

New Spring Hats

We have endeavored for the last few years to be the first in the city to introduce new hats for the incoming season. It is with pleasure we again inform you that our first shipment of new hats the celebrated Buckley, England's best, is again the first new hat shown in the city. This hat is absolutely guaranteed by the makers and by us.

For young men we have the noblest line ever shown here in the new dented crown or college hats in the Fedora shapes. The new 1909 are the noblest ever shown by us.

This season we are going to make the hat business one of the strongest departments in our store. We have made arrangements with the Buckley hat manufacturers to send us each month a shipment of the newest lines as they are introduced in the large cities, in this way we will be enabled to give our customers the latest ideas in hats from month to month as introduced in London and New York.

You are cordially invited to inspect our new hats at the leading hat store in this city.

S. A. McDonald

THE FATAL HOUR

A story of the Chinese trade in it is to be hoped - Bixely and Hol-stealing girls. Grandly descriptive, comb as the special entertainers of the new reel at New Wonderland to-night. It shows the traffic of the Chinese indulge in on the quiet of the Chinese girls for those who pay them. The adventures of a woman detective who is put on the case form the basis of the title, the clock being set at a certain hour connected with a pistol, and herself bound before it as the victim. She is rescued however, and the story is full of adventure and interest all through.

A Stitch in Time and Pierrot's Necklace are the second pictures, with Fred Dillon changes his illustrated song tonight, giving "Dear Old Com- reader has to be sent in the morn- ing renders it impossible to say definitely what will be the result of the getting here of the vaudeville team, but patrons can rest assured that when they come some good entertainment is awaiting them, and full money's worth as well. Ten cents when vaudeville is played. Five cents always for children, and when pictures and song only are the bill.

TARIFF REVISION WORRIES AMERICANS

WASHINGTON, D. C., Feb. 10.—American tariff experts do not view with complacency, the probability in the next year will put into operation a revised tariff, which, it is believed, will have the effect of very seriously discriminating against imports into France from the United States. The condition of trade with France, it is said, is bad even under the present tariff laws. The United States is compelled to pay the maximum rate on all importations and that fact is sufficient in many cases, practically to prohibit the importation of many articles of American production.

Government tariff experts, in interviews today, contended that the American manufacturer and producer is already in a position of distinct inferiority in international competition in the French market. Handicapped by his geographical situation and by the surtax which prevents him from choosing the cheapest routes of transportation, and by the interstate commerce regulations which prevent the through billing of shipments under favorable terms, he is met at the French frontier with a schedule of duties after many times higher than those paid by other nations on precisely similar goods.

A very pertinent fact to be considered in this situation is the new French-Canadian treaty, which is now being concluded. Under this treaty, it is said, Canada is to receive all of the minimum rates of the French tariff. Even under present conditions this will be sufficient to cause many American manufacturers to build factories across the Canadian line, so that their product may be sent to France with the benefit of the low tariff.

The new French tariff, increasing, as it does, the difference between the maximum and minimum rates, will affect the United States more than any other of the commercial nations of the world. This country is now the only commercially important country, the importations of which remain subject in most cases to the French maximum tariff. This change will be sufficient to stop entirely the importation of the cheaper lines of machine-made goods on which the margin of profit is small and the tariff discrimination sufficient to wipe out this margin altogether.

It is the opinion of the experts that the action on the part of France makes absolutely necessary a dual tariff by the United States and that the new law now being framed by congress must contain provisions for both minimum and maximum rates.

ARKANSAS TO HAVE RACING COMMISSION

AUSTIN, Texas, Feb. 9. — A committee of the lower house of the Legislature, after many hearings, has decided to favorably report a bill creating a state racing commission, which shall pass upon all racing matters. Race meetings are to be limited to fifteen days under the auspices of any one association and to 29 days within any one country. An absolute ban is placed upon poolrooms and selling of information to poolrooms within the state is prohibited.

The commission is to control the betting, which must be under the Paris mutual system. The percentage, however, is all to go to the association holding the meeting.

A Household Necessity

Father Morrissey's Liniment Should be in Every Home

How seldom a week passes without some member of the family suffering from a sore throat, chest or back, a burn or a cut, a sprain, strain or ache!

Such troubles will come, but there is no need of suffering much from them. Keep a bottle of Father Morrissey's Liniment in the house, use it freely, and the pain has little chance.

During his lifetime Father Morrissey prescribed this Liniment regularly, and it proved very effective in relieving all sorts of pains and aches. In Rheumatism it is valuable as a "rub", when "Father Morrissey's No. 7" Tablets are taken internally. Similarly, applied freely to throat and chest it helps "Father Morrissey's No. 10" (Lung Tonic) to quickly break up and drive away a sore throat, cold in the chest, or cough.

Taken all around it is one of the best family liniments in existence. Price 25c per bottle. At your dealer's, or from Father Morrissey Medicine Co., Ltd., Chatham, N.B.

Lost his nerve

A strong man almost died, grew thin, weak and nervous!

A Remarkable Recovery

"Until three years ago I was the picture of health—then I became what people call Neurasthenic. I grew sleepless, worried, lacked will power, felt great physical fatigue, experienced fears and felt always in danger of something unknown. At the time I grew thinner and weaker, felt so nervous that I felt the end must be near. No medicine helped each one seemed a new disappointment. Then my doctor suggested 'Ferrozone'—it was a fortunate choice because I improved at once. I gained weight, enjoyed my meals, got a better color, forgot my nervous fears. The way 'Ferrozone' built me up is surprising—it made a new man of me and now I look good for twenty years to come."

J. Y. Waghorne, (Merchant) Wilmington.

Ferrozone is a nourishing tonic that strengthens, fattens, builds up, restores weak sickly people to health. If you feel poorly, let Ferrozone help you get well, 50c. per box, or 6 boxes for \$2.50, at all dealers.

TELEGRAPH CO'S NOW UNDER COMMISSION

OTTAWA, Feb. 9. — An order-in-council has been passed bringing into effect the amendment to the Railway Act passed last session providing for the bringing of Telegraph Companies under the control of the railway commission. It was provided in the Act that the clauses placing Telegraph and Telephone Companies under the Commission should be brought into effect by order-in-council. This was done in the case of the Telephone Companies, shortly after the Act became law. The Telegraph Companies are now placed on a similar footing and will have to submit their tools to the commission for ratification or revision.

SIMPSON LOWERS OUTDOOR RECORD

SAVANNAH, Ga., Feb. 9. — Fred Simpson, an Indian Marathon runner, who will race Longboat and others in Madison Square Garden, New York, St. Patrick's Day, lowered the world's outdoor record for fifteen miles over a portion of Grand Prix automobile race course today, making the distance in one hour 27 minutes and 2.45 seconds.

SECOND OFFENCE.

Sir—May I ask for information through your columns? The daily papers this week have informed their readers that a certain person at Peake's Station was convicted of a first offence under the Prohibition Act and fined \$100. Now, sir, I have a recollection (am writing from memory, therefore subject to correction) that this same party was convicted of a first offence and fined \$100 last fall, either in October or November. What I and many others in King's Co. would like to know, is, why was not the last conviction for a second offence? Surely the Prosecutor or Stipendiary can tell us why this was not a second offence? While asking questions I would also like to know how many convictions there have been for second offence in King's Co., since the Act came into force in 1906.

Yours truly,
E. A. McPHEE
