GUIDERS TRAINING CLASS

The Guiders of Charlottetown spent a very pleasant afternoon and evening last Saturday 19th, when they were present at a Training Class given by Miss Elizabeth Armitage, Red Cord Diploma Guide, at Keppoch. The weather was warm and sunny and all in attendance thoroughly enjoyed the sessions. Miss W. H. V. Dunbar kindly donated the use of one of her large cottages to the Guiders. This act was much appreciated and a hearty vote of thanks was extended to Mrs. Dunbar.

In bringing before the Guiders the important work they are doing, Miss Armitage outlined fully the Girl Guide program. Guiding is being done for the good of the Dominion in future, children are the future, therefore they must be trained to face it whatever may come. That is the duty of Guiders. Miss Armitage stressed the necessity of the Guiders' parents backing up what the Guiders are trying to do for their children so that there will be complete cooperation. The aim of Guiding is to produce a good character Commissioner Duchemin, after being tried by observation, ing moved by Mrs. Gordon Avarad obedience, self reliance and loyalty, and seconded by Mrs. Leith Wright.

St. Dunstan's Weekly News

The Student's annual Fall Retreat was held on Sept. 18-20th. The Retreat Master was the Rev. G. Crowley, C.S.S.R., of the Holy Redeemer parish.

At meetings of the Senior and Junior classes the following class-officers were elected: Senior: Allan Callaghan, President; Raymond Cyr, Vice-Pres.; David McTague, Secretary; Treasurer; Roman MacDonald and Gerald Forbes, Committee. Junior: F. P. Aylward, President; Owen Sharkey, Vice-Pres.; and Gertrude Butler, Secretary.

The Student's Council has been re-organized, and the following is a list of officers for 1942-43: President, Allan Callaghan; Vice-Pres., F. P. Aylward; Secy.-Treasurer, David McTague; Sophomore representative, Cletus Murphy; Freshman, Frank O'Keefe; High School, John Dalziel.

The C.C.S.M.C. held its reorganization meeting on the night of Sept. 20th. The Moderator, Rev. R. V. MacKenzie gave a short address in which he outlined the aims of the Society and stressed the need of aid for the Foreign Missions. The following officers were elected: President, Cletus MacGuigan; Vice-Pres., Cletus Murphy; Secy.-Treasurer, F. P. Aylward; Councillors, Roman MacDonald and Wm. MacGuigan.

F. A. Brennan and Orestes MacGuigan are endeavouring to interest the students in photography and hope to form a Photography Club. Recently they displayed on the Bulletin Board a very cleverly executed picture of a young musician who was apparently dreaming of a new composition. The caption of the picture was, "I dream of 'Baby Snooks' with the light brown hair".

Allan "Pee Wee" MacDonald, popular member of Junior Class, is a patient in the Charlottetown Hospital. Allan had the misfortune of sustaining a broken jaw in football practice on Friday, Sept. 18th.

Preston "Husky" Hammett has undertaken the work of moving the College Bookstore.

The rain of the past few days has slowed up all athletic activities. The track master Mr. Bossiter, is experiencing much difficulty in his efforts to keep the track in shape for training.

The officers of the A.A.A. have appointed Rod MacDougall and Bill MacGuigan to make a collection of snapshots of athletic activities at the College.

Mr. L. R. V. MacKenzie went by plane to Halifax last week to attend the meeting of R.C. Chaplains. He returned to the College on Monday.

Visitors to the College last week included Dr. and Mrs. Harold Devereaux of Sydney, N.S. Dr. and Mrs. Devereaux were on their honeymoon trip to the island. Dr. Devereaux was formerly a student of St. Dunstan's.

Col. Hammetton of Headquarters District No. 6 visited the College on Tuesday. He was on routine duties in connection with C.O.T.C.

WAS NATIVE OF PRINCE EDWARD ISLAND

HAMPTON BEACH, N. H., Sept. 25.—Funeral services for Mrs. Florence (Barrett) Munsey, 76, wife of Delwyn Munsey and a native of Prince Edward Island, were held here this week. The couple had been engaged for many years in conducting seashore resort restaurants at Hampton Beach, N. H., and Florida.

The services were held in the First Congregational Church. Besides her husband, Mrs. Munsey is survived by two brothers, John Barrett of North Dakota, and William Barrett of Canada; and two sisters, Mrs. Catherine Wares of Prince Edward Island, and Mrs. Elizabeth Hooper of Woburn.

GETS SILVER CROSS

LONDON — (C.P.) — Joyce Page, 17-year-old voluntary hospital worker whose prompt action saved a man wounded by German shell fire, has been awarded the Silver Cross of the Girl Guides Association for gallantry.

