Total	135	24

159 Children given instructions Home Nursing and First Aid during the winter—West Kent School 17; Rochford Square 38; Prince Street 88; Total 93.

Vital Statistics Report (City of Charlottetown): Births 30; deaths 14; Marriages 14.

Respectfully submitted,
B. C. KEEPING,
Chief Health Officer

N.S. Lineman Suffers From Severe Shock

(C. P. By Guardian's Special Wire)
WESTERN SHORE, N. S., May 14.—Falling 30 feet from the top of a pole after being shocked by a power line, Arthur Mosher suffered injuries which endangered his life.

The current entered his body through his hand and went out the sole of one foot. Only a stump of one finger remains and amputation further down is being considered.

He was slightly improved tonight but still on the danger list. He was a lineman employed by the Chester Light and Power Company.

Crawford Hugh MacMillan

Crawford Hugh MacMillan passed away on April 20th. He was born in Somerville, Mass., on Oct. 19, 1811. He was the son of Neil A. MacMillan, formerly of Wood Islands, and Florence (McWilliam) MacMillan, formerly of Eldon, P.E.I. His remains were laid away in Woodlawn Cemetery, Everett, Mass., on April 22nd.

GOOD for every occasion

The Australian Commonwealth

FACTORS OF RECOVERY

In its last monthly summary of Australian conditions the National Bank of Australia refers to the country's general progress thus:—

1.—The growth of public confidence, following a period of doubt and hesitancy.

2.—The additional action taken toward completing the adjustments made necessary by the fall in the Australian income and the cessation of overseas borrowing. These include the savings in interest on the Public Debt effected by conversions at lower rates.

3.—The strength of our financial institutions, enabling them to afford assistance of inestimable value toward overcoming various ill-effects of the depression.

4.—The stability of the Australian currency and the Australia-London exchange rate since December, 1931.

5.—The improvement in the position and prospects of the wool-growing industry. The great increase in the price of wool has lifted out of a large circle of loss a number of acquirers of friends. He was a dependable character, with deep affection for those in the inner circle of his friendship, and loved his work and his life.

6.—The high price of gold has resulted in a marked addition to the Australian output, with accompanying additions to unemployment, both direct and indirect. Also, it has stimulated the search for gold deposits, making possible the notable revival of the industry. Unfortunately, there are still some major difficulties to be surmounted. The shearer's crop is about 50 million bushels and the past season's demand and price are poor. But production, though maintained at a high level, is being curbed on a loss, with disturbing reactions in all sections of the industry.

AUSTRALIA AND THE CHILLED MEAT TRADE

Sir Edmund Vestey, a director of the Union Cold Storage Co. Ltd., which has a controlling interest in the Blue Star Line Ltd., was passenger for Sydney in the liner Orford this month. Discussing the chilled meat trade, Sir Edmund Vestey said that the Australian wool would enter the Blue Star Line within a few months and that the first vessel would load cargo, including chilled beef, in October. He could not say yet which ship it would be or where it would load. "Australia could produce chilled beef of quality equal to that of the Argentine. It will only be a matter of time before the Australian product is established on the London market. The development of this industry should be of immense importance to the cattle industry of Australia, and there is no doubt that it will place it on a sound footing."

COMMONWEALTH AND STATES

As in the case of other federations, the financial rigour of the Commonwealth and States, and the central government commands fields of taxation, and it is able to accumulate surpluses to the amount of millions, while the States have been suffering deficits. The keenest complaints are from the smaller primary producing States—South Australia, West Australia and Tasmania—to which the Commonwealth Parliament has granted annually subsidies amounting to 3-4 millions. At the time of writing a conference of Federal and State Ministers was discussing a readjustment. The States of the Commonwealth should withdraw from some particular field of taxation, such as the income tax, or pay revenue in some form sufficient to meet State needs. This is a matter which is sympathetic to the State proposals. It says that the State difficulties are only temporary. There is a strong feeling in favor of maintaining sovereign States in order that government in domestic affairs may be kept close to the people. It is felt that the centralization of a dominant power at Canberra would be a grave mistake. The Labor Party, however, is in favor of a dominant Commonwealth, with provincial provinces (instead of States) exercising powers federally delegated to them. State administration, compared with the Commonwealth, is generally more economical. This matter is merely one of difference between the one set of taxpayers, in their Federal and State relationships, and the contentions do not affect in any way the country's security and credit. Under the Financial Agreement, embodied in the Constitution with the consent of all parties as well as the people, the Commonwealth is responsible for the public debts of each of the States, and neither Commonwealth nor State can pledge the public credit without the approval of the Loan Council, representative of all the Governments.

