RY. EMPLOYEES PROTEST WAGE REDUCTION

General Chairmen of Two Railways Confer With Minister of Labor.

OTTAWA, May 30—The situation is unchanged" was the official statement following a late afternoon conference on the wage reduction award affecting Canadian National and Canadian Pacific Railway employees.

General Chairmen representing employees of the two systems conferred for an hour with Hon. W. A. Gordon, Minister of Labor, discussing the protest of the men against the 20 per cent wage reduction from the basic rate for employees of the two railways, recommended in the majority report of the Gibson conciliation board. The majority report recommended that the cut be from May 1.

Several conferences between the general chairmen, officials of the two railways and the Minister of Labor have been held this month following the statement of the men that they declined to accept the majority award.

Another conference with Mr. Gordon is expected to take place next week; but no day has been set.

Report May Mean Retirement Of Jurist

(Canadian Press)

OTTAWA, May 30—Final disposition of the charges against Judge L. St. G. Stubbs, of Winnipeg, was understood to have been reached by the Dominion Cabinet today. Although no official confirmation was available it was learned on good authority that the report presented to cabinet would mean, if adopted, the retirement of the Manitoba Jurist.

The report of Mr. Justice Frank A. Ford, who conducted a lengthy inquiry into charges of injudicial utterances, brought against Judge Stubbs, was studied by Hon. C. H. Cahlan, Secretary of State, some months ago, and a condensed report prepared for cabinet consideration. This report, it was learned, found Judge Stubbs to have been guilty of utterances prejudicial to the office he held, and according to the information available the Cabinet confirmed this opinion.

FRANCE TO SIGN IL DUCE PEACE PACT

Premier Edouard Daladier Is Given Free Hand by Chamber of Deputies.

PARIS, May 30 — (A.P.) — The Chamber of Deputies gave Premier Edouard Daladier a free hand by a vote of 434 to 136 today to sign Premier Mussolini's four-power peace pact if he wishes to do so.

In Chamber lobbies it was understood that the Cabinet had decided unanimously to sign the Mussolini plan, and it was expected that this would be done before the end of the week.

The Mussolini plan calls for unified action for peace by Great Britain, Italy and Germany. France originally objected to it on the ground that the rights of the smaller powers would not be protected and that Europe would be ruled by a dictatorship of the great nations. Since that time the agreement has been amended to meet the French objections.

Standard Rules to Go

By W. H. Gocher

On the first of next January the American Trotting Register will go on a blood basis. After 1933 the progeny of a registered standard horse and a registered standard mare will be admitted as standard. The Register Association will, no doubt, maintain a non-standard department for horses that do not comply, while from time to time outstanding individuals will be voted in as Napoleon Direct was a few years ago.

In 1931 the trotting and pacing standards were combined or, in other words, the same set of rules applied to both gait. This action confirmed the statement of John H. Wallace, who in 1892 after terminating his connection with the Trotting Register said that the trot and pace were simply two forms of the same gait which was midway between the walk and the gallop.

Few were willing to admit this forty years ago. In the eighties many breeders considered it a disgrace for a stallion to be credited with a pacer. At one time if a pacer appeared among the young stock at Palo Alto, if it could not be shifted to a trot it was either put in a work team or sold without a pedigree. Even with these restrictions Electioner was credited with two slow pacers. Today Abbeduto, the leader among the young sires of pacers, is inbred to that horse.

In 1867 when Wallace inserted a Trotting Supplement in his American Stud Book he made a start toward founding the Trotting Register. After preparing the material for a second volume which was never published, Wallace found, as Bruce did later, that the owners of gallopers were not interested in stud books and that his correspondence came from those who were breeding trotters.

This started him on his life work, the American Trotting Register. The first volume appeared in 1871. The second followed in 1874 and the third in 1879. By that time Wallace awoke to the fact that he was only recording pedigrees. In other words, no progress was being made in establishing a breed of trotters. In order to meet this, a standard based on performance was adopted November 19, 1879 by the American Association of Trotting Horse Breeders which had nominal control of the Register. A clash with a number of Kentucky breeders followed but Wallace won and continued the work.

In a few years pacers became an important factor in light harness racing. Those who were interested in them asked for admission to the Register under a pacing standard. Their requests were disregarded and they established a register of their own. A slender volume was published in 1890 but it was the last in 1891 when the American Trotting Register Association took over the Wallace publications it adopted a standard for each gait.

