POTATOES FOR HALIFAX.-The schooner Kitchener sailed this week from Charlottetown to Halifax loaded with a cargo of five thousand bags of potatoes shipped by Messrs John McQuillan and J. S. Wedlock.

VALUABLE ISLAND MINK.-Master Earl Williams of Tyne Valley, last week had the good fortune to capture alive one of the handsomest mink ever seen in this province. The animal is beautifully furred and very dark and its pelt, if sold would no doubt have brought a record price. Master Earl however believes in conservation and sold his capture to Mr. Nelson Waldron of Tyne Valley who has a mink ranch probably second to none in Canada. Mr. Waldron has given practical demonstration of the fact that mink can be successfully raised in captivity. He says they are as easily raised as cats and dogs and very much more profitable. Needless to say he finds no difficulty in marketing all he can raise and at exceptionally good prices as mink fur is away up.

AN INCIDENT.-That prohibition does not always prohibit was shown very plainly the other evening at a dance held just outside the limits of the undesignated area. Some of the undesirables proceeded to make themselves generally obnoxious. Had they been of the opposite sex no great objection would have been made as an importation of ladies had to be made from the city to try and accommodate the all too many male dancers. One of the members of the aforesaid party in endeavouring to return some "Mountain Dew" which had become inextricably mixed with "Sole goods" and other sundries was somewhat disconcerted by the appearance of something which was neither "flesh nor spirit" but which quickly disappeared in the darkness. Lanterns, flashlights and auto lamps failed to locate the missing articles. Whether they were trampled in the mud, whether the dog ran off with them or whether some of the boys in anticipation of the time when old age and "sans teeth" were a reality, pocketed them remains at present a mystery, but it is supposed that this ill wind blew somebody in the person of a Charlottetown dentist some good the next day. Kind friends made the suggestion that a "Lost" ad in the Guardian with a suitable reward might bring its own reward.

Minard's Liniment cures garget in cows

TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or are hard of hearing or have head noises go to your druggist and get 1 ounce of 'Farnim' (double strength), and add to it 1 pint of hot water and a little granulated sugar. Take one tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Closed nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

WHY HE EMIGRATED

Scot bored his English friends by boasting about what a fine country Scotland was.

"Why did you leave Scotland?" a Londoner asked, "since you like the

place so much?"

The Scot chuckled.

"It was like this," he said. "In Scotland everybody was as clever as myself, and I could make no progress, but here" - and he chuckled again - "here I'm getting along verra weel."