Settlers Effects Coming into Canada

There was a large decrease in the value of settlers effects which came into Canada from the United States during the fiscal year 1933-34. The amount was \$3,371,000 compared with \$6,351,000 in the previous year. There was a decrease also in these effects coming from the United Kingdom, \$176,000 compared with \$233,000.

SPECIAL HOLIDAY FARES VICTORIA DAY

Good between all stations in the Maritime Provinces and throughout Canada, GOING on any train from 5.00 a. m. Wednesday, May 23rd, to noon Victoria Day, May 24th.

RETURN JOURNEY may be started not later than midnight, May 25th.

Dillinger Witness Is Jailed

(A. P. by Guardian's Special Wire)
ST. PAUL, Minn., May 14.—The U. S. Government first lost and then jailed an important witness in its prosecution of three persons indicted for harboring outlaw John Dillinger, all within the space of a few hours tonight.

Shortly after Federal agents said he was missing and began a search for Mrs. Dolores Smith, 22, the young woman was served with a subpoena in the office of U. S. District Attorney George F. Sullivan as a witness in the case which goes on trial tomorrow.

The frailty over she was lodged in the Ramsey County Jail, Sullivan, who had announced that her vanishing would be a handicap to the Government's prosecution of Dr. Clayton May, Minneapolis, physician and Mrs. Augusta Galt, May's nurse, said Mrs. Smith's appearance, however, was reticent about the finding of the witness.

Renowned Captain Visits New York

(A. P. by Guardian's Special Wire)
NEW YORK, May 13.—One of the world's few sea captain-politicians arrived today for a short rest.

This unusual visitor, who possesses the ruddy complexion of the sailor and the suave manner of a minister of the crown, is Captain Abraham Kean, commodore of a Newfoundland sealing fleet and a member of the legislative council which was suspended when Newfoundland returned to crown colony status.

He brought word that the sealing season had been a good one this year despite low prices for both oil and skins and he reported himself as viewing with optimism the balancing of the Newfoundland budget.

The skipper has been master of ships in the sealing waters for 45 years—"and that's something, me and I've never laid off once—never. And I've never been sick or had even a headache during all those years."

Bulgarian Gov't Resigns

(A. P. by Guardian's Special Wire)
SOFIA, Bulgaria, May 14.—As the result of a growing disagreement among parties forming a national bloc the government of Bulgaria, headed by Premier Nicholas Muschaffoff, today presented its resignation to King Boris.

Conflicting claims from various parties had been pressed for the vacancy created Saturday by the resignation of M. Kostrovoff, Minister of Railways.

Government observers indicated they expected parliament to be dissolved and new elections called but newspapers predicted that Muschaffoff would again be named premier. His government was formed Sept. 7, 1932.

COLVILLE ROAD AND VICINITY

Her friends are pleased to know that Mrs. Samuel Newson is enjoying good health after her illness of a few weeks ago.

Mr. Edgar Newson has purchased a beautiful filly from Mr. Coles, Milton.

Mr. Ivan Clow and family have left Colville Road and purchased a farm from Kentford Scott of Milton. Many friends wish them good luck.

Mrs. Jane Wolkham celebrated her ninety third birthday on May 4th.

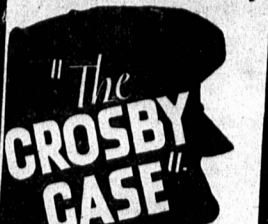

Mr. and Mrs. James McQuaid entertained a goodly number of the young folks at their spacious home on the evening of the third, music was furnished by Raymond Gallant and Joe Costello.

Messrs Frank Cahill and Raymond Gallant spent Sunday last in Elmwood the guest of Mr. William Egan.

Inhibition Act for intoxicating liquor exclusive of searches made by the Royal Canadian Mounted Police 49.

