

### To Produce Surgical Cleanliness

There is a new kind of cleanliness in the world today, one that cannot be secured by the use of soap and water. It means a cleanliness so perfect that all bacteria or germs are destroyed and the conditions for their growth removed. These conditions can be secured by use of harmless agents of which the leading one is

### HYDROGEN PEROXIDE

or as usually called, "Peroxide". This is being largely used as a mouth wash, gargle, as an application to wounds to prevent infection and for any purpose where a cleansing germicidal application is needed. Bottles 25, 40 and 75 cents.
