Know the Value of Pyramid Pile Cure.

"Gratitude alone prompts me to testify to the efficacy of Pyramid Pile Cure. Last March I bought a dollar package at the drugstore, which cured me of bleeding piles, and I was a sufferer from them for eight years; but I had not been troubled with them since, until last September, when I gave birth to a baby girl, and after that I had a very severe case of protruding piles, which a trained nurse said was the worst case she ever saw, and my doctor told me to get Pyramid Pile Cure again, which I did and was completely cured in three days. I have not had piles of any kind since, and it is all owing to this wonderful remedy. My nurse took a box, which I was glad to be able to give her, for I know she will be able to help lots of suffering people whom I could never see or know.

"I recommend 'Pyramids' wherever I know of any one suffering as I did. It gives me great pleasure to be able to say I am entirely cured, which my doctor says is true. I say God Bless Pyramid Pile Cure." From a former great sufferer, Mrs. F. S. Annett, 1206 Unity St., Frankford, Philadelphia, Pa. This remedy, which is sold by druggists generally, in fifty cent and dollar packages, is in a suppository form, is applied directly to the parts affected and performs its work quietly and painlessly. Its value is evidenced by the testimony given above, and we urge all sufferers to buy a package now and give it a trial to-night. Accept no substitutes and remember that there is no remedy "just as good." A little book on the Cause and Cure of Piles is published by the Pyramid Drug Co., Marshall, Mich., and will be sent free to any address.

DUMB animals are said to have instinct but no intellect; and in the ordinary "horse sense" shown by some beasts gives evidence of a degree of intelligence at least equal to that of some men. It matters not even how little instinct a dumb animal may have it would not be difficult for man to know when the beast was hungry or thirsty, but the poor brute may often suffer in many other respects and man with his great brain would fall to observe that anything was wrong, to say nothing of how little some men might care. A strange incident happened in Summerside yesterday by which a horse, owned by one of our citizens showed that he knew something, if he was not possessed with what man terms knowledge. The animal got clear of his huster at the stable and ran direct to the blacksmith shop of our chief town officer, apparently on some important mission. Unlike the taxpayer looking for a settlement of some grievance or an aspirant to some office, the animal was not at first allowed admission and was turned away, but continued in his endeavors as best he knew how to gain entrance. The door was partly opened and the horse allowed to pass. It soon dawned upon the blacksmith that the animal badly needed shoeing, and the want was immediately supplied after which the horse happily returned home.

FARMERS AS A RULE

lay in their stock of seeds, such as wheat, oats, clover, timothy, etc., early in the season, but the supply of seeds for the vegetable garden is left for "any old time." After the farm crop is in, is plenty time in the estimation of most farmers for a vegetable garden. Now farmers this order of things should be reversed. As a rule the garden plot is fit for tilling before the rush of farm work commences, and if it is not planted before that, it is generally left to take care of itself. To be successful in many lines of vegetables, an early start is of paramount importance—onions, parsnips, beets, carrots, peas, cabbage, lettuce, radish, turnips, celery, cauliflower, etc., can be planted as soon as the ground is fit to work, and as an inducement for the early sales of vegetable seeds, J. J. Gay & Co. make the following offer, good to the 1st of May. Persons buying from us in the market or sending by mail \$1.00 may select seeds amounting to \$1.25 and at this rate for as many as they may require. It must be understood that this premium is allowed only on flower and vegetable seeds by the packet and ounce and not on seeds by the pound or quart. All vegetable seeds are 5c per packet and by the ounce 10c excepting onions 15c ounce, cabbage 20c an ounce; all flour seeds in stock 5c packet. We direct special attention to our sweet pea seed. There is none better, very few as good, 5c packet, 10c ounce, or one quarter lb. 20, one lb. 00.—J. J. Gay & Co., Charlottetown, and Market House. 3-28 Tu Fri & w 1 no

It is hard and everybody is liable to catch them.
