THE SITUATION IN ALBERTA

Special to The Guardian. EDMONTON, March 10.—The Ruthford administration is near the close of its career but the Liberal party still holds sway in Alberta. Who the new leader will be is a difficult conjecture. It is hardly likely that any of the insurgent faction will be acceptable to command support from the present government forces and the only solution seems to be the election of an outside man. Chief Justice Sifton is named but no one has any authority to believe that he would accept.

NEW STEAMER

Special to The Guardian. LONDON, March 10.—Louise Hays, daughter of the President of the Grand Trunk Pacific at Walsend, performed the ceremony of naming the new passenger steamer "Prince George."

FAILURE DENIED

Special to The Guardian. BOSTON, March 10.—A statement issued from Chipman's Boston office denies the reported failure of the St. Croix Jewelry Co., St. Stephen. There is no announcement yet on the banking situation. People are gloomy and are not expecting anything satisfactory.

ARE NOW 2,272 BRANCH BANKS

ST. JOHN, March 9.—There are now 2,272 branch banks in Canada, distributed as follows: In Canada 2,222 Ontario 927 Quebec 349 Nova Scotia 107 New Brunswick 69 Prince Edward Island 16 Manitoba 181 Alberta 224 Saskatchewan 134 Yukon 3 In Newfoundland 6 Elsewhere 44 Total 2,272

ANNAPOLIS' HOPES ARE SHATTERED

ANNAPOLIS, N. S., March 9.—The Eastern Steamship Company of Boston have decided not to run their boats to this port and Port Wade this summer, as was proposed, in order to compete with the new Dominion Atlantic Railway service between Digby and Boston. A vote received here today says arrangements have been made for connections at St. John with the Prince Rupert from Digby.

BRITISH NAVAL ESTIMATES FOR 1910 JUST ISSUED

LONDON, March 10.—The Navy estimates for 1910 issued by the Admiralty provided for expenditure of \$203,015,500, an increase of \$25,805,000 over last year. The increase is almost wholly taken up by shipbuilding armaments authorized by Parliament before dissolution. The new program provides for five large armoured ships, five protected cruisers, twenty destroyers and a considerable number of submarines.

A Formal Spring Showing

Of Everything That's New In Dress Goods, Silks And Broad Cloths At Paton's.

Have you been to Paton's and seen their beautiful Spring showing of new dress goods and silks? One lady was heard to remark that it is an alluring assortment and an opportunity to economize in prices of Standard Parisian and English wool goods and silks. Their display yesterday was epoch-making and unique, such beauty—such contrast—such color—Combinations are scarcely imaginable. Truly Spring is here. Note in the trees for the leaves are tight in their buds; not on the ground, for it is hard and sore; nevertheless, official Spring has come and her first dress goods and silks are blossoming in every part of the store at Paton's. Everywhere dress goods, Broad cloths and silks are gracefully draped in lavish profusion, the newness in beauty of weave and coloring, that only a new season bringing wonderful innovations can produce. To look over this beautiful assortment of fabrics, one would wonder

HIS SALARY WAS VERY EASY MONEY

Special to The Guardian. WINNIPEG, March 10.—Before the public accounts committee a man named Baderak employed by the government as school organizer among Bulgarians but in reality a political organizer with a salary of \$75 per month, admitted that he organized only three districts in two years and during the last year he had been out of the city only thirty-two days.

SCARLET FEVER

Special to The Guardian. LONDON, Ont. March 10.—Three children head within one week and the fourth dying is the terrible devastation scarlet fever made in the family of R. H. Giese. Of five children taken to the hospital only one will recover.

URGES FARMERS TO GROW FRUITS

ST. JOHN, March 9.—A. G. Turney provincial horticulturist, spent three days, March 3, 4 and 5, in Charlotte county under the auspices of the St. Andrews and St. Croix Farmers' Institute. Demonstrations of pruning and grafting were given in the illustration orchards at Waweig on Thursday afternoon, and in the orchard of Mr. Lawrence at Bayside on Friday afternoon. Evening meetings were held at the Manse, Waweig and at the Leeverhill school house, at which Mr. Turney spoke on the improvement and establishment of home orchards, and on strawberry growing. He urged the advisability of local farmers capturing the profitable market for small fruits in the neighborhood of St. Stephen and St. Andrews, which market up to the present time had been supplied from Montreal.

On Saturday morning Mr. Turney visited some orchards in the Leeverhill section and advised their owners as to treatment, and in the afternoon he pruned the illustration orchard of W. E. Armstrong at Waweig. Considering the unfavorable weather, the meetings were well attended and considerable interest was manifested.

