BRITAIN'S POET LAUREATE BELIEVES IN SIMPLICITY

John Masefield—now Doctor John Masefield, if you please—is a popular Poet Laureate in Great Britain.

He was up in Edinburgh recently, speaking to the learned folk of that old city on narrative poetry.

It was a funny one, and made everybody laugh. Only a few of the people who heard it knew, however, that it was a translation of a poem that Dr. Masefield had written the night before!

He told a good story in Edinburgh, to illustrate the need of simplicity in poetry and prose.

He said: "If you call me names, I shall call a bear and he will eat you."

And they did, and he did, and it did!

DOG HERO OF ANTARCTIC WEATHER KILLED BY AUTO ON CITY STREET

MONROE, La., Jan. 7.—Hero of dashes across the frozen wastes of the Antarctic, Unalaska, lead huskie of the dog team which accompanied the Byrd expedition to Little America, died here a prosaic death under the wheels of a passing automobile.

C. E. Foster, who is in charge of the Byrd South Polar exhibit, now on display here, was exercising Unalaska and his mate, Lady, at the City Park, when the huskie dashed across a crowded thoroughfare and was struck down.

The driver of the light coupe which killed the dog dashed away without stopping after the body of the animal had been dragged about fifty feet.

Shamefacedly the driver pulled his slouch hat low enough to cover his face as his car speeded past a group of women and children who had been admiring the magnificent Unalaska as the huskie took his daily exercise.

As soon as Foster was able to push his way through the crowd of curiosity seekers who had seen the dog struck down, he found that Unalaska had been killed instantly.

The City of Monroe advised Admiral Byrd, who is keeping a speaking engagement at Minneapolis, of the death of the huskie and requested that the pelt of the dog be given to the city for mounting.

SEER PREDICTS 1931 WILL BE FULL OF WOES

HOBOKEN, N. J., Jan. 7.—Prof. Gustave Meyer, the seer of Hoboken, who refers to himself as the American scientific astrologer and nation's counsellor, scanned the astral spheres today and learned that 1931 is going to be a very, very tough year for cows.

The Professor looked over the signs of Scorpio, Sagittarius and Leo, placed his finger tips together and said that prohibition will be put on the spot this year.

He determined further that 1931 is going to be a big stomach trouble year. Many people will have stomach trouble, he said, and precautions should be taken.

The heavens also indicate much grippe, bronchial disorders and liver trouble for the general public.

"Much sorrow, trouble and loss," said the cheerful Professor, "is indicated to occur to farmers, or all those engaged in agriculture, and an epidemic among cattle should be guarded against."

"An unusual amount of marriages and divorces, also shocking scandals, will fill the front pages of the newspapers, especially divorces among prominent society people or theatrical people," Professor Meyer predicted.

The Professor has learned that an unusual number of racketeers will destroy each other this year, and that we will experience "the old-fashioned winter of many years ago, with plenty of rain, snow, hail and severe cold weather."

Great earthquakes are indicated to occur in California, Ohio, Portland, Ore., Chicago, Cleveland, Boston, Philadelphia, New York, and Jersey, the Professor said.

Professor Meyer predicts that President Hoover will have a great deal of trouble with his Cabinet this year. "I also look for the split-up of politics," he said, "caused through deceit and infamy."

The Professor said he wishes everybody a bright and prosperous New Year, but he doesn't think they'll have it.

to occur in California, Ohio, Portland, Ore., Chicago, Cleveland, Boston, Philadelphia, New York, and Jersey, the Professor said.

Professor Meyer predicts that President Hoover will have a great deal of trouble with his Cabinet this year. "I also look for the split-up of politics," he said, "caused through deceit and infamy."

The Professor said he wishes everybody a bright and prosperous New Year, but he doesn't think they'll have it.

Exports to Brazil have increased during the twenty years, from a value of \$60,000 to \$1,700,000; to Chile from \$170,000 to \$700,000; to Cuba from \$600,000 to \$3,400,000. Exports to Uruguay however, show a decline of from \$80,000 to \$66,000.

There is every reason to believe that the worth-while commercial relations an sound personal contacts between Latin-American and Canadian business men will be greatly facilitated by the good-will trip and trade mission to South America which is being undertaken by the Canadian Chamber of Commerce and the Canadian Manufacturers Association in connection with the next year's British Empire Fair at Buenos Aires.

MONTREAL, Jan. 7.—Apropos of the Canadian Trade and Pleasure Cruise which will leave Halifax, February 21st aboard the C. N. S. Prince Robert, the following comment of a British journal is of interest and emphasizes the opportunities open to the business men who will take the cruise and attend the Empire Trade Fair at Buenos Aires, where Canada will have her own pavilion on the Fair grounds:

"News from London, England, to the effect that the agreement entered into between the Argentine and Great Britain just a year ago may never be ratified, serves to draw attention again to the extremely valuable market existing in Latin-American countries for manufactured products which Canada is in a position to supply.

