THE TORTURES OF RHEUMATISM

Happily Stopped When He Began To Take "Fruit-a-tives"

3 OTTAWA ST., HULL, P. Q. "For a year, I suffered with Rheumatism, being forced to stay in bed for five months. I tried all kinds of medicine without relief and thought I would never be able to walk again. One day while lying in bed, I read about "Fruit-a-tives" the great fruit medicine; and it seemed just what I needed, so I decided to try it. The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me." LORENZO LEDUC. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Unless a man is capable of inventing excuses he should remain in the bachelor class.

Rev. Dr. Gauthier At Moncton

(Continued from Page One.)

It is the politician who tries to divide people in this time of reconstruction by raising the old cry of race and religion. We must preach the doctrine of good-will throughout Canada. The Canadian press is doing its share in this good work. Hon. T. A. Crerar, President of the Grain Growers' Association of the West, says that he who puts his hand in the public treasury is a thief, but he who exploits religious differences for his own ends is a traitor. The Prince of Wales in Canada spoke of harmony and toleration. There was not always fair play in Canada. Half a century ago the name of a Frenchman in many places was a reproach. He was "only a damned Frenchman." The French were poor and uneducated, and were only recovering from the great expulsion of 1755. England did not expel the Acadians, it was done by New England, before Old England knew about it, but it was done. The Acadians wandered back, and settled as far away from the English as they could. They were afraid of the English. When the speaker himself was a kid his mother often quieted him, when he was naughty with the cry "Les Anglais!"—the English. The descendants of these few hundreds, who came back to the land of their fathers, now number nearly 200,000 souls in the Maritime Provinces. They are proud of their language and loyal to the flag. If a vote were taken among the Acadians, not one would vote to return to allegiance to France. The reason is that they have been justly treated by England. They have enjoyed freedom of religion, and freedom of language so far. They desire to live peacefully with their English neighbors and cooperate with them. The Acadians have paid the price of war. In one battalion one-fourth were Acadians, though only one-seventh of the total population to be drawn from were Acadian. But in old times the highest compliment paid the Acadian by his neighbors was that he did not look like a Frenchman.

Situation in Quebec.

Is Quebec loyal? asked Dr. Gauthier. Before the ancestors of his audience were here, there was a mass, in 1776, between the English and Americans. Just before that England had passed the Quebec Act, giving Quebec self-determination. The Americans sent three commissioners to interview the Quebec clergy asking them to join with the U.S. in the revolt of the English colony against England. Among these delegates was Carroll, a Catholic, one of the signers of the Declaration of Independence. But the French clergy answered that they had taken the oath of fealty to England and would keep it. There were then no settled Ontario or west. England had only 1,000 soldiers in Quebec. Where would Canada be today had Quebec joined the Americans? So, in 1812, Quebec stood strongly for England. What about Quebec in the Great War? She objected to Canadian Kaiserism. Her language was then being proscribed in Ontario. And what about the small showing of enlistments? He (the speaker) had been told by a military medical officer, a McGill graduate, who won the D.S.O. overseas, that his superior officer had ordered that as few Frenchmen as possible be passed in the examination. They were told they were "flat-footed." He (Gauthier) was merely telling his audience what was told him by a man who had been at the front.

When you hear, said Dr. Gauthier, people talking about "one flag, one language and one creed," you would probably find they had difficulty speaking their own language. They would join the United States if they thought it profitable. How does England treat other languages. At her own door there are 1,000,000 Welsh-speaking people of whom 500,000 cannot talk English. Even in Monmouth County, outside of Wales, bilingual English-Welsh schools are maintained. And in Malta, where three languages are spoken, England allows all three to be taught in the schools. Here comes the rub. What about Canada. We've been to humble. Humility is a great virtue in spiritual life, but national pride, jealousy of national honor, was no sin, but a civic virtue. Canada is one-fourth French. In the west 43 per cent. are of foreign birth. In a country like this we must be careful to avoid all unnecessary provocation.

Inculcating National Spirit.

The Prince of Wales recognized Canada, not as a daughter, but as a sister nation. At the Canadian National Council of Education the second resolution was that we adopt a distinct Canadian flag. What do you think of that? The day shall come when, although we may be a nation within the Empire, yet we shall not be ruled from Downing Street—we shall take no dictation, no advice from that office. Canadians are of the best blood in the world. Let us each preserve our national character, but be united.

Dr. Gauthier's address. A hearty vote of thanks was moved by E. A. Reilly, K.C., and P. A. McCully, K.C.

Mr. Reilly congratulated the Club on its good fortune in securing the speaker, with all of whose remarks he agreed. The lecture was one of the best the Club had heard this year. Father Gauthier struck a convincing trend in advocating great care in education. Britain had long been distinguished for her tolerance. For example she had lately given Home Rule to Malta and self-government to Egypt. Tolerance was the first requisite of a united people.