HOGS UP AGAIN TO \$100 MARK

MONTREAL, March 8.—Hog prices were the feature on the local live stock markets today, and as high as \$10 was paid, though prices generally ranged between \$9.85 and \$9.95 to \$10. Cattle were lower, showing a loss of about 20c. Receipts at the Montreal Stock Yards west end market were 1,500 cattle, 200 sheep and lambs, 1,200 hogs, and 25 calves. For the week 2,300 cattle, 325 sheep and lambs, 1,800 hogs and 650 calves.

POLITICAL SMASH-UP REPORTED IN ALBERTA

CALGARY, March 10.—The latest report from Edmonton states that Premier Rutherford has resigned and Cushing has been asked to form a Government. Buchanan, Minister without Portfolio, has resigned, joining Attorney-General Cross. Marshall and Lessard will also resign. Woods, Deputy Attorney-General has resigned. Cushing, who threw up the Portfolio of Public Works at the beginning of the crisis over the Waterways Railway, will be called upon to form a new Ministry and the Legislature will adjourn. Minard's Liniment Relieves Neuralgia

YESTERDAY AT THE SUMMERSIDE SEED FAIR PRIZE LIST TO DATE.

With ideal weather and a large attendance from all parts of the Province the second day of the Provincial Seed Fair was all that could be desired. The regular trains arrived with the cars well filled with visitors to the Fair. Also the special which arrived shortly before noon brought many prominent persons from Charlottetown and King's Co. With flags and bunting displayed from many buildings, Summerside presented a lively appearance. In the unavoidable absence of Lieut. Gov. McKinnon, the Fair was formally opened at noon by Hon. Mr. Richards, Commissioner of Agriculture. The exhibits of grain and seeds were pronounced by the judges as being much superior in quality to that of 1909, there being not one sample present of an inferior quality. Of the large number of samples of potatoes there were only a few varieties that were not close up to the standard of last class. In the Domestic Science Department the great variety of bread, cakes, pies, pickles, preserved fruit, candies etc., made a magnificent display and from the view point of the ordinary visitor it would be a very difficult task to decide where the highest reward should be placed. Certainly none could do it but experienced judges. While there may have been some visitors present who took little interest in the splendid show of good seeds and fancy cooking it is safe to say that there was not one person from the youngest to the oldest who was not interested in the splendid show of live poultry. A crowd of admirers were by them from early morning till late at night. Some of the ladies admitted that they had made four separate visits to the building to see them. The Women's Convention opened in St. Paul's Hall, Summerside, yesterday morning. Mrs. T. Holman presided and after some very practical remarks introduced Miss Grace Dutcher, who gave a lucid talk on "Beef Cuts," illustrating her remarks by means of a chart which gave the audience a very logical idea of the manner in which a carcass of beef should be cut. She told of the structure of beef and of the best ways of cooking economically to secure the most nutriment. Miss Holman's talk on "Arts and Handicraft," was greatly enjoyed. She spoke of the fine work done in this province in weaving, etc., and said that it was equally as good as that done in Montreal, but that it was in the colorings and patterns that provincialists lacked. This could be easily overcome by the organization of societies for improvement along these lines. At the Market Hall in the morning Prof. Cummings, Principal of the Truro Agricultural College addressed a crowded meeting of farmers and gave an instructive address on "Fumes in the Maritime Province Soils."

At the afternoon meeting Mr. Deed-meyer, the American Consul spoke on the different phases of agriculture on P. E. Island and told of the many fine reports he had made of the exports of this Province. A discussion followed in which many gentlemen took part. At the woman's meeting, in the afternoon, Miss Katherine James, Charlottetown read a thoroughly prepared paper on Home Sanitation. She spoke of the importance of building to secure the best light, sanitation and sunlight, of the importance of cleanliness beginning at the cellar which should be as well lighted and ventilated as any room in the house. Miss James spoke of Sunlight as a great preventer of disease and told of the many ways of eliminating and preventing disease. Regular ventilation should always be maintained in the home. Water is one of the most important features in sanitation and great attention should be given to plumbing so that nothing infectious could reach the water. Greatest care should be taken especially where water is secured from springs or pumps. At the close of Miss James' address Father Gauthier said some very pleasing things in connection with her paper and tendered her a hearty vote of thanks. Miss Grace Dutcher next spoke of saving devices in the home and recommended systematic work in the household; a map for the tired housewife each day; and such labor saving articles as washers, bread-brakers, sweepers, etc. The home should be planned with labor-saving as the foremost thought and furnished to save work and money, always keeping in view, pure air and good sanitation. The meetings were all well attended and much interest was manifested in them.

Gallant, 2 Harry L. Fowler.