"The demands of Latin-American countries centre largely round manufactured articles, inasmuch as South America is almost altogether self-sufficing in respect of food, and is not as yet industrialized to any extent. The three principal products which Canada can supply with advantage are, automobiles, rubber manufactures and farm implements and machinery. Heavy manufactures such as steel builder's supplies, railway equipment, mining equipment and factory machinery also offer opportunities for the Canadian manufacturer and explorer.

"Among agricultural implements Canada can furnish South America with farm machinery, dairy equipment, wheels for horse drawn vehicles and silo machinery. Requirements under the heading of automotive products include service station equipment, used cars, truck, hardware, automobile electric supplies, accessories and garage equipment.

"The chemical requirements of Latin-American countries include paints and varnish, insecticides, lacquers, polishes and raw materials for paints. Under the heading of drugs and medicines there are required proprietary and pharmaceutical medicines and crude and prepared drugs.

"Other specified requirements include storage batteries, electric refrigerators, radio sets, electric motors and apparatus of all kinds, groceries, canned goods, fresh and dried fruits, confectionery, eggs, dried, salted and other prepared fish, cutlery and hardware, tools, scales, utensils, sanitary appliances, enamel ware pneumatic drills, railway equipment, shoes, show findings, belts, men's gloves, automatic sprinklers, incinerators for apartment houses, and municipal plants, road building machinery, grain elevator machinery of all kinds, mill paper, cheap wrapping paper, tyres and tubes, sporting goods, chemist's apparatus, hosiery, cotton piece goods, upholstery, sport wear, rayon piece goods, canvas, office supplies, showcases, plated silver ware, musical instruments, laboratory supplies, glass ware, labour saving devices, as well as rubber boots and shoes and fittings.

"Among the Latin-American countries, the Argentine is today buying ten times as much from Canada as she did twenty years ago. In 1910, the value of Argentine's purchases in the Dominion amounted to \$2,900,000. This figure has risen by 1930 to \$19,200,000. During the same period, Canada's purchases of Argentine products increased in value from \$2,200,000 in 1910, to \$10,800,000 during the current year.

The increasing purchasing power of Argentine consumers is further revealed by the fact that the republic's purchases from Brazil, between 1910 and 1930, have risen in value from \$800,000 to \$4,300,000; from Chile, from \$250,000 to \$2,300,000; from Cuba, from \$1,700,000 to \$4,250,000; and from Uruguay from \$106,000 to \$1,100,000.

Exports to Brazil have increased during the twenty years, from a value of \$60,000 to \$1,700,000; to Chile from \$170,000 to \$700,000; to Cuba from \$600,000 to \$3,400,000. Exports to Uruguay however, show a decline of from \$80,000 to \$66,000.

There is every reason to believe that the worth-while commercial relations an sound personal contacts between Latin-American and Canadian business men will be greatly facilitated by the good-will trip and trade mission to South America which is being undertaken by the Canadian Chamber of Commerce and the Canadian Manufacturers Association in connection with the next year's British Empire Fair at Buenos Aires.

MONTREAL, Que., Jan. 7.—There were 20 cattle, 30 calves and 647 hogs for sale on the two Montreal livestock markets today, including 239 hogs held over.

The cattle market was steady. Fair to medium butcher cows were sold for \$4 to \$4.50 and fairly good cows up to \$6. Bologna bulls brought from \$4 to \$4.50.

Calves were unchanged. Veals offered were only of common quality and brought from \$10.50 to \$11.

Hogs were firmer. Bacons and butchers brought \$9.76 with \$1 premium per hog on selects. Heavies brought around \$9 and extra heavies around \$8.75. Sows were sold for \$1 to \$8.50.

C. N. R. REVENUE AND EXPENDITURE

MONTREAL, Jan. 7.—Gross revenue of the Canadian National Railway during the month of November totalled \$17,169,886; operating expenses \$15,095,570.92, and net revenue \$2,074,315.08. In November a year ago, gross revenues amounted to \$20,863,259; operating expenses, \$17,758,582.20; and net revenue, \$3,104,676.10. While gross revenues were decreased by \$3,693,273, operating expenses were reduced by \$2,663,011.98. The aggregate net revenue to the end of November this year was \$25,695,385.55; gross revenues reaching the total of \$206,444,104 and operating expenses \$180,750,738.45.

ALBERTON

The Mount Allison Hockey team arrived on Saturday night accompanied by Rev. Mr. Wm. Godfrey, and played with the Regals here on Monday night.

Mrs. W. C. Leavitt visiting in Kensington, the guest of her sister, Mrs. Arthur Henry.

Mrs. H. H. Burton entertained at Bridge for a number of friends on Thursday evening. Mr. J. F. White won the highest point in the play.

On Saturday afternoon, Miss M. D. Fielding was hostess at a delightful bridge of six tables. The honor of the play was won by Mrs. S. R. Burket, consolation prize, Mrs. Robert Dunn. During the coffee hour the best was assisted in serving by Mrs. S. McRae and Mrs. W. Tanton.
