## REBEL SEA FORCES THREATEN ATHENS

### Liberal Misstatements Scored By The Premier In Draft Address Debate

#### Strong Language Used By Government Leader In Denouncing Campaign Of Misrepresentation Regarding Falconwood Hospital Costs And Other Matters.

Strong condemnation of the campaign of misrepresentation carried on by the Liberal press and politicians with regard to the architect's fees for reconstructing Falconwood Hospital on a scale commensurate with requirements was voiced by Premier the Hon. W. J. P. MacMillan in the Legislature last night in the course of his speech on the Draft Address.

The Premier explained that there is still no provision at Falconwood for treating convalescent patients and that the situation will never be satisfactory until a convalescent ward and other facilities are provided. The plans prepared for the reconstructed institution took modern requirements into consideration and were in accord with expert advice received by the government from representatives of the Mental Hygiene Council. Notwithstanding this fact, the misstatement had repeatedly been made that \$50,000 had been spent in architect's fees for putting up a \$100,000 building.

Mr. T. A. Campbell contended that the statements in question did not refer to the east wing alone.

The Premier in reply produced a statement in the Patriot newspaper of a Liberal political meeting, in which Mr. W. M. Lea, Opposition leader, was quoted to this effect. The statement, the Premier said,

### INSURANCE SCHEME IS DEBATED

#### Only Few Clauses Remain To Be Passed In Unemployment Measure.

(A. P. By Guardian's Special Wire) OTTAWA, March 7.—An attempt to incorporate a aiding scale of premiums in the government's unemployment insurance scheme failed today in the House of Commons. It would apply to persons who had steadily worked over a period of years, and would draw no benefits from the fund.

Sir George Perley, who took over the bill when Premier R. B. Bennett had a setback today and returned to his sick bed, said he could not accept the principle of graduated premiums suggested by Joseph Brantley, (Lib. North West-Island) and approved by E. J. Garland (U. F. A., Dow River).

### Hauptmann Appeal Fund Is Halted

(A. P. By Guardian's Special Wire) NEW YORK, March 7.—Solicitors for the appeal for £1 of Bruno Hauptmann, under sentence to die for the murder of the Lindbergh baby, were ordered stopped today.

Acting Commissioner of public welfare Stanley H. Howe said he had ordered Mrs. Anna Hauptmann, wife of the condemned man, and her appeal fund campaign manager, David Webber, to end all public appeals for funds and withdraw any fund boxes that might have been set up in public places.

"Such activities," he said, "are a clear violation of the city code."

### DEBATE CLOSED IN NOVA SCOTIA HOUSE

#### Future Policies Of Gov't Outlined By Premier Macdonald In Answering Criticism.

(C. P. By Guardian's Special Wire) HALIFAX, March 7.—Swiftly and with little of the usual oratory, debate on the Address in Reply to the Speech from the Throne closed in the Nova Scotia Legislature today with Premier Angus L. Macdonald's defence of his government's record for the year and his outline of its legislative programme for the session.

Short Debate

It was one of the shortest debates on the address in the history of the old House. Customary days of speech making were dispensed with as the Premier and Opposition Leader Gordon S. Harrington alone took part in the debate with just five hours of speaking.

Premier Macdonald answered the Conservative leader's criticism of yesterday, elaborated on legislative measures dealt with in the speech and briefly covered the ground that his Liberal ministers ordinarily would have traversed.

### Three Islands Are Plundered By Rebel Fleet

#### Desperate Land Battle Underway In Eastern Section Of Macedonia — Troop Movements Handicapped By Heavy Snow Drifts

(By James A. Mills)  
(Copyright, 1935, by the Associated Press)  
(By Guardian's Special Wire)

GHEVGHELLI, Yugoslavia, March 7.—A desperate battle between Greek loyal troops and fanatically zealous rebels got under way in the deep snows of Eastern Macedonia to the accompaniment of chattering machine guns and deep-throated artillery.

As the rebels sea forces apparently menaced Athens itself, General George Kondylis sent his loyal troops through heavy drifts of snow at the rebels entrenched in the lines held by the British during the Great War.

Artillery and aerial bombardments, almost incessant during the last two days, had prepared the way for them, and Kondylis, his last ultimatum flung down to the insurgents, seemed determined to carry out his threat to crush the revolt.

### CUBAN STRIKE SPREADS

(By Edward A. Chester Associated Press Foreign Staff)

HAVANA, March 7.—Postoffice and telegraph employees tonight joined the strike of government employees in sympathy with hundreds of thousands of students, teachers and workers already out.

The list of departments paralyzed grew until observers generally agreed six departments were definitely out and two more were likely to quit tomorrow.

Workers in the departments of treasury, labor, commerce, agriculture, communications, education and public health joined the walkout. Municipal government employees of Havana also quit and the departments of justice and state were expected to follow suit tomorrow.

Facing its third "revolutionary general strike" threat in 14 months of power, President Carlos Mendia's provisional government changed its procedure by turning the situation over to Commander-in-Chief Fulgencio Batista.

