THE LOST CABIN MINE IS FOUND

Legendary Ledge of Gold is Said to Have Been Again Discovered—Rich Samples of Ore Seen—Property Portion of Indian Reserve.

CHEYENNE, Wyo., Nov. 7. The claim that Amos Boyesen has located the Lost Cabin Mine is substantiated by a story which, while it deals with events months ago, has just become public. The story is that of the late George Drummond, of Wheeland, who had a sub-contract from Edward F. Smith, of Cheyenne, to survey a portion of the ceded area of the Shoshone reserve, while making this survey last spring he accidentally discovered in a canyon feeding the gorge of the Big Horn River an accident and ruined log cabin, through the centre of which a cottonwood tree more than a foot in diameter had grown. The legends of the Lost Cabin mine say that a cottonwood tree grew through the cabin from which the mine derived its name and the cabin in the mine immediately reminded Drummond and his companions of the legends.

They are said to have investigated and to have discovered near the cabin an old mine working which uncovered a ledge of quartz carrying gold in fabulous quantity. They agreed to say nothing of their discovery, as the land on which the ledge appeared would not be open to general entry until Oct. 15, on which

date the filing of claims by homeseekers who participated in the reservation drawing would come to an end. Drummond and his companion, so says the story, adhered to their resolution to say nothing about their find as they intended to give the location of the ledge after the land became subject to mineral entry. Their plans were spoiled, however, by the fact that other members of the survey party also stumbled upon the ruined cabin and saw the old mine workings. At that time Amos Boyesen of Council Bluffs, Iowa, who had accomplished the unique feat of securing from the Congress of the United States a right to go upon the Shoshone reservation and locate 640 acres of mineral land in advance of all other persons, was searching for the most likely tract in the reservation upon which to place his special location.

One of the surveyors who had knowledge of the mysterious workings in the reservation on the night before Boyesen and informed him of this knowledge, but to have been unable to give an accurate account of the location of the place. Boyesen is said to have immediately gone to Drummond and offered him \$10,000 for guidance to the cabin. Drummond the story says, was in favor of accepting this offer, but his companion objected and the deal was not made.

Threatened With Bright's Disease.

BRICK DUST DEPOSITS TOLD OF DISEASED KIDNEYS, BUT CURE WAS EFFECTED BY

DR. CHASE'S KIDNEY-LIVER PILLS.

The case well illustrates the way in which kidney diseases of the most serious form are developed from derangements of the liver, and emphasizes the extraordinary control which Dr. Chase's Kidney-Liver Pills possess over such complicated ailments. Mr. John Wilson, 98 Esplanade avenue, Montreal, Que., writes: "Last February I was taken sick and had to have the doctor, who said that my ailment was a disordered liver. A few weeks after completing his treatment I began to notice symptoms of kidney disease. The urine took on a reddish appearance and continued to get worse until I was very brick dust deposits, and then I knew that the kidneys were seriously affected, and that I was threatened with Bright's disease."

"I obtained some of Dr. Chase's Kidney-Liver Pills, and as a result of this treatment was completely cured. My water became a natural color, and is still so. The cure was thorough and lasting."

"My best experience with Dr. Chase's Medicines was with Dr. Chase's Ointment, which completely cured me of itching piles, with which I was tortured for nearly twenty years. I am now perfectly convinced of the infallibility of these two great medicines."

No medicine which acts on the kidneys alone can possibly prove effective, because in the great majority of cases the liver and bowels are also deranged. Because Dr. Chase's Kidney-Liver Pills have direct and combined action on the liver, kidneys and bowels, they bring about satisfactory results in the most complicated cases.

By using Dr. Chase's Kidney-Liver Pills, one pill a dose at bedtime, as often as is necessary to keep the bowels in regular healthy action, you insure yourself against kidney disease and the subsequent suffering from Bright's disease, dropsy, anæmia or other equally dreaded ailments.

Dr. Chase's Kidney-Liver Pills are the only cure in case of constipation, biliousness and kidney disease. One pill a dose 2 or 3 times a day, at all dealers, or Ed. Mansson, Bates & Co., Toronto.

ADVERTISING IS BROAD. Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is rather, a declaration, and the broader the scope of the announcement, the better the advertising. No complete space that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged extravagant. American Medical Journal

THREE FACTS For Sick Women To Consider.

First.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful periods, displacements of the female organs, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

Second.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, inflammation of the female organs, weakness and displacements, regulating the periods perfectly and overcoming their pains. It has also proved itself invaluable in preparing for childbirth and the change of life.

Third.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised.—Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.
