TENNIS BALL ON ICE

PARIS, Aug. 29.-Tennis balls
kept on ice have proved a great
asset to tennis matches. In order
to keep the balls at a standard tem-
perature during the Davis Cup
matches at the Stade Roland-
Garros to prevent them from ex-
panding with the heat, an electric
box was installed near the central
court, and regulated to keep the
balls at a even 18 degree Centi-
grade. As the balls in play were
changed frequently the tempera-
ture at which they were kept made
them bound uniformly.

MONCTON HAS HOBO RETREAT

MONCTON, N. B., August 29.-
At "The Jungle" the visitor will
find that rent is an unknown
thing, that destitute men live in
shacks made of railway ties, and
that such things as telephone and
light bills are little understood and
cause no worry to the inhabitants.
This temporary retreat for the
jobless, young and old, ambitious
and lazy, is just a little way off
the main highway between Saint
John and Moncton. Gathered at
"The Jungle" are many old-timers,
but nevertheless the majority are
young men. Many of these youths
held office and clerical positions
before the present era of depres-
sion set in, and most of them show
the effects from the months of
privation which they have suffered
since being discharged.

But while all are much in the
same position, the men make the
most of their unfortunate lot by
having social entertainments to
pass away the dull hours and to
enliven their spirits. Sing-songs,
bonfires and bridge games are en-
gaged in by this group of unem-
ployed workers.

One of the features of the camp
is the kitchen, a crudely-construct-
ed counter affair. The rations are
handed out by one of the number
who is assigned the duties of chef.
The food is cooked over a fire of
coals with a bucket full of holes as
the stove.

TRENTON, Me., Aug. 29.-A talk
ative hitch-hiker was boasting to
the proprietor of a filling station in
Trenton of his ability in picking
up rides. "Why," he said, "I've come
from Pennsylvania in three days."
He pulled a soiled piece of paper
from his pocket and handed it to
the proprietor. It read, "Dear John
-Come home at once, your mother
is dying-Bill." "I wait for them
at a filling station," he went on,
"pass them this and nine out of
ten give me a lift. Here comes a
car in for gas now-watch how I
work it!"

"Can you give me a lift to Bar
Harbor, sir? My mother is dying
and I want to get there as soon as
possible," and he passed him the
paper. "Sure thing, Buddy," glance-
d at the written message, "glad
to help you out."

DEDICATION AT ST. JAMES

At the forenoon service in St.
James Church yesterday the ded-
ication took place of the fine new
pulpit recently erected and pre-
sented to the Church by Mrs. J.
E. B. McCready as a memorial to
her husband. The dedication took
place after the offertory prayer
and immediately before the ser-
mon. The minister the Rev. R.
Moorhead Legate, B. D., said, the
members would be gratified to
know that that beautiful pulpit had
been presented to the church by
Mrs. McCready as a memorial to
her late husband, a loyal and de-
voted member of that congrega-
tion. He called upon Mrs. McCready
who formerly handed over the
pulpit which was accepted by the
minister and duly dedicated. Be-
fore proceeding with his sermon
the Rev. Mr. Legate said: "I should
like to say that after what has
just now been done I feel, and I
am sure many will join with me
in feeling, that there is a special
fitness in the choice of a pulpit as
a memorial to the life and work
of the late Mr. McCready. The
pulpit and the press are the two
greatest agencies for influencing
the public life and character; and
it is a matter of thankfulness that
they more and more work hand
in hand for the uplift of humanity.
To me it is a beautiful thought
that this pulpit should perpetuate
the name of a man who used his
strong and able pen in the lofty
profession which he adorned for
the elevation of humane thinking
and the betterment of humane
conditions."

The pulpit bears in bronze the
following inscription, "To the Glory
of God and in loving memory of
J. E. B. McCready, 1839-1930, this
pulpit is dedicated."

During the service Miss Lena
MacLure rendered with great feel-
ing and effectiveness the solo
"How beautiful are Thy Dwelling
Places."

