Miss Marguerite Driscoll, graduate nurse, and Mrs. Edward Murray, Somerville, Mass., are visiting in Mt. Herbert, the guests of the former's parents Mr. and Mrs. Frank Driscoll.

Miss Loretta Campbell of Boston, Mass., who motored to her home in Campbell's Cove, accompanied by Miss Marion Sulton of Waltham, Mass., has returned to Boston. They were accompanied by Mrs. John McNeil of Elmfield, (nee Tillie Campbell).

THE GIRL SCOUTS

And the Campfire Girls are two national organizations working side by side in the cause of healthy, happy, intelligent womanhood. They are training the minds of eager girls for greater service, and their bodies to be healthy and strong. Wise mothers of these girls in their early teens urge them frankly to depend upon Lydia E. Pinkham's Vegetable Compound for three generations it has proved to be the most dependable medicine for women.

Fireworks At N. S. Exhibition at Amherst

A very important feature in the Firework Program for Amherst this year is the series of aerial displays which occur at four intervals between the set fireworks. The Hand Fireworks Company have designated these as "Picturers in the sky" and they have arranged the upward flow of Bombshells and Rockets so that the mixture of effects suggest dreamlike fleeting glimpses of Fairyland. Wonderful fields of colored grass—graceful silver palms of tropic isles—swarms of comets in the midnight sky—orange groves—glittering showers of diamonds—streams of molten gold—Arabian Messias—These and scores of other fantasies flit across the mind as the ever changing pictures come and go.

Extract from Mail and Empire, Toronto:—

Every variety of fireworks displayed, such as bombshells, that filled the sky with masses of colorful stars of like color, and the graceful rockets finishing in their long ascent with bursts of golden light. Colored mines were exploded and gigantic wheels set the whole of the large stage ablaze with stars and variegated flames. The effect of these fireworks was most spectacular and the wonderful coloring was most effective. In addition to the rockets, there were numerous cleverly-constructed figure fireworks, giving effective outlines in air.

Extract from Evening Telegram, Toronto:—

When it comes to sustaining reputation for a real wonderful fireworks display the Hand Fireworks Co., of Hamilton, Ont., win out easily. The new and beautiful bombs were perhaps the features of this part of the performance. Some of these bursts in surprising number of showers of varicolored lights, while others descended in great fluttering masses closely resembling butterflies. The set pieces were large and very elaborate. They line before the grandstand in dazzling array of ever-changing color and light.

Extract from Telegram, Toronto:—

One of the best pyrotechnic displays that has ever been put on at the Exhibition was put on by the Hand Firework Co. Rockets with their flashes of fire pierced the sky almost unceasingly while in between times brilliant colored lights of various hues, including green, blue and red, were sent up the air at its height. Pin wheels whirled and whirled, and balls of fire travelled at an amazing rate of speed along wires only to reach a destination and set another fire, which in turn sped along still another wire.

Extract from Ottawa Citizen:—

One feature that has attracted particular praise at the Exhibition is the excellent display of fireworks by the famous Hand Firework Co., of Hamilton. The crowds around the grounds were able to enjoy the golden showers, rockets and other marvellous displays.

Extract from London Free Press:—

The fireworks display at Amherst this year. His above the average this year. The Hand Firework Co. have many new set pieces this year and all are remarkably pretty. Of their rockets, several kinds were followed by heavy sprays of fire, producing a fine effect. Others, too, discharged long chains of stars.

Halifax Evening Mail:—

The pyrotechnic display which concluded the program, was a good one. One of the rocket novelties was a new aerial shell with three explosions in the air and throwing showers of stars of three different colors. There were set pieces, electric fountains, revolving wheels, crowns and many rockets and bombs.

Halifax Free Press:—

Grand display of fireworks.—The display began with brilliant discharging of rockets. With awnings springing delinately the rockets shot up into the sky blazing a path of light. With reports or with sputtering flashes they then broke into sputtering jets of the most brilliant and variegated colors. Most gorgeous designs, both artistic in outline and harmonious in color, blazed and forth suddenly. Everywhere were whirling designs.

Halifax Daily Star:—

Night Show is Grand.—With the lights illuminated with hundreds of lights, large and small, and the magnificent display of fireworks put on by the Hand Firework Company, of Hamilton, Ont., the scene is a brilliant one. Nothing to equal the pyrotechnic display has ever been in this city.

