THE PRINCE EDWARD THEATRE—"The Submarine Eye" a triumph of science, of mechanical art, of the photographic art and of the screen drama was shown yesterday at the Prince Edward Theatre. In this wonder feature of seven reels one can see the bottom of the deep. Among the startling sights were the actual photographs of the undersea, of the diver's fight with sharks, of the search for submarine treasure, of the aboard a modern submarine, of daily life of the navy's blue jackets—and through it all was a pretty romance. The picture was shown yesterday afternoon, and twice last night but will not be repeated today as there is a hurry up call for it on the mainland. A new all star program will be shown today and tonight.

SIR WILFRID LAURIER TO VISIT MONTREAL

OTTAWA, January 7.—Sir Wilfrid Laurier goes to Montreal on Monday to spend a few days. It was stated that there is no particular significance in his visit but that while there he will meet a number of his Quebec colleagues and discuss the political situation with reference to that province. Unless Mr. Blouin is elected by the soldiers' vote the French Canadians will be without representation until some new arrangements are made. Although all French seats are now held by followers of Sir Wilfrid, it has been suggested in some quarters, that he might be approached to use his influence in securing an election of a Liberal and a Conservative Unionist with a view to maintaining the racial representation in the Cabinet.

ANOTHER BIG DEAL IN BASEBALL

CHICAGO, Jan. 7.—The deals which brought Alexander and Killarney from Philadelphia, and Text Tyler from Boston to the Chicago Nationals, will be eclipsed by one President Weeghan is now planning, according to Manager Mitchell. Mitchell said the \$250,000, with which Weeghan started to buy a championship team, is not nearly exhausted, and that the biggest trade of the season will be announced in a few days. While Mitchell would not say who was concerned in the reported trade, it was intimated today that negotiations for Roger Hornsby, shortstop of the St. Louis Nationals, were still under way.

MORALE OF U-BOAT CREWS IS NOT GOOD

WASHINGTON, Jan. 7.—Admiral Benson, chief of operations, told the house naval committee today it was folly to believe there was lack of morale among German submarine crews and that from information gathered from German prisoners he believed their morale was the best in the German navy.

During the session, which was in private in the course of the committee's investigation of the navy's part in the war, Admiral Benson is also said to have told the congressmen a court of inquiry found that some mistake as to convoy might have contributed to the loss of the transport Atlantis, torpedoed by a German submarine with the first important military loss of the war.

Admiral Benson also said frankly that submarine chasers did not come up to expectations, and that he was responsible personally for building any considerable number.

The number of American ships torpedoed he said, were less than one per cent of those going into and out of the submarine zone under escort.

IF BACKACHE OR KIDNEYS BOTHER

Each egg meat also take glass of Salts before eating breakfast. Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush out the body's urinous waste or you'll feel a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headaches, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a table spoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity; also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia water drink which everyone should take now and then to keep the kidneys clean and active. Drug gets here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

More U-Boats Are Being Sunk

LONDON, Jan. 7.—Although the sinkings of ship of large tonnage in the past week have been rather heavy, the total for December is characterized as satisfactory, being only slightly larger than for November, which established a low record. The tonnage sunk during December was well below that of any month previous to September. Against this, however, the sinkings of submarines were greater in December than in any previous month since the war began. Naval men declare that more submarines were sunk in December than the German shipyards were able to launch; so, the German submarine navy may now be said to have begun actually to shrink—a process which the Allies hope to accelerate rapidly with the increasing effectiveness of naval methods.

ONLY 50 KILLED IN GUATEMALA

The fatalities as a result of the disturbance aggregate fifty, while only 100 persons were injured. Earth shocks continue, but they are weak. Relief committees are being formed all over the country and a section of the Red Cross will depart shortly for Guatemala, taking medicines, blankets and other necessities.
