. Only a fair number of fans were present as they had only a few hours notice of the game. The score on a long shot for Kensington, Bedouque starts rushing things and three times Calbeck goes through the Kensington team and three times MacKenzie, Junior star of 273 and goal for Kensington, says, "No!"

The second period starts with Bedouque setting a fast pace. After 15 minutes of play McDonald scores for the Beavers. 4 minutes later 14 Moyle scores on a lucky shot, followed 6 minutes later by Baginall, 156 when Kenyon awakens to the fact that they are two goals behind and Johnson plants the rubber behind Noonan, which makes the score for 2nd period 3-2 in favor of Bedouque.

The third period starts with Kensington rushing things. Johnson makes a desperate effort to get to what looked like a sure goal. McDonald relieves the situation by a nice run but loses to Murphy who sticks handles through the Bedouque team, and again Noonan is there with bells on. Bedouque is now playing a more defensive game with the score 3-2 in their favor. With only half a minute to go Murphy, who has improved considerably.

"Edwards, a half-miler; Spence and Pickard are other exceptionally good veteran prospects. They also have a number of fine marathon runners."

Hockey
(Cape Traverse vs. Bedouque.)

I was very much surprised to read the account of the game of Cape Traverse at Bedouque, Jan. 31st, in the Wanderer. I was sure I would like to know where he secured his information, as he was not present at the game.

The 1st period was 1-0, in favor of Cape Traverse. Bedouque scored one in this period which was not allowed by the Referee. It being off-side. Also McDonald scored on an off-side pass from Clark, but the referee did not see it. McDonald scored for the Beavers and Calbeck scored twice. 4 penalties in this period, 2 for Bedouque and 2 for Cape Traverse.

When the 2nd period started, Bedouque had two players in the penalty box and Cape Traverse only one. In this period Cape Traverse received two penalties and Bedouque one. This made the penalties even, as near as I can figure.

The game was very close and exciting. Clark evened the score on a lucky shot and not until 1 minute away from the Greyhounds' forwards as well as the defense, who were playing well out, and all eyes on the promenade were turned towards this lone eagle of the Beavers, (the same as tens of thousands watched Lindbergh, the lone eagle of the air), beat down on Waddell in the net. Not a sound was heard from the fans, as they held their breath. Every second Moyle is getting nearer the net. Waddell, Greyhound's star goalie is standing erect. Will he stop? Moyle shoots. Waddell seems to save but misses the puck goes in the net and the cheers of what seems like thousands of spectators break the stillness of the night.

The players as well as the fans, Missed Doug Bell, who did not appear on the "Cape's" line-up.—By One Who Was Present.

LETTER OF SYMPATHY

Mr. and Mrs. Andrew Melnitz and family.

Dear Friends:—On behalf of the Charwood Women's Institute we desire to convey to you our deepest sympathy for the recent sad bereavement which you have suffered in the death of your son and brother.

Although we cannot fully realize your heartache and our words can afford but little comfort, yet there is One who sees and sympathizes, and to Him above most the bereaved ones look for comfort, and for fortitude to bear these trials and sorrows. Although he will be greatly missed in the home, may you never forget that he is in a land where there are no pains or sorrow.

Signed,
Mrs. J. D. McPhee,
Mrs. Peter Gillis,
Cecelia Leslie.

Swan Kills Sheep

LONDON, Feb. 11. A remarkable instance of the destruction of a sheep by a swan has occurred at Hackness, near Scarborough.

Walking in the grounds of Hackness Hall, Lord Derwent saw a swan attacking a sheep near the large lake in the park. The sheep retreated, backing into the water, whereupon the swan mounted on the animal's back and forced its head under water, holding it there until the sheep ceased to struggle.

Success Did Not Just Happen

It was by manufacturing the best flavored and best quality of chewing tobacco that

HICKEY & NICHOLSON'S BLACK TWIST

attained the highest position. That is why it is the big favorite with men who like the best.

Logical Man

In my estimation, Shrubbs, is the logical man to coach the Canadian team. They couldn't make a better selection. Alf has turned out some splendid squads at Oxford and he unquestionably could whip together for the Dominion as good a team as possible.

"No one would be better pleased to hear of his appointment than myself. Alf and I have been close friends for a number of years. There isn't a thing he doesn't know about track and field sports. As I said before Canada would be making no mistake in securing Shrubbs."

Robertson did not care to disclose the reasons through which he received this information, but it would not be surprising if Shrubbs himself had written his old friend telling him the whole story.

Asked what he thought of Canada's chances in the games the present University of Pennsylvania coach predicted a much better show-up for the Dominion athletes. "New prospects and the improvement shown by the Canadian veterans during the past four years should make them a much more formidable crowd," he declared.

"In Johnny Fitzpatrick they have one of the best short distance prospects in the world today. He possesses everything a great sprinter needs and unless I have been badly taken he should give them all a good run by next summer. The boy has the goods and all that is needed is for his to be properly advised."

"I have tried every way possible to have him enter Pennsylvania as the finest sprinter in the world. Because of the fact that his father is a graduate of Toronto University he decided to enter that institution. Only recently I saw the boy give a wonderful indoor exhibition in Madison Square Garden. He fell only one-fifth of a second short of equaling the world's record for fifty yards."