Toronto Globe, extract:—

The Good Firework Display.—The fireworks that finished the night program consisted of bombs, rockets, stars, shells, comic pieces and a thousand and one brilliant features, old and new. Nowhere in Canada have such fireworks been seen. The Hand Firework Co., of Hamilton, are the producers of both spectacle and fireworks. The Exhibition management is to be congratulated upon the selection and carrying out of this very successful military pyro-spectacle.

Mt. Stewart Notes

Great weather for the members of the "Ole swimmin' hole lodge" and they certainly take advantage of it, as there are from eight to ten taking a dip daily, this part of the year being an ideal place for bathing.

Members Adrian and Ervin Bradley, St. Theresa, were employed in changing the roof of Dr. Walsh's residence last week.

The blacksmiths are kept pretty much on the jump just now. There being hay-mower knives to sharpen and all the extra work that goes with having, beside their regular work of shoeing horses. So much so in fact that they are turned away, they being unable to attend to them.

Dr. and Mrs. Martin, Grand View went Sunday, August 1st, in Mount Stewart, the guest of Dr. and Mrs. A. B. Martin.

The R. R. ditcher which is at present working at St. Peter's takes an occasional run down to Mount Stewart to pick up over night, which gives those from here who are working on her a chance to see their "old folks."

Mr. Garth Toombs, Dalhousie, is spending some time with his parents, Dr. and Mrs. Toombs.

Mr. and Mrs. George McLeod, and Mr. and Mrs. Louis E. Shaw, Charlottetown, motored to Mount Stewart, Thursday last.

A number of those having a berry orchard have begun picking them. And there appears to be a very good crop.

Quite a lot of raspberries were picked here last week for the first this season so far.

Mr. and Mrs. William Jardine and Mrs. Jardine's sister, Mrs. William Gunn and son arrived here from Somerville, Mass., on Saturday last in his big new six cylinder Nash, on a visit to his sister, Mrs. George Jay, Mt. Stewart, and brother Albert, Head of Hillsboro. Mr. Jardine made the trip in three days. He was accompanied by Mrs. Gordon, Stearns and family, Medford, Mass., who came to spend one line with her parents Mr. and Mrs. S. A. Coffin, Mrs. Stearns drove the entire distance in her Chevrolet car and is certainly to be complimented on her pluck in undertaking a trip of that distance alone, excepting a brother motorist.

Rev. and Mrs. Robt. L. Coffin and family, Tatamagouche, N. S., are visiting Mrs. Coffin's former home here.

Mrs. Artemas Cooke went to Travellers Rest, Friday last in answer to a phone message from her daughter, Mrs. Edward Craig who we regret to learn is ill.

Mr. Elisha Coffin, returned home last week from a pleasant visit with relatives and friends at St. Peters.

The regular Presbyterian services were held in the hall at 8.30 p. m. conducted by Mr. G. H. Trautner and were very well attended even though the weather proved very disagreeable for those driving a distance.

Services at the United Church were held at the regular hours 11 a. m. and 7 p. m. conducted by the pastor, Rev. M. T. Charman and were well attended.

The Misses Cora and Jennie Douglas and Carrie Grant now employed in Charlottetown, are spending a holiday at their homes here.

The Misses Jean and Alice Garrett, Charlottetown, paid a visit to friends here last week.

We are pleased to learn that the condition of Mr. Ray Smallwood, who was injured while at work on the R. R. a short time ago, is much improved, and we hope to have him back with us again soon.

Mrs. M. S. McLeod, Stanhope, spent Sunday in Mount Stewart, the guest of Mrs. George Clark. F.

EMIGRATION IS ADVISED FOR THE EDUCATED

LONDON, Aug. 10.—Emigration in the future must be regarded more than ever as a matter of interest to educated people, W. G. Ormsby Gore, Under-Secretary of State for the Dominions, said in addressing the British Association for the Advancement of Science here last night on "Educational Training for Overseas Life." This remark was applauded by the Prince of Wales, the new president of the association, which is now holding its 94th annual meeting.

The Under-Secretary said that in the past the impression had been created in the country that emigration was only for the surplus population, which in the minds of the people the sooner this idea was abolished from the minds of the people the better. He hoped that in the future special courses would be given in the public schools to intending emigrants.

The Prince of Wales spent practically the whole day yesterday in the various sections of the association.

