This is the testimony of sufferers in every part of the Dominion. Mr. Benjamin Dillon, of Leeds, Ont., states, "I am not in the habit of puffing up proprietary medicines, but I feel it my duty to add to the testimony as to the marvellous value of Nerviline as a remedy for pain. THE Ft. Paso Times, Texas; of a recent date says:—Alexander Munn, who has been employed in the G. H. shops for the past nine years, during five of which he has been foreman was on Thursday, Feb. 14th, presented by the employees with a magnificent gold watch as a testimonial of the esteem in which he is held by all. Mr. Munn has resigned his position with the company to accept a situation as master mechanic for the Old Dominion Copper Mining and Smelting Company at Globe, Ariz., and will leave Feb. Friday 15th for his new post of duty. The action of the men was a complete surprise to Mr. Munn who had no intimation of what was coming. Judge Townsend acted as spokesman for the men and Mr. Munn responded in a few remarks, thanking them for their action. The watch was a very handsome one, engraved with his initials and will be highly prized. Mr. Munn is deservedly popular with all who know him. [The Mr. Munn referred to above is a son of Mr. and Mrs. Rod'k Munn, of Marshfield].

A GREAT deal has been said about the encore fiend who attends the many excellent entertainments given in Charlottetown. It is claimed the "encore fiend" would ruin the best concert that the best managers could arrange. For the encore fiend has no sense of discrimination; he applauds and roars and stamps every number alike, and is woefully ignorant of the especially fine and artistically rendered selection that calls forth the enthusiasm of the genuine music lover. His applause is anything but a compliment to the performers, who in vain try to escape his detestable vociferation. They know only too well that it is not a nice appreciation of their efforts that brings the applause, but a greedy desire to have more than full money's worth in a double number from every participator in the program. It is a great affliction to lovers of music, to those who have a nice appreciation of what is really fine and who would like to show their admiration and appreciation in a discriminate way. In the Metropolitan Opera House New York it has been found necessary to forbid encores and since the adoption of the restrictive measure concerts in that city have gained dignity.

Mr. H. A. Peters, the popular commercial traveller of Moncton, writes, Sept. 1, 1900: "Have used Bentley's Liniment for a lame horse. Can highly recommend it."

EASTERN NOTES.—Your editorial re increased remuneration to Dominion members, has the right ring, in fact should you advocate a reduction all round both rank and file it would meet the approbation of many level headed men. Without in the least disparaging the ability or the valuable time of our representatives, were the remuneration considerably diminished there would be no lack of candidates at each election, and there would probably be less likelihood of the free and independent electors having the opportunity of comparing the quality of the liquor furnished by the respective candidates, as was done in a recent famous election.—The farmers are taking advantage of the present fine weather to secure their wood and rails, though the last storm has left a large quantity of snow in the woods. Hay and straw are likely to be short in these parts this spring, as the crops last summer were not up to the usual average.—Alex. McKellock has sold his trotter Flora Dean to Alfred Fraser, who is fast developing her speed, under the competent direction, and with the valuable assistance of Daniel S. McInnis.
