THE BASEBALL CLUB is again under way everyone is glad to see the boys start this popular and interesting sport again. Although bereft of many of the old members there is a very promising class of young players practicing hard to make a place on the team. The club now has in prospect a new field on which they intend to make a first class diamond. This is a sport in which everybody should take an interest either in playing the game or by encouraging the players. The cost of making a new diamond, together with the necessary requisites, is going to amount to quite a little sum, and the boys would be very much encouraged by a donation, however small, from the public. They say Souris is a dying town as far as sport is concerned, but, people of Souris, let them say this no longer but do the best they can to help the boys, and they will show appreciation by working for all that is in them. Charlottetown, Georgetown, Montague and Summerside all have their baseball teams. Why can't Souris, the third largest town of P. E. I., have theirs? This is the question put to the public of Souris and the boys expect them to aid a sport which should be played from one end of the world to the other.

To the Wise and Right Thinking Investor!

Does This Not Appeal To You?

FIRST. Five pairs of "Proved Breeders" of the very best stock, Daiton, Oulton and Gordon Strain from one to three years of age, which have had an average litter of four and a half pups to each pair.

SECOND. The charge for the keep of these foxes is only fifteen per cent of the increase which is much lower than that charged by the majority of ranches, besides you have the advantage of having the services of an Experienced and Successful rancher.

THIRD. A Guaranteed Dividend of twenty per cent assured to every stock-holder for 1914, and with the best of prospects of earning from seventy to one hundred per cent.

FOURTH. The average results from 1913 litters proves conclusively that an investment in stock with "Proved Breeders" is worth more than double that of young non-proved breeders.

The stock of this company is being taken up rapidly by conservative investors throughout the Island, and from all parts of Canada, and also from the United States, and Europe.

This is certainly remarkable in view of the stock having been on the market for so short a time.

All of the above attractive and essential features are offered by the
