Ready To Ascend Throne

(A.P. By Guardian's Special Wire)

BRUSSELS, Feb. 7.—Informal quarters here were agreed today that everything was ready for immediate action on the part of the League of Nations, should circumstances warrant.

Although events do not appear ripe for such an action, the pretender's son, Henry, Count of Paris, an experienced aviator, would be able to convey his father personally to France at any moment, if necessary.

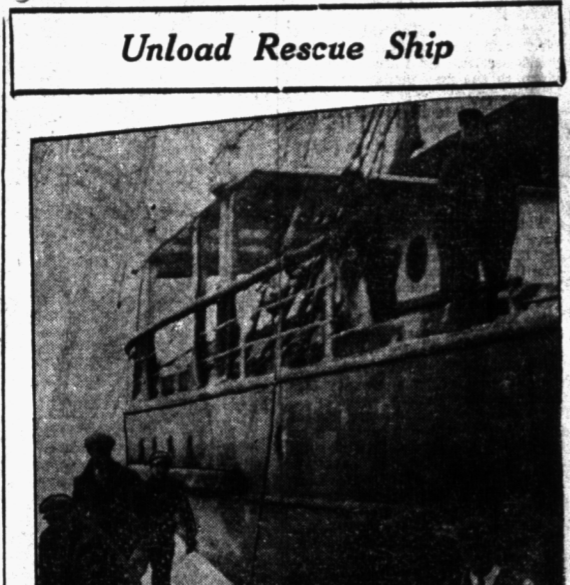

The Duc De Guise, who would be to reign as King Jean III, is in permanent touch with his partisans in Paris, who are reporting on developments in the

He suggested compulsory reduction of interest on conversion of government bonds at lower rates and the issuing of \$100,000,000 in cash to establish a reconstruction purchasing board.

PARIS, Feb. 7.—Terror struck at the heart of Paris the second time tonight as savage rioting raged in the Champs Elysees, the Rue Royale, and streets leading to the Presidential Palace.

Two persons died of their injuries in a hospital, bringing the total known dead to 12.

Two hundred were injured, at least 25 seriously, some of them from bullet wounds during the second night of riots but the insurrectionary disorders appeared to be under control.

Premier Edouard Daladier stepped out as a result of Tuesday's bloody fighting, and President Albert Lebrun immediately called the beloved 70-year-old veteran Gaston Doumergue to save the precarious situation.

Another branch of the Carnegie Library was opened in the Province yesterday at Kensington. The Premier, the Hon. Dr. MacMillan was present and gave an eloquent address. The ceremony took place in St. George's Hall at two p. m.

EXPLORATION OF THE STRATOSPHERE

MOSCOW, Feb. 7.—International cooperation in the exploration of the atmosphere to the end that all nations may share in the benefits will be proposed by Soviet scientists, it was learned today.

Foreign balloonists, especially a Russian conference of scientists, Mr. G. W. W. W. and Major Chester Fordney of the United States official record holders for stratosphere flights, will be welcomed, it was learned, at an all-Russian conference of scientists, pilots and engineers to be called at Leningrad in April.

At Cross Roads

Canada stood at the economic cross-roads, the Manitoba member said, urging the Government to accept a motion proposed by George Coote, United Farmer leader for MacLeod. It proposed a large-scale national building program financed by new currency, to escape interest charges. No decision was made on the Coote motion, the debate not being concluded.

"There is an issue facing the Government today, the like of which has never faced any government in Canada," said Mr. Stitt. "To the extent to which the Government faces that issue it will be either victorious or defeated, and either the welfare of the great mass of the Canadian people will be enhanced or the opportunity lost."

Hot Bed Of Rioting

(A. P. By Guardian's Special Wire)

PARIS, Feb. 7.—One of the hottest fights in tonight's furious rioting was at the Hotel de Paris, where former Premier Edouard Herriot lives.

The rioters invaded the lobby, scattering diners and shouting "hang Herriot!"

Herriot was in a room upstairs and was not touched. The rioters were finally driven out.

The Hotel Claridge, where lived the late Serge Stavisky, founder of the Bayonne Pawnshop and one of the immediate causes of the present trouble, was also invaded. Windows were smashed. The management closed the place up tightly.