Convention of Canadian Authors

VANCOUVER, B. C., Aug. 10.—The Canadian authors' association convening here Aug. 5-7, will be addressed by the Lieut. Governor of British Columbia, the mayor of the city and the President of the University of the Province. "Canada support the Canadian author," led by Murray Gibbon. An evening with miscellaneous programme will be held on the proceeds of Mrs. L. A. Leferra, in her eryle 300 feet above the sea. A luncheon will be given at which the speakers will be Katherine Hale (Mrs. J. W. Garvin) and Nellie McClung.

PROVINCE OF QUEBEC.

Grain looks well and although it is maturing a little too quickly indications give promise generally for an average crop. Early varieties of peas are now being harvested with good results. The hay that has been harvested so far is of good quality averaging in most districts a fair yield to the acre. Roots continue to do well and some districts have harvested a fair amount of new potatoes. Pastures are still in good condition but now need rain.

PROVINCE OF ONTARIO.

Fall wheat harvesting is progressing rapidly. In the southwestern

PROVINCE OF ALBERTA.

Conditions generally continue satisfactory with the exception that lack of moisture has reduced the estimated yields in limited areas. ALBERTA NORTHEASTERN AREA.—Crops on well tilled lands are progressing fairly satisfactorily in spite of the prolonged drought. Scattered showers and even good rains recently reported from different areas will benefit. Prospects remain unsatisfactory in Chipman and Vegreville and on the eastern border of the Province. ALBERTA SOUTHEASTERN AREA.—Weather conditions continue unfavorable. The wheat yield on the best dry lands is estimated at about ten bushels per acre. The balance is poor to bad but irrigated crops are good. SASKATCHEWAN NORTHERN AREA.—Crops continue to suffer from hot, dry weather and conditions are unsatisfactory with the exception of light where the yield will be light. Prospects are materially better in the North. SASKATCHEWAN SOUTHERN AREA.—Excessive heat and lack of moisture have caused damage and the yield will be generally light north of the C. P. R. main line. Conditions are still fairly satisfactory in the south. MANITOBA.—Extreme heat has continued with only local showers and deterioration has taken place. Crops are now generally too far advanced to suffer serious damage from frost.

Perfection Ice Cream

FOR Outings or Picnics

When you go out on that little outing or private picnic, be sure you have a container (packed in ice) of Perfection Ice Cream. Also

SANITARY PLATES AND SPOONS

so that when through you have no excess baggage in the way of cumbersome containers and dishes occupying space in car or motor boat. When used throw them away.

PERFECTION ICE CREAM

is now a household word from one end of this province to the other. "One grade only and that the best" is and has always been our motto.

Central Creameries Limited

WHOLESALE DISTRIBUTORS

Crop Report

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with Crop conditions in all sections of the districts mentioned.

GENERAL.

Lack of rain and hot weather over almost the whole of the Prairie Provinces are causing wheat to ripen prematurely and are materially reducing the yield although scattered areas report that conditions are satisfactory. In Manitoba cutting will be general within a week. Quebec all crops continue to progress favourably but now need rain. In Ontario recent rains followed by warm, bright weather have improved the crops and pastures and conditions are promising. In the Maritime Provinces all crops continue to improve and prospects generally are favourable although rain would be beneficial in some localities. In British Columbia crops generally are doing well but rain is still badly needed. Details follow:

MARITIME PROVINCES.

In New Brunswick weather fine and warm. Hay is being harvested in good condition—crop about 90 per cent of five year average. Potatoes are looking very well. In Nova Scotia weather is favourable for haymaking and good average crop nearly harvested. Apples will be below average crop but quality fair to good. In Prince Edward Island hay is now 80 per cent cut—it is in good condition and there is an average yield. Grains and potatoes look like a full crop.

BRITISH COLUMBIA.

There is an average yield of grain. Harvesting of oats and barley is well advanced. Potatoes and roots are doing well but would be better with more moisture. Apricots, peaches, plums and prunes are somewhat above average. Apples should be above average but the intense dryness prevailing will reduce the yield of late varieties unless shortly relieved. Hops are doing very well and a good yield is expected. Pasture needs rain and dairy cattle are being fed in the interior.

SUNBURN

Mix Minard's with sweet oil or cream and apply. Quick and permanent relief.

MINARD'S LINIMENT

"KING OF PAIN"

Anthracite Hard Coal

The Schooner "Hops Sherwood" is now on way to Charlottetown with a full cargo of Hard Coal, including both Chestnut and Stove sizes.

We would be obliged if customers would try and take delivery from vessel which should be here about the 12th inst.

Coal is of the best quality, and prices lowest.