W. C. T. U. NOTES

First character, then service. Every purposeful man and woman will seek to serve his fellow-men. We are here to get God's will done, and each one is called to do his own part. Edwin Markham has well expressed it: "To each man is given his day and his work for the day. And once and no more, he is given to travel this way. And if he lies from the task, whatever the odds; For the task is appointed to him in the scroll of the gods."

There is waiting a work which only your hands can avail; And so if you falter, a chord in the music will fail. We may laugh at this sky, we may weep for an hour in the sun; But we dare not go hence till the labor appointed is done.

To each man is given a marble to carve for the walls of fate. A stone that is needed to heighten the beauty of all; And only his soul has the magic to give it a grace; And only his hands have the cunning to put it in place. Yes, the task is given to each man, no other can do; So you work in waiting; It has waited through ages for you."

WE ARE AT WAR

(Almost every word of the following message can be applied with equal force to Canada. Every citizen should read these forceful facts. Dr. Cullen, Pres., Colgate University, Cleveland, Ohio, is eminently qualified to deal with the matters under discussion. These are facts:—Editor Forward.)

We are at War. Alcohol and war do not mix any better than alcohol and gasoline. Perhaps a mere voter and a modest taxpayer should not be expected to bother his head about the conduct of the war, but the fundamental strategy seems to be for us to drink our way to victory. Is this to be any more successful than the strategy the Washington officials outlined for us in 1919 when we were supposed to drink our way to sobriety? Well, not so far, anyway. One naturally wonders whether seventy-seven days of prohibition at Pearl Harbor, before December 7, 1941, and seventy-seven days afterward might have saved us from the worst naval defeat this country has suffered in its one hundred and sixty-six years history, and whether we might have been saved also by the sorrow and loss caused by the deaths of nearly 3,000 who were killed there.

The experiment continued. According to press dispatches, during the seventy-seven days of prohibition in Oahu, there were 208 arrests, an average of 3.3 daily. When prohibition was discontinued by military order, the first day there were seventeen men and five women convicted of drunkenness, and during the next thirty days the number of arrests was over twenty-one more than six times the average during the seventy-seven days of prohibition. Bars, taverns, beerhalls, and other places are no fitting schools for soldiers who have a world war on their hands, and Army officials who think otherwise should reassign the thinking. The competent leader Van Leon told us that Singapore "maintains a set of barrooms the splendor of which is famous all over the Orient." How much this had to do with the collapse of the Gibraltar of the East has not yet been evaluated.

ALCOHOL QUIZ

(White Ribbon Tidings)

COULD THE FEDERAL GOVERNMENT RESTRICT LIQUOR SALE?

- 1. The Ottawa Government must not over-ride Provincial rights, but do these rights include manufacture of liquor?
- 2. Are any other restrictive measures within the power of the Federal Government?
- 3. What power controls publicity and advertising of an article that hampers the war effort?
- 4. Under the war measure Act, liquor advertising can be stopped throughout the Dominion since it is a non-essential and injurious commodity. Advertising actively stimulates sale, and some Provinces where advertising is prohibited are invaded and their laws are over-ridden by publications printed in other provinces carrying liquor advertisements. Ottawa could stop all that.
- 5. Where does control of export lie?
- 6. Has this fact of liquor shipments being given priority affected the success of our war effort?

The tragedies of Hong Kong, Singapore, Burma and Libya have a common cause—lack of the tools of war. Because of this thousands of brave men have died. Towards this tragic end, drink has been at least a contributing cause.

6. How has drink been a contributing cause in these defeats of the Allies?

By lowering efficiency, strong drink has decreased production, and, by occupying shipping space, it has hindered transportation. An all-out-war effort surely involves removal of all known causes of defeat.

ROUND THE WORLD WITH ALCOHOL

MISS ARCHIBALD ON INDIA

Miss Archibald's statements re India were made at the New Brunswick Provincial W. C. T. U. Convention, Saint John, October, 1941.

"Today," declared Miss Archibald, "20,000,000 living in seven provinces are under the Prohibition law and the dry districts cover an

area of 80,000 square miles. Some castles impose penalties on any of their number found drinking or distilling liquor. "Although the Congress Governments have resigned, the British Government is carrying on the program and the Viceroy has banned liquor at his social functions. No liquor advertisements are allowed over the air or anywhere. Yes, the Government is backing up the scheme and district after district is appealing that prohibition be introduced. "I see no reason why permanent success will not result. The people rejoice in the measure and are better clothed and those who used to spend three-quarters of their wages on liquor now are well fed and have a good sum in the bank. There is a happy, contented, buoyant air in the dry districts."

In Memoriam

MISS ANGELA MACKINNON

The death occurred at her home in Melrose, P. E. I., on Sunday, Aug. 9th, 1942 of Miss Angela MacKinnon at the age of 26 years. Angela was the youngest daughter of Mr. and Mrs. Winnie J. MacKinnon, her father having predeceased her about one year ago.