The Mendia Government, in militant mood, tonight appeared convinced it could weather the storm of strikes stirred up by its enemies despite the desertion of many of its own employees.

### Presents First Canadian Flags Flown On French Soil To Legislature

The first Union Jack and the first Geneva Red Cross ambulance flag flown over Canadian troops in France were presented to the Prince Edward Island government yesterday on loan by Major J. S. Walker and Great War veterans, three of his sons to Canada in 1914 of whom only one survived with him to tell of the horror of war.

Major Walker, then a Captain, enlisted at Charlottetown August 1914. He sailed from Valcartier, Quebec, with No. 2 Stationary Hospital on the Scotia in October. Quoted at Plymouth, remained at Salisbury Plains a short time and left there Nov. 6, 1914, to arrive in France Nov. 8. It was at La Touquet that the flags were run up the masthead announcing the coming of the Canadians.

### EDEN DEFENDS BRIT. POLICY

(C. P. Cable By Guardian's Special Wire) SWINDON, England, March 7.—The British government's foreign policy remains "unimpairedly based" on the collective peace system, and its moderate increases in national defences do not constitute any departure from that policy, it was stressed today by Anthony Eden, Lord Privy Seal and the ministry's handy man in disarmament negotiations.

### WOULD BOMBARD PIRAEUS

Earlier in the day the rebel fleet forced three Greek islands—Samos, Chios and Mytilene—to strike their colors, and reports reaching this frontier town said Admiral Demestichos, commanding it, wrested the Greek cabinet threatening to bombard Piraeus, port of Athens, unless the government surrenders.

So hard pressed was Premier P. Tsaldaris and the government at Athens, another report said, it was contemplating calling ex-King George back to his vacant throne.

First reports from the battlefield said the cold, frostbitten loyal army, spurred by Kondylis, advanced slightly in the face of desperate resistance.

### Believed Hard Pressed

General Demetrius Kamanos, the rebel commander, was said to be sorely pressed on two sides, and seriously handicapped by his lack of modern artillery.

The rebels, in sorry plight for supplies, went pillaging through numerous villages, border towns heard, causing considerable damage to tobacco fields which are the lifeblood of the countryside.

How solidly Macedonia was supporting the revolt was the subject of conflicting advice.

### Seek To Curb "Bootlegging Of Potatoes"

WINDSOR, Ont., March 7.—Assistance of provincial police have been asked to enforce regulations of the new potato marketing board in this district and prevent what Lorne Campbell, supervisor for the board in this district, terms "bootlegging of potatoes."

Police have been notified from headquarters at Toronto they have authority to stop any truck on the highway and make sure, if the load consists of potatoes, it is being handled as regulations stipulate. Every load, when tagged, graded and inspected at Chatham, the headquarters for this area, is given a certificate which the truck driver must produce at the rest of police.

A minimum price of 55 cents for a 90-pound bag of Toronto potatoes has been set.

### Minor Amendment

The insurance bill was before the House all afternoon in committee stage and at adjournment hour only a few clauses remained to be passed. Several minor amendments were incorporated including one to abolish appeals to the Exchequer Court from decisions of the commission. It was thought it would stop possibilities of passing the buck between the commission and the courts. The House did not sit during the evening.

### Prince Henry Greeted By Jamaicans

(C. P. Cable) KINGSTON, Jamaica, March 7.—Bager to shake hands with His Royal Highness the Duke of Gloucester or at least to watch him from the same level, some 2,000 guests attended a garden party at King's house here tonight.

King George's third son, Howard, bound from a trip to Aust. Ala. and New Zealand arrived here yesterday. His younger brother, the Duke of Kent, and his bride, Princess Marina, have been in Jamaica for three weeks.

The Duke of Gloucester today visited old Fort Royal, once "the richest spot in the universe," but now a drowsy town of scarcely 1,000 people surrounded by ruins of its glory when it was a British stronghold in the Spanish main. Thearrison, one of the few remnants of the olden days, was inspected by His Royal Highness during his visit.

### Necessary Armament

Declaring the facts did not justify any suggestion that Great Britain has re-armed or is re-arming, he said that "on the contrary the truth is that we have for long delayed even the most elementary measures of national defence in the hope an international agreement would eventually make these measures unnecessary."

These measures can be modified if the international situation modifies, he concluded.

### Guardianship Of Quintuplets Discussed

(TORONTO, March 7.—Hon. David A. Croil, Ontario Minister of Welfare and Municipal Affairs announced today, following a conference with Olivia Dionne, father of the quintuplets, and Paul Martin of Windsor, Dionne's lawyer, he would introduce a bill in the Legislature tomorrow providing for the guardianship of the quintuplets.

Details of the proposed measure were not revealed by the Minister nor would Mr. Martin make any comment on the conference.

### Hard-surfacing Roads

Other measures included enabling legislation for an eight-hour day in certain industries, a programme of hard-surfacing roads, a "strong" drive for increased tourist traffic and the provision of assistance to co-operative action among the primary producers. Help would be extended also in the organization of other industries.

