MAJORITY FOR REPUBLICANS SWELLS AS RETURNS COME IN

President Coolidge Now Has a Clear Majority of 24 in House of Congress Having Captured a Dozen Seats From Democrats—Returns Yet Incomplete

(Canadian Press)
NEW YORK, Nov. 5.—As returns from the States continued to roll in today they served only to swell the tide upon which Calvin Coolidge is riding to an overwhelming victory over his two opponents in the 1924 presidential contest. In eight states all of them in the West the result still was in doubt at mid-day but the President had a lead in seven of them including Minnesota, North Dakota and South Dakota which the followers of Senator Robert M. La Follette had expected to give the independent candidate their electoral votes.

NEW YORK, Nov. 5.—A clear majority of at least 24 in the House of Congress and a net gain of three in the Senate, appears to have fallen to the Republicans in the wake of the Coolidge landslide while numerous congressional districts are yet to be finally and conclusively tabulated. The republican victory was so sweeping that it carried fully a dozen seats away from the Democrats among which were three in West Virginia the home state of John W. Davis and turned them over to the Republicans.

WASHINGTON, Nov. 5.—President Coolidge having received a vote of confidence from the American voters today expressed his "simple thanks" in a statement which he read to the newspaper men.

BRITAIN FACES MORE DISPUTES IN INDUSTRY

First Big Storm is Expected From Railwaymen Demands AGITATORS ACTIVE

Give Up Hope of Political Weapon—To Exert Pressure

LONDON, Nov. 5.—With the defeat of the Labor Government, responsible trades union leaders and officials are anxious about the industrial future of the country in view of the avowed belief of the agitators among the rank and file that labor can no longer build high hopes in the use of the political weapon to achieve its purposes. Many of the leaders predict that there will be attempts to revert to industrial pressure. Probably the first big storm will arise out of the demands of the National Union of Railwaymen which are now being embodied in a new programme so far-reaching that it is expected the National Wages Board will find great difficulty in presenting a report which will satisfy both the companies and the union.

If the board fails to avert the crisis the danger point may be reached early in 1925. Another outstanding dispute which is threatening to cause trouble, concerns the electrical supply industry in connection with which a joint industrial council will meet November 14, to continue their efforts to avert a national strike. A special tribunal has reported that no case has been made out for an increase of ten shillings a week in the trade.