The minister delivered a very
able and timely sermon on the
necessity of Christian people show-
ing a spirit of optimism at the
time of depression, pointing out
the spirit of Christ represented joy
and gladness at all times, and es-
pecially in times of difficulty and
hardship. It was the spirit of cour-
ageous rejoicing, hope and faith in
the justice of our cause that en-
abled our boys at the front to win
the war though at times every-
thing seemed against them. That
same spirit carried out in the times
of depression through which the
world was now passing would win
out in the end, "Rejoice in the
Lord and again I say rejoice," the
animation of St. Paul should be
the watchword of Christian people
at all times and more especially at
the present.

LOOKING FOR SPORTIER FISH

HALIFAX, N. S., Aug. 29.-Hav-
ing in view the production of im-
proved types of certain sport fish,
the Fish Culture Division of the
Dominion Department of Fisheries
is carrying on interesting experi-
ments in cross-breeding and al-
ready some promising results have
been obtained in the development
of hybrid Brown trout.

Hybrids developed by crossing
Brown trout and Atlantic Salmon,
have shown greater growth than
Brown trout of like age, and it is
expected that the crosses will show
somewhat increased gameness and
that perhaps other improvements
in type may also be manifested.

Besides maintaining the commer-
cial stocks of such fish as salmon,
whitefish and pickerel, the Fish
Culture Division because of the im-
portance of angling resources of
the Dominion now devotes much at-
tention to sport fish preparation
and experimentation.

The present experiment at the
Saint John hatchery in Hybrid
Brown trout development is being
continued so as to create a fish with
seven-eighths Brown trout strain
and one-eighth Atlantic salmon
strain. The crossing of Brown trout
and salmon was begun in the au-
tumn of 1925, while experiments in
the cross-breeding of Landlocked
and Atlantic salmon were commen-
ced this year. When the experi-
ments have been completed, and it
is possible to judge of their success
with reasonable certainty, the hy-
brids will be introduced into vari-
ous waters throughout eastern Can-
ada.

The hybrids developed to date,
the superintendent of that hatch-
ery has reported, resemble Brown
trout in looks but in habits are
very much more like Atlantic sal-
mon. At four and a half years they
were considerably larger than
Brown trout of like age.

Landlocked salmon occur in sev-
eral waters in southern New Brun-
swick, but they were not so highly
regarded by sportsmen as other var-
ieties of salmon. They are not so
attractive in the quality of their
flesh and they are less gamey than
some other sport fish.

The experiments conducted by
the fish culturists in the crossing
of Landlocked and Atlantic salmon
were begun last November, when
Landlocked female were crossed
with male Atlantic salmon. The fry
hatched out during the spring, but
it is too early as yet to form an
opinion as to what measures of
success this rather novel experi-
ment will have.

THE JUBILEE WOMEN'S INSTITUTE

The regular monthly meeting of
the Jubilee Women's Institute was
held at the home of the President,
Mrs. W. P. Cameron on July 2nd.
The meeting opened in the usual
way by singing Oh Canada and re-
peating the Creed. The Roll call
was answered with riddles by 9
members and 7 visitors. It was a
very enjoyable meeting as each
member had to come dressed in
styles of long ago and the member
falling to appear in the old style
had to pay a fine of 25 cts. It was
indeed a jolly meeting as each mem-
ber entered the parlor with the
dresses and shawls of Grandmoth-
er's day, some had styles of 100
years ago. The Sick Committee
visited the sick and fruit was sent
to Mrs. Geo. Curtis who was in the
Prince County Hospital. It was
moved and seconded that a school
day library be purchased for the
school at a cost of \$25, and also
that a Book Case be purchased for
\$16.50 which is soon to be installed
in the Albany Village School. The
next meeting to be held at the
home of Mrs. Gus Burns. After all
business matters was attended to
the meeting adjourned and a social
hour was spent in conversation and
jokes, after which a lunch of cake
and ice cream was served and a
vote of thanks to the Host and
