**CANADIAN GOOD ROADS**  
**ASSOCIATION TO HOLD**  
**SPECIAL MEETING**

The tentative program that has  
 been issued for the special war-  
 time convention of the Canadian  
 Good Roads Association, to be held  
 at Quebec on October 22, 23 and  
 24, indicates that the motives that  
 influenced the directors to call the  
 meeting at this time — to discuss  
 matters concerning improved high-  
 ways with a view to military pre-  
 paration, relief work, and rehabili-  
 tation — will be carried out fully.

A year ago arrangements had  
 been made for the holding of the  
 Silver Jubilee Convention of the  
 Association, which is Dominion-  
 wide in its scope, non-commercial  
 and non-partisan. But war inter-  
 vened and it was felt at that time  
 that the Provincial Ministers and  
 their engineering staffs might be  
 called on to undertake duties which  
 might interfere with the conven-  
 tion.

Since then the extreme impor-  
 tance of modern highways as a  
 measure of preparedness for the  
 movement of troops, mechanized  
 units, materials and food supplies,  
 was brought prominently to the  
 front by happenings in Euro-  
 pean countries. Realizing this the  
 Ministers of Highways and Public  
 Works of all the provinces, after  
 consultation with their Govern-  
 ments, have considered it advisable  
 that there should, without delay,  
 be a meeting of the best road en-  
 gineering men in the Dominion to  
 discuss, with experts from the  
 United States, the most effective  
 means of bringing Canadian high-  
 ways up to the standard where  
 they will be able to withstand the  
 stress that movement of heavy  
 tanks and other motorized and fast  
 moving equipment may put upon  
 them.

To this end the Commissioner of  
 Public Roads for the United States  
 Government, Thomas H. MacDon-  
 ald of Washington, has accepted  
 an invitation to address the dele-  
 gates, to outline what has been  
 done and what it is proposed to be  
 done to link the United States  
 highways with that country's  
 scheme of preparedness for emer-  
 gencies. Super-highways such as  
 exist in some European countries,  
 and also in some sections of the  
 North American Continent are re-  
 garded as essentials, and a good  
 deal of the \$327,000,000 which the  
 U.S. Congress approved recently  
 has been appropriated for highway  
 improvement in all strategic areas.  
 Captain Arthur W. Brandt, super-  
 intendent of public works for the  
 State of New York will deal with  
 the necessity for international co-  
 operation and co-ordination in  
 highway development for military  
 preparedness at another session  
 of the convention. H. E. Sargent,  
 commissioner of highways for the  
 State of Vermont will also speak  
 on the same subject, as will H. G.  
 Souris, president of the American  
 Road Builders' Association, Colum-  
 bus, Ohio.

From the standpoint of post-  
 war rehabilitation T. B. Mc-  
 Questen, Minister of Highways for
