Very few men under 40

— have been able, through their own savings to do what you can do, at the stroke of a pen, with an ————

DURING the first half of life there are lots of expenses for the married man with a family. His marriage, the purchase of a home, babies, doctors' bills, the children's education, taxes—all take money. He is glad to pay, of course, but how can the average man meet all these and other obligations and still save enough money to take care of his home and family if he should die prematurely?

The answer is he cannot do so—in the ordinary way. Nevertheless there is a plan by which he can perform these duties—a policy in the Imperial Life. The yearly deposit required for such a policy is very moderate. A man of twenty-five can secure a \$10,000 policy for a premium of less than \$15 a month. If he lives until his family is grown up and self supporting, his Imperial policy can provide a welcome fund or income for his own years of retirement.

If you have the impression that life insurance requires a large outlay of money, send your name and address today for particulars of Imperial Ordinary Life Policies.

Advertisement for Beresford Lake, featuring a large arrow pointing upwards and the text 'An Advanced Development WITH UNUSUAL POSSIBILITIES BERESFORD LAKE'.

Of the twelve gold mining issues financed either wholly or in part by H. R. Bain & Company, six, as of Sept. 30th, were selling at levels above the original offering price. Four have been brought into production. Clients who purchased 1,000 shares of each issue have a clear profit of \$6,945 (Market Sept. 30th). BERESFORD LAKE with 230 feet of ore proven on one level alone, appears another outstanding opportunity. The first ore shoot, 160 feet in length, averages \$14.90 across 51 inches. The second—70 feet—over the same width averages \$12.40. Work starting on the 365 and 500 foot levels should make important mine news in the next sixty to ninety days. This should add to the value of the shares. The time to buy Beresford Lake is NOW—at the present low offering price of 70c PER SHARE. All values obtained by channel sample from the back, by Miss Superintendent.
