He had been visiting his sister, Mrs. Albert Muttart, and on the previous Monday was taken ill. On the following day a large number of relatives and friends assembled to pay their last tribute of respect to one who was highly respected by all who knew him and a very sympathetic and impressive funeral service was held conducted by his pastor, Rev. John Stirling of Cavendish. Deceased was the oldest son of the late John Tombs of Mayfield and was fifty-three years of age and unmarried. He leaves to mourn five brothers and two sisters besides a large circle of relatives and friends. His remains were laid to rest in Cavendish Cemetery.

ALBERT SOAPS, LIMITED MONTREAL

—Mrs. Charles E. McDonald and little son, Elma, Summerside, are visiting friends in the east end of the Province.—S.

—Mrs. J. P. Hood, Charlottetown, is spending a few days in Summerside the guest of Mrs. J. S. Hinton.—S.

The home of Paul McCormack, 150 Great George Street, Charlottetown, was doubly bereaved yesterday morning, when Mr. McCormack, and his son, Joseph Alfred, both passed away, the former at ten minutes to seven, and the latter only five minutes later.

Mr. McCormack, the elder, had been ailing slightly of late, but his condition had not been considered serious. Tuesday he was moving as usual. He attended the service in St. Dunstan's Cathedral and went to the drug store to get a prescription filled for his son. He complained of getting a chill, but otherwise appeared in good health. Tuesday morning about 20 minutes to six Dr. W. J. McMillan was called in. He found patient then dying from heart disease, aorta pectoris. About an hour later he passed away.

His son arrived home from South America, about a week ago in a dying condition. He had been a cook on a vessel and had gone South for the benefit of his health. He was suffering from a complication of diseases, including liver trouble and tuberculosis, and his case was considered hopeless. He was unconscious for some time before the end came, and he was unaware that his father had been ill.

The deceased was a member of the Order of the Owls belonging to the Nest in Maine, Florida, and the brethren in this city are looking after the funeral arrangements.

Both father and son will be laid to rest on Friday morning in the Roman Catholic Cemetery.

There are left to mourn, a sorrowing widow, three sons and one daughter.

Paul McCormack, was a hard working industrious man, about 60 years of age, and his son was 36 years of age.

The latter had followed the sea for a number of years.

It is seldom that two deaths occur in one family within such a short time of each other, and the bereaved mother, and other relatives will have the deep sympathy of their friends in their heavy burden of sorrow.

ONE DISH SMALL FANCY CAKES. A bitter taste in the mouth—coated tongue—dizziness on rising suddenly—bowels alternately loose and constipated—these mean that the liver is out of order.

Instead of flowing into the bowels, to regulate them and aid digestion, the bile has been going all through the system, upsetting digestion, leaving the bowels constipated, and making the sufferer perfectly miserable. This is biliousness.

The quick, safe and certain cure is Dr. Morse's Indian Root Pills. They clear out the clogged-up system, stir up the lazy liver, cleanse the stomach and bowels and purify the blood. The bile returns to its normal course, the food is again digested properly and all the disagreeable symptoms vanish.

Doctors prescribe Dr. Morse's Indian Root Pills and they are known throughout the world as a proven cure for all digestive troubles. They are equally effective in strengthening weak kidneys and curing rheumatism.

WILL GIVE \$500 TO SICK OF CHARLOTTETOWN AND VICINITY

Famous Scientist Who Originated the New Wonderful "Home Treatment" Offers \$1.00 Package Free to Sick

In order that every reader of The Guardian who needs treatment may have an opportunity to test this celebrated medicine, the now famous scientist has come to the front with an offer to give absolutely free a full size \$1.00 package to five hundred persons to prove the wonderful claims which have been made for it in making this offer the scientist says: "I know that there are many people who have been suffering for years with some chronic disease and many of them have spent large sums of money seeking a cure. I know that these people hesitate about investing money in medicine because they have despaired of ever getting well. Thousands have told me that story and told me afterwards that my treatment had cured them after doctor's and every other remedy had failed. I want to show these despairing people that all the news-paper talk about my treatment is absolutely true. I want to prove to a limited number—no matter what the disease, no matter how long they may have suffered, no matter how blue and discouraged they are—that my treatment really and actually accomplishes the wonderful results that have been reported."