Uncontrolled Inflation

Uncontrolled inflation was not acceptable to him, the Manitoba member continued, but "I believe of the kind of inflation which we have had in this country is wholly unground. It has been sweet sounding for the receivers of interest but it has meant ruin for the masses of Canadians."

"The Government proposed \$100,000,000 behind a reconstruction purchasing board, Canadian industry would receive \$1,000,000,000 in new money. The Government proposed that money would act as a hopper, where farmers could place orders and receive goods, attaching liens on their property without interest. The orders would go to Canadian manufacturers, financed by the \$100,000,000 fund."

Gales May Have Swept Crafts Far Out To Sea.

(C. P. By Guardian's Special Wire)

HALIFAX, Feb. 8.—(Thursday)—Fate of 25 Nova Scotia fishermen remained unknown early today as the Canadian Government Cutter Arleux ploughed her way through the blizzard-swept fishing banks in search of the schooners Dot and Hillie, and Hamel A. G.

The Dot and Hillie called out of Liverpool, N. S., Saturday with 20 men aboard and two days later reported to the wireless-equipped Lunenburg schooner Jean and Shirley, her engine was crippled. Aid from shore was sought but in the interim the Dot and Hillie, with only a flying jib and other bits of sail, had disappeared in the blinding snow-fall.

The vessel, however, was expected to survive the gales and fury of the turbulent sea. But consternation was felt for the safety of the other craft, a 20-ton schooner, meant for a day's fishing, which left Lunenburg Tuesday morning with only 15 gallons of fuel for her auxiliary engine.

When she failed to appear from her 12-mile trip, her owners, W. C. Smith and Company Limited, checked all coastal stations without success.

Only fear for the Dot and Hillie was that she might be carried far out to sea by the continuous gales, sweeping down from the northwest. Mariners said there probably would be no immediate danger to the crew.

Paris Newspapers Demand National Union Gov't.

(C. P. Cable By Guardian's Special Wire)

PARIS, Feb. 7.—A note of horror coupled with a demand for a reform of parliament run through today's press comments on last night's tragic rioting.

The Paris Midi compares the spectacle of French war heroes struck down as they chanted battle hymns to the Marxists with that of politicians run through with an armed guard. It demanded abolition of the Chamber of Deputies.

Marcel Lescan, in the same newspaper, calls for a national assembly and reform of the constitution, archaic constitution. Let us have a liberal and real republic, not one of "comrades." Give us a parliament which can legislate otherwise than under the protection of the army, and a government which can govern," he demanded.

The Right Wing newspapers want a government of National Union, with a dissolution of parliament, and revision of the constitution. The Left Wing newspapers, while regretting the tragedy, approve the Government's severe measures for maintaining order.

The Left want to know, yes or no, whether the Republic is being handed over to "Fascist reaction." Fascism they charge, will be the end of clearly purchased liberties in compensation with which the events of last night would seem minor.

Fear Expressed For Safety Of Youthful Adventurers

(C. P. By Guardian's Special Wire)

LUNENBURG, N. S., Feb. 7.—Declaring their attempt to reach Berlin means was "just a chance shot," Captain Angus Walters, skipper of the famous racing banker Bluenose, today expressed doubt that three young Ontario yachtsmen could navigate the schooner Osprey down the Atlantic from Lunenburg to the tiny island.

"Maybe they missed the island altogether," the veteran racing skipper said. The Osprey, her youthful crew making their first trip on salt water, has been out of Lunenburg now for 18 days, and is still unreported.

Dutch Tanker Lost In Explosion

(A.P. By Guardian's Special Wire)

HAMBURG, Germany, Feb. 7.—The crew of the small Dutch motor tanker Stormvogel was believed to have been lost when the vessel, carrying a cargo of gas-oil, blew up today. The boat, which grossed 55 tons was bound for Amsterdam to Stettin, Germany.

Riots and Fortunes Run Consecutively

(A.P. By Guardian's Special Wire)

PARIS, Feb. 7.—While police and troops were firing into rioting mobs today, several new millionaires were in the making.

A mile from the scene of battle the huge Trocadero Palace was jammed with people watching the French governmental drawing, with a grand prize of 5,000,000 francs (\$215,000) and 15 other prizes of 1,000,000 francs each. The population cheered the result of the drawing, apparently oblivious of the riots almost within earshot.
