'Steeltex' Floor Lath CUTS COSTS

Pittsburgh STEELTEX Floor Lath is a combined form and reinforcing which offers important structural advantages and economies in concrete floor and roof construction.
No forms are necessary. Simply unroll over the joists, cut to length, draw taut by the stretcher supplied and fasten by clips... thus affording a safe walking surface even while upper floor slabs are being poured.
We can also supply similar types of STEELTEX for plaster, stucco and masonry veneer walls. Write for illustrated bulletin.
