PARTICULARS OF ISLANDER'S DEATH.—A Seikirk, Man., despatch of Oct. 1st gives the following details of the death of William Collett:—When the canoe in which he and his son were hunting ducks capsized last night William Collett, of Prince Edward Island, was thrown into the water and drowned. The accident occurred in the "new cut" which runs between Netley Lake and the Red river north of here. Mr. Collett, junior, was able to cling to the upturned canoe and was later rescued by other members of the hunting party, but his father disappeared after the canoe turned over. Friends of the deceased, who had been sharing a hunting lodge near Netley Lake, brought news of the drowning here last night when they came in to seek grappling irons. A party of local anglers and city lads left with them to conduct dragging operations. The statement of the rescued man, according to those of the party who came here last night, is that he and his father decided to hunt along the sloughs near the mouth of the Red river. While in the "new cut," which flows between Netley Lake and the river, they lost the paddles. The canoe drifted rapidly to the strong current there, and when it struck a snag the force of the blow upset it. The deceased man was about 55 years old, according to his fellow anglers, and was a well-known resident of Prince Edward Island.

Mrs. Harry Brown, city, left yesterday on a visit to Truro.

Mr. Rogers And The Government

The following letter from Mr. R. H. Rogers, Superintendent of Education was published in the Examiner. By request the Guardian reproduces the letter, and, with it, the Examiner's comment:—

Sir,—In reporting Tuesday morning's proceedings at the Prince of Wales College in your issue of the 5th inst., you say that the Superintendent of Education and Dr. Robertson discussed the grievance which led to the resignation of the staff; and state that I said that I "had no idea that the Government had been so negligent," etc.

In both these statements your report is erroneous. I did not enter at all into the controversy or discuss the grievances of which the professors complain; nor did I utter the words quoted or any words which could be so construed. I am, Sir, etc.,

R. H. ROGERS,
Chief Supt. of Education,
Oct. 6th, 1920.

[We publish Mr. Rogers' disclaimer but have been assured that our reporter was not in error. The following report of Mr. Rogers' introductory remarks bears this out:—This is the first meeting that I have had the pleasure of addressing of this kind. I have been but two weeks in office and I may say that Dr. Robertson's address has been news to me. I THINK THAT AS SUPERINTENDENT OF EDUCATION I SHOULD HAVE BEEN APPRISED OF THE TRUE STATE OF AFFAIRS and I feel sure that had this been done I might have been able to do something. . . . Mr. Rogers repeated these sentiments in the course of his further remarks.—Ed. C. E.]

SPECIAL FILM.—A special film will be shown at the Prince Edward tonight showing the work of the Navy League of Canada. 3341-10-7-11.

ENFORCING THE REGULATIONS.—The fishery officers of P. E. Island are showing a good deal of activity in enforcing the fishery regulations. Officer Palmer of West Prince on Tuesday confiscated three lots of lobsters packed illegally. The offenders will be brought to justice in a day or two. Officer McLellan of King's County is instituting proceedings against a party in Morell for fishing salmon in closed season.

SCHOONER FLOATED.—The schooner Minnie May, which ran ashore on Murphy's Point, just inside of Charlottetown harbor on the night of August 30th and resisted various efforts made to float her, was brought to Connelly's wharf yesterday afternoon by the tug William Altken. The tug on Tuesday succeeded in getting the vessel turned on the opposite side to that on which she had been lying and the rest of the job was easy. There is still about twenty bags of coal which the vessel brought from Sydney in the hold. The schooner had taken in a considerable quantity of water as she lay stranded but the little damage which she has received can be very easily repaired. Most of the damage is to the bulwarks along the port side which were ripped away, and to the rigging. Messrs Dean and Stewart who purchased the vessel from Captain Lowe will have repairs effected as soon as possible.

POWERFUL DREDGE HERE.—Dredge No. 115 of the Dominion Department of Public Works, arrived here yesterday at 8.30 a. m. from Ottawa in tow of the tug Helena and Lisgar. This dredge left Ottawa Sept. 3rd and stopped at Sorel where she was fitted with an A-frame and crane. In Quebec she was housed in to protect her from the seas. The dredge is on her way to Yarmouth, N. S., where she has a dredging contract. She called here for shelter and fuel. The dredge is commanded by Capt. Mr. J. A. McLeod of Charlottetown, who was formerly in command of Dredge 13 which called here last season on her way to Canps from Loggieville, N. B. The Dredge 115 is known as a five yard dipper, a much larger dredge than those in service here. She is one of the best dredges of the kind and was formerly named the Ottawa. The dredge will remain here until more favorable weather.

THE LADIES AUXILIARY G. V. V. A., will meet at 7.30 this evening in the Veterans Building, Grafton Street.

CHURCH SERVICE.—Rev. R. Davison will preach in the Presbyterian Church, Lot 14, October 10th; at 11 a. m. and 7 p. m.

CAVENDISH.—The services in Cavendish Congregation next Sunday are as follows, Theo. Ross, B. A. in Stanley at 11. North Rustico at 3 and Dr. Robert Laird in New Glasgow at 7.30.

A CREDITABLE EXHIBITION.—Hon. W. M. Lea, Commissioner of Agriculture returned last night from Summerside where he attended the Exhibition which he states was a decided success. The cattle show he declares was highly creditable and included four splendid herds of Holsteins and three of Ayrshires. The animals, taken altogether were in better shape than those shown last year and the show taken all-round was a marked improvement over former years.

CITIZEN'S SUDDEN DEATH.—A telegram received in the city last night brought the sad news of the sudden death from heart failure, in Portland, Maine, yesterday of Mr. Alexander Patterson of

GUARD AGAINST CHILLS

Simple Precaution Against Danger of Cold and Damp.

Cultivate the habit of taking a cup of hot Oxo—a cube to a cup—before going out in the cold or damp. Such weather is a tax upon the system, and the strengthening and warming powers of the concentrated beef-goodness fortify you against the evils consequent upon exposure.

If the uses of Oxo are new to you, try a tin of four cubes. Oxo greatly improves gravies, stews, soups, and is a delightful, sustaining and appetizing beverage. It is excellent for children.

Regular users of Oxo prefer the larger tins of 10 and 50 cubes, using them in many different ways in place of meat.

"Buyers Beware"

Always on Time

There was the custom some time ago, in making a transfer of real estate, to make use of an agreement form, the heading of which was a Latin phrase—"Caveat Emptor"—"Let the Buyer Beware". As though there was need to warn the intending purchaser of a possible flaw in the contract.

Now, in buying a Birks Watch, the full responsibility rests on us—you don't have to investigate or to get outside opinion. If we say the watch is such and such—well, it is!
