### SAYS ISSUE IS CHRISTIAN CIVILIZATION

#### Need of Religious Faith Emphasized By Canada's Prime Minister.

(By Thomas Green Canadian Press Staff writer.)

TORONTO, Ont., Oct. 2.—With ringing utterances of faith and confidence in the future, Premier R. B. Bennett declared that the issue before the world today was that of Christian Civilization. Civilization had not failed, Christian religion must not go into the discard, and with supreme confidence, high courage and faith, the Prime Minister stated, we must look forward to the future. The Premier addressed the United Church Missionary Congress assembled in convention.

Scheduled to deliver one speech, Premier Bennett had to deliver two. Crowded to capacity, the old landmark of Massey Hall, the scene of many notable gatherings, was insufficient to accommodate the audience for his first address. Mr. Bennett later spoke to an overflow gathering in the Metropolitan Church. From Ontario and Quebec especially, from the west and from the east, delegates were gathered. Added to this audience was a large number of residents of Toronto and environs.

"What is the matter with the world?" the Prime Minister exclaimed. "What is the trouble with the World? The mad orgy of extravagance, reckless expenditure of money, forgetting old and homely virtues of thrift or care for the morrow, believing that get-rich-quick should be the motto of our lives—All these things have brought us to this pass."

How could present difficulties be overcome? Premier Bennett proceeded. Some people looked to governments and said they must do it; others looked to churches and said they must do it; "But men and women," he continued, "it will be one way only—by you and me ourselves, and by no one else. It is what the individual will do

that will determine the issue." Continuing, Premier Bennett stated the grace of God had saved England in the Eighteenth century. "and, he declared, I am firmly convinced that nothing but the grace of God will save this world. You may talk about your economic theories, the application of the gold standard, the demonization of silver, balances of trade, exports and imports, but one thing only will save Christianity and that is the Grace of God. That is my conviction.

The spirit of men and women of the west had been well interpreted by Dr. E. H. Oliver, of Saskatchewan, Moderator of the United Church. These were men and women of courage and hope. They had been denied good crops for three years. The Government could help and was helping by money; but the personal contact with the sympathetic thought of those who cared, as illustrated by the proposal of the church to send twenty carloads of vegetables and fruits to the west was the spirit of true neighborliness. Faith without works was dead; and the proposed act was vital and evidence of the faith that existed.

He ventured to say, Mr. Bennett remarked, that the calmity to the western part of Canada, national in character, may make people pause, take stock of conditions and determine there was a new era upon us.

The challenge to the world today was a challenge to the whole of Christian civilization. Canada with 10,000,000 of people could do a great deal. "By evidence of faith and confidence in the future we could indicate our belief that this depression meant to try us by fire that we may be purged from selfishness and filled with a realization of our responsibility to our neighbors."

Could any man or woman believing in Christianity not believe that better times must come? With supreme confidence, high courage and faith, Mr. Bennett declared, men and women must look forward to the future. "If we cannot do that we cannot believe in Christian civilization."

### CHINA LETTER

TIENSIN, Oct. 2.—(U. P.)—The former boy-emperor of China, Pu Yi, has sent a petition to the government at Nanking, begging them to cancel their plan to transform the great Imperial cemetery of Manchu rulers at Tungling, north of Peiping, into a model forest district.

Government officials, who recently inspected the district recommended that the cemetery be taken away from Manchu caretakers and put under the Culture Improvement Commission of Peiping for development as a model forest and summer resort.

The former boy-emperor, now head of the deposed Manchus, points out that he was promised, when he abdicated, that the imperial tombs should be left permanently under Manchu control, and that the proposed action would be a violation of the treaty he signed with revolutionary leaders, including the late Dr. Sun Yat-sen.

The Tungling tombs were occupied by the troops of General Sun Tienying, a subordinate of Feng Yu-hsiang, in 1928, and several of them were broken open and robbed by soldiers and officers. Treasures valued at more than a million dollars, gold, were taken from the tombs of the Emperor Chien Lung and the Empress-Dowager Tsu Hsi. Most of these treasures have since been sold abroad.

PEIPING, Oct. 2.—(U. P.)—The theatrical world here is mourning the "grand old man" of Chinese drama, Sun Chu-hsien, who has died at 92 after more than 70 years on the Chinese stage.

Sun played regularly before Manchu emperors and empresses in the Forbidden City and the Summer Palace, and was a favorite of the Empress-Dowager. He retired shortly after the Republic was established, but last year he made four appearances here, receiving a great ovation.

Master Gerald Murphy, son of Mr. and Mrs. Norbert Murphy is on a visit to his grandparents, Mr. and Mrs. F. P. Murphy, Emerald.

Mrs. Malcolm MacInnis, Elliotts, was a recent visitor to Hunter River.

### U. S. Government Relief Measures Are Criticised

WILLINGFORD, Conn., Oct. 2.—Norman Thomas, Socialist party nominee for the Presidency in 1928, today, before a group of Episcopal churchmen, attacked the Federal Government's proposed unemployment relief measures asserting that with ten million unemployed in the country officials are groping around for a solution of the problem.

Mr. Thomas addressed the Choate conference of the Connecticut Protestant Episcopal Diocese on "Church and Industry." He urged the clergymen to arouse their people to the "duty of mankind" by seeking a five billion Federal loan to be used for public works. A large portion of this to be available at once for relief purposes.