CLOSE ELECTION FOR I. C. R. MEMBERS OF THE PROVIDENT FUND

TRURO, March 9.—The Truro delegates returned home from Moncton this evening well satisfied with the election of W. B. Hutchinson, despatcher of Truro, to one of the vacancies on the provident board of the I. C. R. Mr. Hutchinson led the polls and from the number of votes given him it is easy to see he has the confidence of the intercolonial employees. The men running and the votes polled by each were: W. B. Hutchinson, despatcher, Truro, 1,596; Conductor Thompson, Moncton, 1,501; J. D. Martin, engineer, Truro, 1,463; John A. Fraser, machinist, Moncton, 1,370; Mr. Beagan, mechanical clerk, Moncton, 1,126; Conductor Cochrane, Moncton, 861.

STATIONERY

Special to The Guardian. TORONTO, March 11.—Moderate winds; fine. Not much change in temperature. The length of today will be eleven hours and thirty-nine minutes. The temperature at three o'clock this morning was eighteen degrees above zero.

BURIED UNDER FALLING WALLS

Special to The Guardian. PITTSBURG, March 10.—Forty men, mostly foreigners employed in raising the ruins of a foundry destroyed by fire, were buried by falling walls today. Five workmen were taken from the debris dead and many are in the hospitals severely injured. One died on the way to the hospital.

HALLEY'S COMET

Special to The Guardian. CAMBRIDGE, March 10.—Halley's Comet can be seen with an ordinary field glass. The most favorable time is between 9.30 and 7.50 p. m. somewhere above where the sun sets.

ERA OF PROSPERITY IN NEWFOUNDLAND

ST. JOHN'S, Nfld., March 9.—This "Ancient Colony" was never more prosperous than at the present time. The indications in this direction which have appeared since the beginning of the pulp and paper industry and the extension of the railway systems on the island were made definite today when the financial commissioner presented his annual budget to the colonial assembly. His figures estimate the revenue for the coming fiscal year at \$3,250,000, an increase of \$400,000 over the receipts of the last year. The government expenses during the year are estimated at slightly under \$3,000,000. Like the unexpected revenue, the estimated surplus of \$250,000 is the largest in the history of the province.

1 Thos. Moise, 2 John Dickie, Summerside; 3 Hubert Arsenault, 4 Arsine Gallant, Miscouche; 5 B. Des Roches, Miscouche; 6 L. A. Arsenault, 7 John Dickie. FLAX 1 Amos Rodd, North Milton; 2 Mrs. A. McLeod, Rose Hill; 3 W. A. McLeod, Lot 16; 4 W. G. Taylor; 5 Percy Marchbanks, 6 Judson Simpson, Belmont; 7 Richard Creed, Albion.

BARLEY, Two Rowed 1 J. A. Taylor, Freetown; 2 Amos Rodd, North Milton; 3 A. E. McLeod; 4 Hubert L. Arsenault, Urbanville; 5 W. C. Clark; 6 Horace Wright; 7 A. J. Craswell, St. Eleanor; 8 Albert Schurman; 9 W. G. Taylor; 10 R. L. Schurman. BARLEY, Six Rowed 1 Horace Wright, Lower Bedouque; 2 A. E. McLeod, 3 Hubert L. Arsenault; 4 D. M. McLeod, Mt. Royal; 5 W. P. Callaghan. PRESERVED FRUIT 1 Mrs. F. B. Armour, Alberton; 2 Mrs. George Taylor, C. Beque; 3 Mrs. L. U. Fowler; 4 Mrs. H. F. Lee; 5 Mrs. C. A. Meikle; 1 Mrs. John A. Murray.

CANNED FRUIT 1 Mary D. Schurman; 2 Mrs. L. U. Fowler; 3 Mrs. Dr. A. A. McNeill; 4 Mrs. N. McFarlane; 5 Mrs. J. A. Murray; 6 Miss Lydia Nicholson. COLLECTION PICKLES 1 Mrs. F. B. Armour; 2 Mrs. D. J. McMurdo, Summerside; 3 Mrs. Geo. D. Taylor; 4 Mrs. W. H. McGregor, Central Lot 16; 5 Mrs. N. McFarlane, 6 Mrs. Geo. McFarlane, Fernwood. WHITE BREAD 1 Mrs. John Rogers; 2 Celia McLeod, Summerside; 3 Mrs. Jos. Gaudet; 4 Iris E. Coles, Bayside; 5 Miss Mary McLean; 6 Miss Jemie Rogers, St. Eleanor. SPECIAL PRIZES One barrel of Holman's Leader flour, donated by R. T. Holman, Ltd. for the largest and most creditable number of exhibits in Household Science—Mrs. Jos. L. Gaudet, Summerside. Brass Kettle donated by Brace, McKay & Co. for the largest and most creditable number of exhibits in sections 18, 19 and 20, Household Science Department—Mrs. L. U. Fowler, Bedouque.

