WEDDING ANNIVERSARY

A very enjoyable evening was spent at the home of Mr. and Mrs. Neville Large, Albany, on Jan. 21st when a large number of friends assembled to congratulate them on their fiftieth anniversary of their marriage. The evening was enlivened with music interspersed with songs, and games appropriate to such an occasion were successfully played to the satisfaction and enjoyment of all present. Needless to say a very attractive and pleasing feature of the evening was witnessed when the company repaired to the spacious dining-room and took their places at a table set with exquisite neatness and abundantly covered with delectable dainties. After the party had satisfied the wants of an appetite intestified by so inviting a display they passed the remainder of the evening in various amusements until the gentle murmur of parting sighs and the lingering echoes of many a fond good night announced the end of a pleasant event.

Yes, soon our worn, and weary feet,
Will reach the golden strand,
Where those we love our coming wait
In yonder summer land;
A few more days, a few more years,
By storm and tempest driven,
With songs and everlasting joy,
We all shall meet in Heaven.

JOHN MCLEOD.

On Thursday of last week the mortal remains of the late John McLeod of Quincy were conveyed to their last resting place in the Hartsville Cemetry from the home of his brother-in-law Rd.McLeod.

An unusually large congregation were present on the occasion to show their undeminished regard for the memory of a man who was held in highest honor among them all his life. The endowment belongs only to a few to maintain such an unbroken record for good for so long a period. It wasn't a case of intense application to well doing when his powers were on the decline. From his youth up he showed the same steady interest in every measure designed to promote the good of man and the glory of God. Temperance, Sunday School work, prayer-meetings found him unflagging in his zeal for over fifty years or as long as his strength lasted. Young people were the objects of his prayerful care.

He gave two generations in the Strathalbyn congregation the benefit of a life that was like the bright and shining light. He taught school for many years in Hearstville, Spring field and Summerside and in all those places his scholars revered his memory. Blessed with a serene temperament an attractive personality he made friends easily and never lost a friend. He left a large family to mourn the loss of a devoted husband and loving father. A wife, five sons and three daughters. Dr. John M. and Mert who were present at the funeral William, Alex, Newton and Mrs. A. Marbin all of whom reside in Quincy, and Mrs. Rev. J. W. McKenzie, Belfast and Mrs. Rev. A. B. McLeod of Claremount Calif. Services were conducted by Rev. Mr. Stavert of the Hartsville Cong assisted by Rev. J. W. McKenzie.

Public Is Warned Against Taking Substitutes For Nuxated Iron

Physicians Below Say That Ordinary Metallic Iron Preparations Cannot Possibly Give The Same STRENGTH, POWER AND ENDURANCE As Organic Iron—Nuxated Iron

United States Judge Atkinson Gives Opinion

Careful investigation by physicians among druggists and patients has revealed the fact that there are thousands of people taking iron who do not distinguish between organic iron and metallic iron, and that such persons often fail to obtain the vital energy, strength and endurance which they seek, simply because they have taken the wrong form of iron.

Therefore, physicians mentioned below, advise those who feel the need of a strength and blood builder to go to their family doctors and obtain a prescription calling for organic iron—Nuxated Iron—and present this to their druggist so that there may be no question about obtaining the proper article. But if they do not wish to go to the trouble of getting a prescription for Nuxated Iron then be sure to look on the label and see that the words NUXATED IRON are printed thereon—not Nux and Iron nor any other form of Iron, but Nuxated Iron.

The remarkable results produced by Nuxated Iron and its widespread sale (it being estimated that over three million people annually are to-day using it), has led to the offering of numerous substitutes, and these physicians say that health officials and doctors everywhere should caution the public against accepting substitutes in medicines and they especially warn against accepting substitutes for Nuxated Iron, which, instead of being organic iron may be nothing more than a metallic iron compound which may in some cases produce more harm than good. The widespread publication of the above information, has been suggested by Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital; Dr. Ferdinand King, New York Physician and Medical Author and others, so that the public may be informed on this subject and protected from the use of metallic iron under the delusion that it is Nuxated Iron or any form of anything as good as Nuxated Iron.

Judge C. W. Atkinson

United States Judge C. W. Atkinson, of the Court of Claims, Washington, D. C., says: "It is without hesitation that I recommend Nuxated Iron to persons who in the stress of physical or mental labors have permitted the system to become debilitated, the body exhausted or the nerves run down. It has restored my appetite and my vitality. I feel that I have dropped off the burden of months of toil in the few weeks that I have been following the very simple directions for the use of Nuxated Iron."

It is surprising how many people suffer from iron deficiency and do not know it. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength and see how much you have gained.

MANUFACTURERS' NOTE: Nuxated Iron, which is prescribed and recommended above by physicians, is not a secret remedy but one which is well known to druggists. Unlike the older, inorganic iron products it is easily assimilated does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by Geo. E. Hughes, Apothecaries Hall, E. A. Foster Central Druggist H. J. Mabon, Montague.

Does Life Insurance Pay? Judge for Yourself

In this and following issues of this paper I am going to show you the experience of a few of our own leading citizens with Life Insurance.

Life Insurance Companies are no longer permitted to make estimate of profits to be paid ten, fifteen or twenty years hence. That is well and the law should have been made to read that way thirty years ago.

But actual results, results obtained by men you know right here in your own home town, not in Ontario or Manitoba or New Brunswick but right here. That is another matter.

For over fifty years THE CANADA LIFE has been doing business in Prince Edward Island and today this Grand old Company is doing a larger business than ever. I honestly believe it the best Company in the world to insure with.

Results of policy 12019. W. T. Huggan Plan—Ordinary Life Premium $16.40 per year Amt. of policy $1.000 Taken out 1872.

Total premiums to end of year 1914, $688.80 value of Policy 1914, $1781 25.

Profits added to face of the policy exceed the premiums paid by $92.45.

Life Assurance paid in this case. It will pay as well or better in yours.
