Quality Of Exhibits In All Classes Far Above Average—Cattle Compare Favorably With Any Shown In Canada—Show Of Vegetables Surpasses That Of Any Former Exhibition

The attendance at the opening of the Exhibition yesterday was, as usual, smaller than it should have been, but those present enjoyed a rare treat in a number of excellent and practical addresses.

His Lordship Justice Fitzgerald, President of the Exhibition Association, occupied the chair. In his opening remarks he stated that in number and quality of exhibits this was the greatest yet. In twenty departments nine show an increase in entries, while the others are all practically about as they were last year.

He believed the solution of the population problem lay in intensive farming. Our soil is capable of unlimited production and when our farmers realize this there will be no need of their sons and daughters going elsewhere to look for their bread and butter. His Honor then formally declared the Provincial Exhibition of 1912 open.

His Worship Mayor Lyons followed with a cordial welcome to the visitors to the city of Charlottetown. He spoke fluently and practically of the greatness and the possibilities of the province. We have, he said, the best province in Canada and if our farmers realized more fully the value of an acre of their land and acted upon their knowledge so many of our young men and young women would not need to go elsewhere to make a living.
