INVEST IN A GUARANTEED COMPANY AND PROTECT YOURSELF

The Taylor's Silver Black Fox Company, Limited Montague, P. E. I.

The future of the Silver Black Fox Industry is thus described by Wesley P. Frost, United States Consul, Charlottetown, P. E. I. holder in the Taylor's Company will then receive a profit that cannot be less than 40 TO 45 PER CENT, and more probably will be between 60 PER CENT. AND 80 PER CENT.

IF The foxes of a Company without a guarantee have no pups the shareholders receive NO DIVIDEND, but whatever happens the shareholders of the Taylor's Company are ensured a profit of WELL OVER 40 PER CENT.

REMEMBER The Taylor's Company has seven pairs of foxes of all the best blood on the Island, several of the famous Dalton and Tiplin strains. The Manager, R. A. AS BREEDER The foxes will make a good showing. Two of the foxes are tested breeders; the balance are of excellent breeding stock, and will, according to the average, throw about three pups to a pair. This at current market prices means a profit in the neighborhood of 85 PER CENT.

THE TAYLOR'S SILVER BLACK FOX COMPANY and other companies is that with this Company goes a guarantee that at the present market price for young foxes the shareholder is ensured a dividend of WELL OVER 40 PER CENT, at the least. The guarantee of an increase of NOT LESS THAN TEN YOUNG FOXES to be raised and on the ranch at September 1914, means that whatever happens the shareholder is AMPLY PROTECTED and that he will receive "AT LEAST WELL OVER 40 PER CENT. But in the ordinary case the litters of seven pairs of foxes WILL NUMBER 18 TO 21 at a moderate estimate; the share-