Mr. McCully was sure that Dr. Gauthier's appeal for unity and cooperation was to the point. The speaker had touched upon vital questions and had trod, perhaps, on live wires and had made from his standpoint an eloquent and powerful appeal. He took much pleasure in seconding the vote of thanks.

Dr. Gauthier responded to the unanimous vote of thanks, and thanked the audience for their patience with his frank statements. Though harmony was not everywhere in evidence it was in N.B. and P.E.I. He had heard hard things said about the Orangemen but personally he had got on finely with them, had visited among them, had stayed with them, and had, last Easter, received a gold-headed cane from a Past Grand Master. He was going in a few days to Malpeque, where there was not a soul of his own flock, to address a Women's Institute in an Orange district. He was not afraid of meeting anything but kindness and courtesy and good-will. On the expedition that had left these Maritime Provinces, some of our soldiers whom we warmly welcome home are obliged to go to the States to find work, while the Canadian governments had spent vast sums to people the west with aliens who had raised the trouble in Winnipeg and precipitated a struggle that will yet have to be fought to a finish. The U.S. had done the same and was beginning to pay the bills. Let Canadians get together. Canada is a good place to live in.

The meeting closed with God Save the King in English and O Canada in French.

CENTRAL GUARDIAN

JAPANESE VISITORS.—Messrs. I. Shimahara and M. Suminokura of Tokio, Japan left Saturday for Ottawa en route back to Japan after a short visit to Charlottetown, during which they purchased a number of the best breed of Island foxes.

KINDNESS APPRECIATED.—Mr. and Mrs. Lowman Coombs wish to thank all those who in so many ways showed their sympathy for them on the occasion of the death of their baby boy, also those who sent flowers.

CAR STOLEN.—A McLaughlin light six car was taken from in front of the Davies Hotel on Saturday night or Sunday morning. It was found Sunday night out on the North River Road in a disabled condition. The owner is naturally indignant and if the guilty parties are found it will go hard with them.

A DISTINGUISHED ISLANDER.—Toronto Saturday Night publishes a photograph of Mr. Samuel J. Willis, B. A., recently appointed Superintendent of Education for British Columbia, but in its biographical sketch makes the mistake of crediting Nova Scotia as the birthplace of Mr. Willis. Mr. Willis was born in Kingston, P. E. Island and was gold medalist in Prince of Wales College in 1857. At McGill he tied with his nearest competitor for the Chapman Medal in classics. Latterly he has been principal of King Edward High School, Vancouver. He was also a famous professor of classics at the University of British Columbia. Mr. Willis is a son of the late Mr. Charles Willis and Mrs. Willis of Kingston. He also has four brothers at Kingston, namely Bertram, Hubert, Robert and Frank and two Charles and Lemuel in California.

PERSONALS

Mr. Angus McLean, Melville, was in Charlottetown Friday on a business trip.

Mr. Stanley Bayley representing The National Drug and Chemical Co. leaves this morning for Tignish.

Mr. F. T. Watkis entered the P. E. Island Hospital Saturday for treatment. The Guardian is pleased to learn that Mr. Watkis is not seriously indisposed.

Mrs. Barrie of Scotland, sister of Mrs. (Lieut.) McLaren of Longworth Avenue, who has been visiting here for a couple of weeks left Saturday for Crystal Lake, Ill.

In aspiration and spirit. We have been delinquent in Canada in the inculcation of a national spirit. We should feel and realize that we are as good as anyone else—and better—exaggerate our own importance, if you will. Let English, Scotch, Irish and French live harmoniously in this western land, and give us a hand of fellowship to any other nationality coming here to find freedom.

What is essential in a country like this? Tolerance of divergences, considerate treatment of minorities, justice to all. And let us, first of all, be Canadians. It is not to be expected that Canada should always remain dependent. Nations grow up and become of age. Canada's population is now great enough to achieve great things. When Rome was at her zenith she had no more people than Canada has now. Our population is as great as that of Ancient Greece at the height of her glory. A large population is not necessary to make a people great. We possess the two essentials—honor and stability in as great a degree as does any nation. Surely a great future is dawning upon us. Who shall say that Canada shall not be Time's greatest and last? A P.E. Islander, Father O'Brien, speaking after Archbishop of Halifax, wrote 40 years ago, a fine National Anthem, of which he would sing one verse in closing. "We need a new national anthem in Canada," said Dr. Gauthier. "We have one written by a French Canadian, but the translation spoils it."

Loud and prolonged applause followed Dr. Gauthier's address.

A hearty vote of thanks was moved by E. A. Reilly, K.C., and P. A. McCully, K.C.
