YESTERDAY'S STOCK and BOND QUOTATIONS

MARKET GOSSIP

(By Johnston and Ward's Special Wire)

MORNING MARKET LETTER

NEW YORK, N. Y., Oct. 31—After an irregular opening, prices recovered fractionally yesterday on about the same level as the day before. The market broke out of a two weeks trading range on the downside last week but no real liquidation has developed since. The improvement in business this fall seems to have been sufficient to sustain prices but not enough to induce aggressive buying. The low state of the heavy industries in the third quarter was well illustrated by the U. S. Steel report. The results shown were about as ex- l

Wheat recovered moderately yesterday while some pressure of the bond market developed.

BRUNETTE'S STAR RISING

The platinum blonde is passing and the brunette is rising in popularity in London, according to those in the know. It is said that the stories about the light-haired ladies being gold diggers have caused their eclipse since the price of gold went up.

MINING

(Canadian Press)

TORONTO, Oct. 31—The month closed on the mining department of the Toronto Stock Exchange, with the whole list exhibiting decided signs of weakness. A drive against Gunnar Gold and a less effective selling campaign in Noranda imparted a nervous condition to other stocks, particularly the secondary and penny golds and selling became general. Morning sellers did some buying in the last hour and thus a mild rally but losses were only partly made up.

Gunnar Gold was unloaded in volume from the opening and the price broke in an hour to 94 against a close yesterday at 1.44. After recovering to 1.15 it sold off again to 1.07, down 37 cents for the day. Holders were said to have been dissatisfied with the report of mine developments, issues yesterday. More than 100,000 shares changed hands.

IS GUILTY OF ACT OF CHIVALRY

LONDON, Oct. 31—Once again the oft-debated question of whether to offer your seat in the train, bus or underground to a lady has cropped up.

Mr. Maurice Perrin, a cabinet maker of Grove road, Bow, London, is one of the "Old School" of thought, a Sir Galahad in fact.

Travelling on the railway from Southend, Mr. Perrin gave up his seat to a lady, and contented himself with he uncomfortable experience of being jolted about in an upright position, clinging to the side of the carriage window.

When the train arrived at Upminster, Mr. Perrin opened the door, and fell between the footboard and the platform. Luckily he was unhurt.

The chivalrous man was charged at Romford with opening a carriage door while the train was in motion, and although his counsel urged in his defence that he should be given the benefit of the doubt as to whether the train had stopped, he was fined 5s, with £3 1s costs.

The defending counsel pleaded in vain that it was largely on account of his client's chivalry that the accident had occurred.

Rome, Italy, is to have motor omnibuses with trailers as public vehicles. The trailer and the bus will be connected by a vestibule, and the operators declare that trailer passengers will not feel the usual swaying motion of the vehicle.

Stocks Drift Fractionally Lower On Mt'l. Market

(C. P. By Guardian's Special Wire)

MONTREAL, Oct. 31—Lacking encouragement from Wall Street where dullness continued to prevail, issues on the Montreal Stock Exchange drifted fractionally lower in light turnover during today's session. Less than 6,300 shares changed hands during the trading period in which 32 stocks appeared in board lots; 14 issues declined, eight rose and 10 were unchanged.

St. Lawrence Paper Preferred dipped a full point to 10, where it equalled the year's low reached some time ago. Dominion Glass appeared at 90, off three points while Dominion Textile was also three points lower at 80. Canadian Pacific declined 1-8 to 11 3-4. International Nickel at 22 3-4 was down 1-2 and Montreal Power was 1-2 lower at 31.

Fractional losses were suffered by Canadian Celanese, Canada Cement, Alcohol "A", Dominion Bridge, Howard Smith, Lake of the Woods and National Steel Car.

Hollinger advanced 10 cents to 19.35 and St. Lawrence Corporation rose 25 cents at 1.25. Canadian Bronze, Canadian Converters, National Breweries and Canada Northern Power were fractions higher.

Among the stocks to hold steady were Associated Breweries, St. Lawrence Flour, Winnipeg Electric, Bank of Nova Scotia and Brazilian Traction.

Sales 6,288 shares; bonds $19,850.

Stocks Hold Steady Pace On New York Exchange

(By Frederick Gardner, Associated Press Financial Writer)

(A. P. By Guardian's Special Wire)

NEW YORK, Oct. 31—Stocks held a steady pace today as October made its exit quietly in financial markets.

The share list firmed in late trading, but final prices were no better than irregular. Transfers dwindled to 416,800 shares, the smallest since Oct. 3. The total turnover for the month on the stock exchange was only 15,658,331 shares against 39,372,212 in the same month last year.

Despite evidence of a little additional seasonal improvement in business, traders played a waiting game in nearly all markets. Foreign exchanges settled down to a narrow course along with domestic security and commodity markets.

Rubber was an outstanding exception, futures breaking nearly a full cent a pound on reports of a hitch in negotiations for output restriction.

