## A Big Part of the World Knows Grape-Nuts

not alone for its delicious, nut-like flavour, but more for its wonderful nerve and brain making, bone and muscle building qualities.

Grape Nuts supplies certain essential elements, abundantly stored in the field grains, but which are lacking in many foods. Especially is this true of foods made from white flour, because in making flour white the larger part of the energizing mineral elements are thrown out in the milling process.

Made of whole wheat and malted barley, Grape-Nuts supplies all the rich nourishment of the grains, is long baked and rendered quickly digestible, and yields a big return of brain, nerve and muscle energy.

Wherever you go you'll find Grape-Nuts.