Coaffe, who is also a sprinter, is without a question of doubt, one of the mainstays of the Canadian team. In the games at Paris four years ago he made a fine showing in the 200 meters and I look for even better results from him next July. They tell me he has improved considerably.

"Edwards, a half-miler; Spence and Pickard are other exceptionally good veteran prospects. They also have a number of fine marathon runners."

HONOR ROLL EAST ROYALTY SCHOOL FOR JANUARY

Evelyn Johnston (Principal), M.A. Robertson (Assistant).

ICE RACING

The spectators saw some good racing at the Stanley Speedway Saturday afternoon, quite a lot of ice drifted on the course and only for the persistency of the Ex-run by next summer. The boy has the goods and all that is needed is for his to be properly advised.

"I have tried every way possible to have him enter Pennsylvania as the finest sprinter in the world. Because of the fact that his father is a graduate of Toronto University he decided to enter that institution. Only recently I saw the boy give a wonderful indoor exhibition in Madison Square Garden. He fell only one-fifth of a second short of equaling the world's record for fifty yards."

Coaffe, who is also a sprinter, is without a question of doubt, one of the mainstays of the Canadian team. In the games at Paris four years ago he made a fine showing in the 200 meters and I look for even better results from him next July. They tell me he has improved considerably.

"Edwards, a half-miler; Spence and Pickard are other exceptionally good veteran prospects. They also have a number of fine marathon runners."

ROMAN GALLEY OF TIBERIUS AT ROTARY

Continuing the series of addresses in connection with the rural-urban co-operative movement, the Rotary Club yesterday had as their speaker, Rotarian James Leightizer, who gave an interesting address on the Possibilities of the Egg and Poultry Industry.

After dwelling on the large increase on the consumption of eggs in Canada, Mr. Leightizer gave the total value of the exports on eggs and poultry from Prince Edward Island last year was \$1,500,000. We are the only Province in Canada which does not import eggs. Our eggs are second to none in the principal markets in Canada, and the demands exceed the supply. He then gave examples of what is being done by members of the Prince Edward Island Egg and Poultry Association and pointed out what could be done by united effort along the lines of Egg and Poultry production. He made appeal to have our people deal with this in a united and non-partisan manner.

Mr. J. O. Hyndman of the Dominion Live Stock Department, Poultry Branch gave a short address, outlining the more important points of the Rotary Club to bring farmers and business together. At the request of Mr. J. O. Hyndman he read an article from a Minneapolis paper dealing with a similar movement in Ferguson County in that State.

Mr. J. O. Hyndman suggested that Hon. Walter M. Lea be asked to address the club on March 5th after he returned from the Old Country. In addition to Mr. Nash, Rotarian S. J. Wedlock of Arlington, Mass., and Hon. J. F. Fraser of Halifax were present.

DEAD HEART MADE TO BEAT

(By British United Press) BERLIN, Feb. 11.—Bringing a so-called "dead" heart to life has become a comparatively frequent achievement of modern surgeons. A Russian scientist, Professor Morosow, now claims that he has brought to life a heart taken from the body and dried.

Professor Morosow, of the Institute of Experimental Biology in Moscow, reports his experiments in the German "Clinical Weekly."

He removed a frog's heart and dried it down to 60 per cent of its normal weight. He treated it with a salt solution, and watched it pulsate regularly for five hours.

He used the "hormones" of the heart movement, discovered by the German Professor Haberlandt, and was able to accelerate the pulsations of the isolated heart to double the ordinary speed.

Scientists deduce from the Morosow experiments that the heart of all animals works more independently of the body than has been supposed.

No immediate therapeutic results have been reached, but it is hoped that sooner or later will be found a perfected "hormone of heart movements" which will be useful in reviving persons who would otherwise succumb to heart attacks.

POINT PRIM SCHOOL

Following is the standing of Point Prim School for the month of January:

Grade VIII.—1. Angusena McLeod; 2. Albert Murchison; 3. Florence Stewart.

Grade V (Sr.)—1. Agnes Murchison; 2. Neil Murchison and Walter McLeod (equal); 3. Kathleen McLeod.

Grade V (Jr.)—1. Raymond Gillis; 2. Velma Gillis; 3. Helen Murchison.

Grade III—1. Lack Gillis; 2. William Murchison.

Grade II—1. Norman Gillis.

Grade I (a)—1. Ruth Nicholson; 2. Mervin Gillis (equal).

Grade I (c)—1. Jean Nicholson; 2. Manson Murchison.

Annie Murchison, teacher.

Grad Captured
5,000 Metre Race

(Canadian Press) ST. MORITZ, Switzerland, Feb. 13.—Ivar Ballen Grad, of Norway, captured the 5,000 metre race in the Olympic speed skating championships, today, covering the course in 8 minutes, 50 1-10 seconds.

(Swiss Press) ST. MORITZ, Switzerland, Feb. 13.—Ivar Ballen Grad, of Norway, captured the 5,000 metre race in the Olympic speed skating championships, today, covering the course in 8 minutes, 50 1-10 seconds.

Ships could move from dock to dock and from river to dock at any time, whereas at present, they have to wait till the tide serves. A saving of nearly \$4,000,000 a year would be made on this score alone—that is 75 per cent of the estimated cost of the barrage.

The total benefit to the port can be estimated.