### Steamer Damaged By Ice Drifts

(C. P. Cable) (By Guardian's Special Wire) ST. JOHN'S, Nfld., March 7.—Battered by drift ice from the Arctic, the Norwegian freighter Aladdin today limped into St. John's Harbor today for repairs that will delay her trans-Atlantic crossing from Saint John, N. B., by several days.

Capt. Strait ice had damaged a plate in her bow, and her forepeak was filling with water when she got on drydock to have the leak closed and for a survey of other possible damage.

The Aladdin, bound from Saint John with deal under Captain Jacobson, met trouble after taking on bunker at Louisburg, N.S. She struck the ice near the spot off Cape Breton where the Newfoundland steamer Kyle was trapped last week for 24 hours in the floes.

### Urges Inquiry Into London Mart Dealings

(LONDON, March 7.—(C. P. Cable) —While deprecating sensational statements arising from disclosures of speculation on the London commodity markets, David Grenfell, this afternoon said "things are not as they should be" and urged the government to institute an official enquiry.

### Observance Of Good Friday

(TORONTO, March 7.—Rev. M. J. McGrath, speaking for the Legion of Decency said no boycott action would be taken in Ontario against theatres which chose to remain open Good Friday. His statement followed remarks of Rev. Dr. Charles F. Curran, director of Catholic Action in Nova Scotia, who has called on all theatres to close Good Friday.

"Those who consider it a holiday, would require some form of recreation," said Father McGrath. "For those who appreciate the day's religious significance, it would not be necessary to close the theatres."

### Flags Battle Scared

The flags now tattered and torn will be lodged in the Confederation Chamber of this island province's historic provincial building where Confederation was planned 70 years ago.

The man who presented the flags, for a quarter of a century was a member of the Charlottetown police force. He was one of the first to enlist when the call came from South Africa. And so too he was in the vanguard with Canadian troops bound for Flanders Fields.

He remembers vivid details of the first battle of Paardeberg in South Africa—but when the Great War is mentioned he shrugs his shoulders. "I was there. That's all there is to say. It seems like a

### Picture Bears Record

His voice grew husky and his eyes lost their sparkle as he recounted how he had lost two of his sons in the World War. A picture of the three sons and a picture of the three sons and their father, hanging in the Walker home has printed beneath it their record. It tells the story simply.

Captain J. Gilbert Walker, enlisted Sept. 1914. Killed June 13, 1916, third battle of Ypres.

### Cattle Shipment To England Turned Down, Protest Made

(MONTREAL, March 7.—Protests to the Dominion Government and Hon. Howard G. Ferguson, High Commissioner for Canada in England, against "discriminatory tactics" of British officials in connection with "unfit" more than half of a shipment of 44 Canadian breeding cows, were made today by Donald Munro, Montreal cattle exporter.

The shipment of young Holsteins from Ontario farms, termed the best all-round shipment from Canada in years and named inspection condition by government inspectors in Montreal, left for Glasgow aboard the Kastalia from Saint John on Feb. 16. They arrived on Sunday and 23 were declared unsound and ordered slaughtered, according to a cable received from Mr. Munro's Glasgow agent.

The cows are being held alive while protests are being made and re-examination urged. "Considerable rejections entirely unjustifiable," called Mr. Munro's representative.

In discussing the shipment, the exporter said he had called Mr. Ferguson, "protesting strongly at what we think are discriminating tactics, for Irish cattle go in with little or no inspection and some of the Irish cattle are far inferior to ours."

The continued rejection of Canadian cattle would result in a serious loss of trade, already threatened due to the resumption of Irish cattle export to England, Mr. Munro stated.

### Urges Inquiry Into London Mart Dealings

(LONDON, March 7.—(C. P. Cable) —While deprecating sensational statements arising from disclosures of speculation on the London commodity markets, David Grenfell, this afternoon said "things are not as they should be" and urged the government to institute an official enquiry.

### New Balkan Troubles Loom As Troops Mass On Borders

(By Joseph E. Sharkey, Associated Press Foreign Staff)  
(A. P. By Guardian's Special Wire) GENEVA, March 7.—New Balkan troubles came today in the wake of the Greek revolution as Bulgaria and Turkey hurled charges of war-like preparations at each other.

Bulgaria, in calling the situation to the attention of the League of Nations, said Turkey was concentrating troops along the Bulgarian frontier, the Turkish delegate replying that his nation could not remain indifferent to military measures Bulgaria was taking along the Greek frontier.

Cemal Husni, Turkey's permanent delegate at Geneva, accused

### Would Bombard Piraeus

Earlier in the day the rebel fleet forced three Greek islands—Samos, Chios and Mytilene—to strike their colors, and reports reaching this frontier town said Admiral Demestichos, commanding it, wrested the Greek cabinet threatening to bombard Piraeus, port of Athens, unless the government surrenders.

So hard pressed was Premier P. Tsaldaris and the government at Athens, another report said, it was contemplating calling ex-King George back to his vacant throne.
