ENEMY AIR

Allied airmen said it was far different behind the German lines

"Morally Licked" One air commander who termed the German air force "morally licked" advanced the theory

"Hitler pulled out his key men" the commander said. "It was taking hundreds of men to take over a factory and expecting it to function"

"The German air force is being evacuated of personnel" the commander said

"The German High Command, through a D.N.B. broadcast, gave the details of the sea fight"

"Several days ago an enemy convoy bound for Murmansk was observed by German reconnaissance aircraft"
