DRIFTS STILL BLOCK ROADS—There was no chance yet of doing anything to open highways in rural areas to motor traffic. Mr. L. B. McMillan, deputy Minister of Public Works and Highways said last night. Although snow in Charlottetown was disappearing under warm sun in the country there was little sign of thawing except in the past two days and then for only a brief time. As soon, however, as warm weather reduced the depth of snow on rural roads the Highways Department planned to put its snow-fighting equipment into operation. Mr. McMillan said. Last year portions of the paved highways in this Province were kept open all winter. This year all country roads have been blocked to motor traffic since early in January. Roads are open to the airport and the military training centre at Beach Grove Inn and to the airport at Summerside.

"Birds Sing, Pigs Grunt"

Lowcross Haxey
23rd January

The Canadian Daughters of the Empire

Dear Ladies,

Thanks for the lovely things you have sent me, a little vacuum boy, I am seven years old. I like living in the country where flowers grow, birds sing, pigs grunt. It is great fun. I hope you are all happy in Canada. YOU have Eskimos there haven't you?

Love From
Michael Dent

The ABOVE letter from an English lad of seven tells in his own words his gratitude for the warm clothes and other comforts provided by Canadian members of the L.O.D.E. When his London home was bombed, Michael was sent to a safe farm haven and, thanks to the generosity of Canadian women, was outfitted with sturdy clothing in which he could really enjoy his new experience out of doors. The L.O.D.E., on behalf of chapters in the four western provinces, is one of the six organizations united in the Canadian War Services Fund's \$5,500,000 appeal beginning March 24th.

Eastern King's Board of Trade Is organized

At a representative meeting of the merchants and business men of the Town of Souris, held on March 14, the Eastern King's Board of Trade was organized.

The Board, with R. C. MacLean as president, will have as its object the attainment of anything which may be of benefit to this section of the county, and will constitute a medium through which recommendations, thought to be in the best interests of the County may be brought to the attention of the proper authorities. A. F. McQuaid was appointed vice-president, and an executive committee of Wm. Hughes and Gordon F. Roper was named, it being understood that members on the executive could be augmented as other sections of the County joined the Board.

The first business of the Board was a discussion of the winter train service to the eastern section of the county. A study of train schedules from January 1st last, revealed a situation which was felt to be most unsatisfactory and unfair to the travelling public and seemed to be due almost entirely to the fact that one regular train each day to this section of the province was not adequate to handle the traffic during the winter and spring months. It was felt that this matter should be brought to the attention of the Board of Railway Commissioners and a request made for a daily express train and, in addition, three mixed trains on alternate days of the week—leaving Charlottetown at a scheduled time in the morning.