Respectfully submitted,
A. BIRTWISTLE,
Chief of Police

Dominion Marksmen Challenge Trophy Results

OSHAWA RIFLE AND REVOLVER CLUB MAKES HIGH SCORE OF 1487X1500

The final results of the Dominion Marksmen Rifle League in which representative teams from various Rifle Clubs throughout the Dominion and Newfoundland eagerly contended each year, have just been announced and clearly show the high degree of marksmanship to be found in Canada. The interest shown in this annual competition was even greater this year than before, and it has proved to be a contributing cause to the fact that Canadians are now recognized throughout the length and breadth of the British Empire as shooters of first-class ability.

Under the rules of the League, each competing team is composed of seven bona-fide members of the Rifle Club they represent, but only the five high scores are counted for the team total. Every team fires three matches, one each in January, February, and March. The range is optional at 20 or 25 yards, and any rifle of 22 calibre is permitted. The order of position is stipulated and supports of any kind are strictly forbidden.

A Dominion Marksmen Challenge Trophy is awarded to the team making the highest aggregate in the three matches and may be held for one year. The winner of the Dominion Championship Trophy this year is the Oshawa Rifle and Revolver Club, of Oshawa, Ontario, with the high score of 1487 points out of a possible 1500. The Royal Montreal Regiment closely approximated this score with 1484, whilst the Canadian National Recreation League of Vancouver, B. C., made a total of 1483 points.

An Individual Challenge Trophy, also to be held for one year, is presented to the competitor making the highest aggregate score in the three matches. The present winner of this trophy is William Brass, of the C. N. R. Rifle Club, Prince Rupert, B. C., in a shoot-off against N. K. Martin of the Ottawa P. and R. Club. Both these competitors had attained the excellent score of 300.

In addition, "Expert" and "Marksmen" medals are given to competitors who, having taken part in all three matches, have scored 295 points and 288 points respectively. Thirty-six "Expert" medals and one hundred and six "Marksmen" medals were made this year, and of these the Oshawa Rifle and Revolver Club and the "Queen's Own" Cameron Cadet Bn., of Winnipeg, won five "Expert" awards each, whilst the Sault Ste. Marie Rifle Club, of Sault Ste. Marie, had thirteen "Marksmen" winners.

Replicas of the Championship Trophy were also presented to the team making the highest score in each Province and in Newfoundland.

These results have been made public by the Dominion Ammunition Division of Canadian Industries Limited, under whose auspices the events take place.

Nfld. Alcohol Plant Opened

(C. P. Cable)
ST. JOHN, Nfld., B.W.I., May 14.—A new alcohol manufacturing plant built by a syndicate headed by J. A. Viera began operations today.

The plant was formally opened Saturday by Governor Sir Reginald St. Johnston, who inspected the buildings and machinery and invited others in the gathering to drink to the success of the undertaking, which they did with champagne.

Would Join Her Son In French Prison Colony

(By Guardian's Special Wire)
PARIS, May 14.—The mother of the murderer of Richard Wall, wealthy New Yorker, in Paris in December 1931, today declared her intention of following her son to his prison sledge in French Guiana if the courts reject her appeal to have him transferred to a mental hospital.

The mother of the confessed murderer has waged a bitter fight for over 28 years to have her son's sentence commuted to go to the prison colony rests on the hope that she can have her son "farmed out" to her if she takes up agriculture. Contrasting out of convict labor is not usual in French Guiana.

Children suffering from worms soon show the symptoms, and any other can detect the presence of these parasites by the writhings and retching of the child. Until expelled the system cleared of them, the child cannot regain its health. Miller's Worm Powders are prompt and efficient, not only for the eradication of worms, but also as a toner for children that are run down a consequence.

Sir Wilfrid Grenfell Is Guest Speaker

(C. P. by Guardian's Special Wire)
MONTREAL, May 15.—Ceremonies attending the rededication of the eastern Canada region of Toc H, over the weekend are the most ambitious organization ever sponsored by a syndicate headed by the movement from all parts of Canada and representatives in the United States attended.

Sir Wilfrid Grenfell, organizer of the famous Labrador Mission, was the guest speaker at a dinner last night, a function which followed various committee meetings in the church service conducted in the Church of St. Andrew and St. Paul. Purposes and methods of Toc H and the Grenfell mission in the Labrador were compared by Sir Wilfrid. He told of a world famous eye specialist who in spite of his busy life purchased a submarine chaser and every summer for the 18 years travelled along Labrador coast giving his service to patients and saving the eye sight of many of the inhabitants of the region.