At that time there were a number of remarkable sires of pacers in service. After the introduction of hoppers their descendants in the male line were unable to compete with the trotting bred sires. As the number of pacers increased the returns showed that the most of them were bred in trotting lines. This removed the necessity of maintaining two standards. Finally on January 1, 1931, a combination

OLD CHUM LIMERICK CONTEST No. 4

TWENTY-EIGHT CASH PRIZES

For completing this Limerick

A practical farmer is Brown
Whenever his spirits are down
He'll smoke his Old Chum
Then you'll hear him hum

Here's a sample "Last Line"
"It's the grandest tobacco in town."

There is nothing to sell . . . nothing to guess at . . . and you don't have to be an author or poet to win the first prize in an Old Chum Limerick Contest. Everybody in the household has an equal chance, so let each one write a "last line" and try for a prize.

You can easily think of plenty of snappy "last lines"—much better ones than the example given above. But be sure that each one rhymes with the word "Brown" in the first line. Sit down and write a few now—there is no limit to the number you may send in. Get your friends to try, too—you can all have a lot of entertainment comparing the results before sending them in.

Winners of 3rd OLD CHUM LIMERICK CONTEST

Limerick Winning First Prize:
You've heard of that monarch, King Cole,
Whose fiddlers, whose pipe and whose bowl
He called for so oft—
He sure had it soft—
"That merry, 'Old Chum'-loving soul."

Old Chum has earned its tremendous popularity by giving smokers greater pleasure and satisfaction. Its sweet, mellow fragrance has made it the national favourite for more than 50 years. Men who know their tobacco will tell you that Old Chum has always been "The Tobacco of Quality"—the tobacco for real enjoyment. If you "roll your own," you'll prefer Old Chum Fine Cut in your cigarettes.

I agree to accept the decision of the judges as final.

BLOSSOM TIME IN ANNAPOLIS VALLEY

KENTVILLE, N. S. May 31—Apple blossom week has been a feature of spring in Nova Scotia for the last three centuries; and ever since the blossoming of the first tiny orchard of Norman sapplings at Granville in 1633, the display of pink and white petals has increased and extended with the years until now it fills the Annapolis Valley from end to end—one hundred miles of bloom.

The time of blooming and periods vary from year to year, so in choosing June 2, 3 and 4 as the dates for the great Annapolis Valley Blossom Festival this year the committee consulted both the weatherman and records of blossom time in previous years.

The experimental station produced records showing that May 25 was the earliest day of bloom since 1922, and June 25 the latest. The average period of bloom was about 10 days.

Here is the record for 10 years: 1923, June 10 to June 20; 1924, May 28 to June 14; 1925, June 2 to June 10; 1926, June 8 to June 21; 1927, June 5 to June 15; 1928, May 26 to June 3; 1929, May 28 to June 10; 1930, June 3 to June 9; 1931, May 25 to June 5; 1932, May 26 to June 6.

ROOSTER IS EXECUTED AFTER FATAL ATTACK ON CHILD OF 18 MONTHS

Lady Wavertree To Sell Jewels

Bulk of Late Husband's Estate Willed To Sixteen Year Old Great Nephew

Lady Wavertree, whose husband died last February, leaving an estate of the gross value of 838,290 pounds has decided to sell her most valuable jewels and furs.

Compared with other bequests in her husband's will, Lady Wavertree was left only a small part of her husband's estate. She is, however, in receipt of an income under her marriage settlement, the capital value of which was originally 100,000 pounds.

The residue of Lord Wavertree's estate, amounting to some 500,000 pounds was bequeathed on trust for Bryan Talbot, Lord Wavertree's sixteen-year old great nephew.

Miss Rosemary Hall Walker, Lord Wavertree's adopted daughter, received 1,000 pounds and 10,000 10 pound five per cent shares. There were other considerable legacies to friends, servants and public institutions.

pieces. One fan is signed by Frankonard.

Lady Wavertree, on the eve of the sale said:
"I was not a bit surprised when the will, which leaves the greater part of my husband's estate in trust for his great nephew, Bryan Talbot, was read 'Everybody was satisfied. I did not know all that was in the will, but I knew certain facts of course. I am sure my husband did everything that was perfectly right and just, and provided for me very well."

"I am selling my jewelry because I am moving into a smaller house, and I would much rather have some new furniture than keep a lot of unnecessary jewels.

"I do not need to keep up a large establishment.

Crop Report Promising

OTTAWA, May 30—(Canadian Press)—The report of the prairie crop conditions issued by the Dominion Bureau of Statistics today declares that the spring season is generally reported a little late but very promising. General soil moisture conditions are particularly good, perhaps the best since 1928.