MEDICAL STUDENTS ARE SAID TO BE GRAVEYARD ROBBERS. TORONTO, March 10.—Dr. Connell, Dean of the University Medical Faculty declares that the municipal laws are driving students to rob graveyards. Bodies are difficult to obtain for dissection and it is better not to enquire too closely into the methods of obtaining them.

PHILADELPHIA, Pa., March 10.—The strike movement assumed greater activity last evening. It is now claimed 135,000 persons are idle and the Pennsylvania has demanded a national sympathetic strike. Minards Liniment Cures Burns, etc.

PHILADELPHIA, Pa., March 9.—Six persons, including a young girl, were wounded tonight by bullets fired by a party of alleged strike-breakers, who rode wildly up and down Frankford Avenue in a trolley car and shot into the crowds that lined the sidewalks. After one of the most uneventful days since the beginning of the strike, the stoning of cars was renewed tonight along Frankford Avenue, the principal thoroughfare in the mill district in the northeast. A stone thrown by one of the crowd injured a strikebreaker motor-man. Infuriated at this, a crowd of about fifteen of his comrades took out a car, all the windows of which they broke with their clubs. As the car, loaded with armed strike-breakers, sped down Frankford Avenue, bullets were rained at the crowd. Policeman Bragg, who was standing on the sidewalk, received a bullet in his helmet, about an inch above his head. Helen May, fourteen years old, was struck in the leg by a bullet. John Maloney, eighteen years old, and Michael Osborn, twenty-four, were also shot in the legs, and Frank Bromley, twenty-three, received a bullet in his foot. The wounded were removed to the Frankford Hospital. Two other injured were taken to their homes. After reaching Alleghany Avenue, the car was switched to the north-bound track by its crew and the dash back to the barn began. So swiftly was it driven out that before the crowd realized that it was coming back it had sped past them and into the barn again. The shooting of offensive by-standers worked the crowd to a high pitch of excitement and as other cars came down the street the mob wreaked them, in several instances leaving only the trucks on the rails. About a dozen arrests were made. There were a few minor outbreaks in the downtown district late tonight. Both the police and the labor leaders busied themselves all day preparing statistics to support their widely divergent claims of the strength of the sympathetic strike.

135,000 PERSONS OUT ON STRIKE. PHILADELPHIA, Pa., March 10.—The strike movement assumed greater activity last evening. It is now claimed 135,000 persons are idle and the Pennsylvania has demanded a national sympathetic strike. Minards Liniment Cures Burns, etc.

PHILADELPHIA, Pa., March 10.—The strike movement assumed greater activity last evening. It is now claimed 135,000 persons are idle and the Pennsylvania has demanded a national sympathetic strike. Minards Liniment Cures Burns, etc.

CORONER'S JURY ON SNOWSLIDE

Special to The Guardian. VANCOUVER, March 10.—After dodging another snowslide the coroner's jury in the Rogers' Pass slide returned to Revelstoke. The inquiry developed one pathetic feature. Freeman McDonald of Sydney, Cape Breton, was an exceptionally heavy and strong man and after being buried in the slide he retained enough consciousness to fight his way to the surface. He gained two feet and only two feet of snow remained between him and the open air when he suffocated. There was not a bruise on his body. An avalanche descended at Field and engulfed a switch engine. The crew escaped although injured.

BOXES CONFUSED

Special to The Guardian. HAMILTON, March 10.—People who wondered how letters went astray have discovered that they have been posting letters in garbage receptacles painted the same color as the letter boxes.

A SAD DEATH

Special to The Guardian. ONEMERE, Ont., March 10.—Arnold Toole, a prominent farmer, was found dead on the road near his farm house. It is supposed he tried to break the road on a drifted highway. The horses were found dead a few rods away having perished from exhaustion and exposure.

WILD SHOOTING IN PHILADELPHIA

PHILADELPHIA, March 9.—Six persons, including a young girl, were wounded tonight by bullets fired by a party of alleged strike-breakers, who rode wildly up and down Frankford Avenue in a trolley car and shot into the crowds that lined the sidewalks. After one of the most uneventful days since the beginning of the strike, the stoning of cars was renewed tonight along Frankford Avenue, the principal thoroughfare in the mill district in the northeast. A stone thrown by one of the crowd injured a strikebreaker motor-man. Infuriated at this, a crowd of about fifteen of his comrades took out a car, all the windows of which they broke with their clubs. HONEST DOUBT

There lies more faith in honest doubt, Believe me, than in half the creeds' Like tides on a crescent sea-beach, When the moon is new and thin, Into our hearts high yearnings Come welling and surging in, Come from the mystic ocean Whose rim no foot has trod, Some of us call it Longing, And others call it God. A picket frozen on duty, A mother, starved for her brood, Socrates drinking the hemlock, And Jesus on the road: And millions who, humble, nameless, The straight, hard pathway trod: Some call it Consolation, And others call it God.
