SHOT HIM IN AFTERNOON

Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using the well-known old recipe for making cough syrup at home. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex (30 cents worth) from any druggist, put it into a 16-oz bottle and add plain granulated sugar syrup to make 16 ounces. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time. It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes. Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. Teachers Circulate More Pay Petition

BOSTON, Mass., Nov. 10.—Boston school teachers have prepared and are circulating a petition asking that they be given an increase in pay of \$600 a year. It is expected that the petition will be presented to the school committee at its meeting next Monday evening. The teachers contend that while living costs have increased 75 to 100 per cent, and industrial wages 50 to 100 per cent, wages of teachers have increased only 3% to 16 per cent, and the \$600 increase will make a salary equal only to the minimum wage rate of unskilled laborers.

MOVE AGAINST POOLROOMS.

ROCKY MOUNT, Nov. 10.—With the avowed purpose of discouraging commercial poolroom proprietors here, the City Council has voted to place a tax of \$250 on the first table, \$300 on two tables, and \$400 on each additional table. Poolrooms operated by an incorporated club, fraternal or religious organization which charges a membership or cue fee, will be only nominally taxed.

SOLVING THE DESERT PROBLEM WITH FRUIT WHIPS

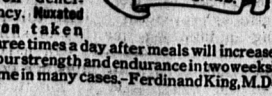

"Stewed prunes," "stewed dried apples," and "stewed apricots" are not nearly as popular as their excellence entitles them to be. We have too many boarding-house associations with them as cheap desserts, thanks to the lunatics. And so when stewed prunes appear on the table as the dinner dessert, there is a raising of eyebrows or as outright rebellions, depending on the age and manners of the diners.

Nevertheless, dried fruit are cheap, and as wholesome as many a more expensive dessert. Especially are the dried, stewed fruits wholesome for children, and they have an additional advantage—they can't be eaten in dangerous excess as the fresh fruits often are.

Serve the dried, stewed fruits in "whip" form and there will be general approval. Of course, this adds a little expense to the dish because of the eggs or whipped cream required, but it also adds food value. You can vary the flavors of these whips by using vanilla, almond, strawberry, pistache

He was afraid to speak; afraid to tell her just what was on his mind. A fear surged through him that he had never felt in the trenches.

He loved her, yet the intolerance of everything that smacked of the stage kept him from her.

He trusted her, yet the remembrance of her on that night when the road-house was raided, guiltless as she was dampened his faith.

Yes he married her at the last fade-out; but the struggle to overcome an inbred intolerance, to fight down suspicion and the temptation to judge, all too hastily—all of these elements, coming before the final denouncement, make the greatest love story Charles Ray has ever appeared in.

timation received here that something had happened was a notification on Saturday to B. J. Kaine, Superintendent of lighthouses, that there was no light at Kamouraska Light-house on Thursday or Friday night. A party of men from Kamouraska rowed out to the island and discovered that both the keeper and his assistant were missing. It is presumed that when the storm was at its height on Thursday the yacht tender, which was anchored between the island and the mainland, broke away from her moorings, and the keeper and his assistant, with the hope of saving her, followed in a small boat. The boat must have been swamped, as no trace of it has been found. The tender has since been recovered. The C. G. S. Drude has been despatched to the scene and further particulars as to the fate of the two men is expected tomorrow.

CANON SCOTT'S PLEA FOR OUR SHELL SHOCKED SOLDIERS

QUEBEC, November 10.—In an interview with the Canadian Press, Canon Scott, who went right through the war with the Canadian army, makes a special plea for the proper treatment of soldiers suffering from shell shock and other mental diseases. He deplores the fact that many of these cases have been placed in ordinary lunatic asylums in spite of the fact he understands that efforts had been for two years past, to induce the government to erect special hospitals where soldiers might be treated

amid surroundings that would be conducive to restoration to health.

Canon Scott said in conclusion, "It is a disgrace that the government, which has done so much for the care and treatment of the wounded, should fail in its duty to what must be regarded the most pitiable sufferers from the war. The matter constitutes a grave charge against those responsible for the care of our returned men, and the public should not rest until every man who is affected by shell shock or mental disease caused by the war, has found a home among his comrades, similarly afflicted, in special institutions under the control of military specialists, who are making a study of the new phases of mental derangement produced by the war."