The late Miss MacKinnon was in failing health for about a year previous to her death. Suffering an illness, which she bore with fortitude, courage and patience. She cheerfully and with resignation awaited the final call and fortified by God's Graces she passed quietly and peacefully away in death on the above mentioned date.

The deceased was a lady of a quiet pleasant disposition and gentle demeanor. Her manner and behaviour greeted with a smile made her an endearing companion for all who had the pleasure of her company at home and in social circles.

Her passing so early in life will long be felt in her home and community, as she leaves us an example of life which may well be admired and followed by those who survive.

A consolation and strength to her during her illness was the frequent visits of her pastor, who devotedly attended to her spiritual and temporal welfare and administered to her the last rights of the Holy Catholic Church.

She leaves to mourn her passing a sorrowing mother, three brothers and one sister, Francis, Joseph, D. Pius, Melrose and Mrs. Francis Campbell, Charlottetown, P. E. I.

Her largely attended funeral, testifying to the esteem in which the deceased was held, took place from her late residence in Melrose on August 11th to St. George's Church, St. George's, at 10 o'clock. Rev. Father B. J. MacDonald, P. P., after which the mortal remains of a devoted daughter and loving sister were solemnly interred in the family plot in the adjoining cemetery.

The pall bearers were: James Morrison, Norman MacKenzie, J. D. Pius, George Christian, Urban MacKinnon and Lewis F. Campbell. J. P. MacDonald conveyed the remains by hearse to St. George's Church.

"May her soul rest in peace."

Card of Thanks

Mrs. W. J. MacKinnon and family. Melrose, wish to thank their pastor, neighbours, relatives, friends and others for the many acts of service and kindness, Mass Cards, floral tributes, letters of condolence and expressions of sympathy received during their recent sad bereavement.

Island Chicks Popular

The following is a report of Hatchery operations for the Province, season of 1942, supplied by Mr. A. F. Darnell, hatchery inspector:

No. of Hatcheries	11
Total Egg Capacity of Machines	155896
No. brooder flocks used	148
No. birds	16,800
No. brooders — pulkorum disease	18 (0.00%)
No. Saleable Chicks (by breed)	
Barred Plymouth Rock	156,369
New Hampshire Red	84,744
Hybrids	40,562

Stop that HEADACHE this quick way

Do as it shows here to get relief instantly

Why Aspirin "takes hold" so quickly

At the first time you take Aspirin to relieve a headache you have a surprise in store for you! For the pain goes almost at once!

But it's easy to understand why it goes so fast. For you can see with your own eyes how fast Aspirin goes to work, as shown in the picture of the glass above. And taken as directed, Aspirin is safe. In fact, Aspirin is said to be among the fastest and safest reliefs ever known for pain.

Try it. Ask for Aspirin... made in Canada. "Aspirin" is the trade mark of The Bayer Company, Limited.

This means that these males were from dams qualifying in R. O. P. as having laid at least 200 eggs per year with an average egg size of 2.200. South Africa claims with an average of 200,000 men and women it is the highest percentage per population of producers are using properly equipped brooder houses. Numerous

Caught by the camera in what are believed to have been its death throes was the Nazi U-boat bomber off the East Coast of Canada. The top picture was taken as the big Bollingbroke bomber skippered by Warrant Officer C. S. Buchanan of the RCAF, Ontario, and Ottawa, roared down to the attack. The U-boat is crash-diving and only its "jumbos" designed to ward off mines and submarine nets, appear above the surface at a crazy angle by later the second picture was made as the U-boat was blown to the surface at a crazy angle by big depth charges dropped by the bomber. Another depth charge was dropped, the sub sank and only remaining signs were bubbles of air and then a big patch of oil.

Long hours of wearying patrol in fair weather and foul over the Atlantic waters off Canada's East Coast brought reward to this Royal Canadian Air Force crew of a Hudson bomber. They caught a Nazi U-boat full surfaced and scored what has been assessed as a "kill." Secrecy which necessarily surrounds the activities and successes of airmen on operations in Canada who are just as much in an active theatre of war as their comrades overseas, was broken sufficiently by Air Minister Power to provide four typical examples of their attacks on U-boats. G. catching the Nazi's napping in the conning tower, the Hudson skippered by Squadron Leader N. E. S. mall, AFC of Hamilton and Vancouver, approached within 300 yards before the U-boat crew realized its danger and scrambled to close the hatches. As the submarine crash-dived, depth charges rained on it and the sub was thrown to the surface again by a great explosion. When it sank, oil slick and wreck kage told of its doom. The victors, pictured above from LEFT TO RIGHT are: Flight Sergeant R. A. Coulter of Vancouver, wireless operator-air gunner, Squadron Leader Small, Pilot Officer G. E. Francis of Stellarton, N.S., navigator; and Flight Sergeant D. P. Rogers of Edgeby, Sask.