The poor third quarter earnings showing by United States Steel Corp. was offset by a little current steel improvement. The Iron Age estimated steel output has risen 1 1-2 points to 26 percent of capacity, the highest since the first week of August, and said prospects favored further pickup in the next two weeks.

U. S. Steel, Bethlehem and American Rolling Mill edged fractionally higher. Santa Fe, Pennsylvania and New York Central were among rails improving slightly aided by indications rail traffic was holding fairly well in the face of seasonal influences toward decline. American Can, American Telephone, Montgomery Ward, J. I. Case, General Electric, General Motors and other stocks of that calibre showed only small changes up and down at the finish.

The Standard Statistics Co. index for 90 stocks finished the month at 69.9, up one-tenth of a point for the day. At the end of September it stood at 72.3.

GIRL ARRESTED ON WAY TO PICK HONEYMOON HOME

CLEVELAND, Oct. 31.—Elizabeth Simon's wedding has been postponed for a month. Arraigned in police court on a charge of speeding, the 22-year-old Baldwin-Wallace graduate said she had planned to be married the next Sunday and was hurrying to rent an apartment when she was arrested.

Judge Julius Kovachy didn't consider the excuse justified the speed, fined Miss Simons $10, sentenced her to three days in the workhouse. He then suspended sentence on condition she give up driving for a month.

"That puts off the wedding for a month," said Miss Simons. "Without a car I can't look for an apartment, and without an apartment we can't get married."

EXPECTS TO WALK ENGLISH CHANNEL

MONTREAL, Oct. 31.—Spectators at the harbor front here recently saw a modern "miracle"—a man walking on the water in the harbor. Emil Friedrich Walther, diminutive inventor for Windsor, Ont., was demonstrating his "water shoes" with which he hopes to cross the English Channel from Calais to Dover.

Mr. Walther, a German who resided in Canad for nine years, has perfected his invention to such a degree, he can walk on the surface of the water at five miles an hour in smooth and calm weather and three miles in rough and stormy weather.

The apparatus consists of two metal shoes shaped like skis. Straps and clamps hold the wearer's feet to the skis. The "walker" propels himself with two bamboo poles inserted into rubber-covered cans. This contraption has already carried him on long "hikes" on the Detroit River and Lake Erie.

MANY HAZARDS BESET MODERN HOUSEKEEPERS

"The modern married woman is exposed to more skin hazards than the wrokman employed on a factory process," said Dr. W. J. O'Donovan, recently in an address at the Institute of Hygiene, London, England.

"The labor-saving devices in general use in the home are potent chemicals. The housewife will put her hands in mixed alkalis and then chloride on washing day, and follow it by cleaning brass with metal polish, which is a strong acid. She will then put cold cream of an unknown composition on her hands. The skin cannot stand this," he declared.

He said that dermatitis might be caused by innocent hobbies such as photography, wireless and gardening. He had over 6,000 new cases of skin disease in his clinic at the London hospital every year.

Terms Rocket Transport A Success

(A.P. By Guardian's Special Wire)

TRIESTE, Italy, Oct. 30—A steel tube was rocketed from the side of a mountain near here today, and landed undamaged in a valley 2 1-2 miles away, with a cargo of 1,600 letters.

The demonstration, testing a speedy means of transporting mail between nearby points, was termed a success by its inventor, Gerard Zucher.

The velocity of the yard-long rocket was estimated at 12 miles a minute, about thrice as fast as the speed record for aeroplanes. Weighing 26 pounds, including nine pounds of explosives, the projectile carried a five pound load of mail which was in good condition when recovered.

The rocket, fired from a field on the side of Monte Castiglion, mounted in a parabolic curve to an altitude of 2,100 feet before it started to descend, coming down in a valley where it was soon found.

Zucher said he could hurl projectiles for short distance in any direction with an accurate control of the flight to assure landing at the designated spot. He said he had conducted similar experiments in Germany and England.

ACUTE DISTRESS PREVAILS IN FRENCH WINE AREA; CHAMPAGNE MART FAILS

PARIS, Oct. 31—Appalling distress exists among 20,000 families in the famous Champagne district around Rheims, with many living solely on potatoes and wine, a survey showed today.

Groceries, bakeries and other shops in the district as a result are closing down daily, having no trade.

The lot of the Champagne grape-growers is precarious. The farmers this year sold their grape crops at prices eight to 12 times lower than in 1913, and hundreds were unable to sell their grapes at all

The wine-makers are in desperate condition, because they have surplus stocks estimated at 140,000,000 bottles of champagne. This year's harvest was exceptionally heavy, and wine-producers bought enough grapes to add 100,000,000 bottles to their surplus stock.

ANCIENT CRIME DISCLOSED

Workmen in a lime kiln near Moneymore, Northern Ireland, have unearthed evidence of a crime committed hundreds of years ago. It is a human skull pierced with a piece of metal resembling a packing needle. Near it were other skulls and bones.
