**TRUE ECONOMY is more than price deep**

Total cost, not merely purchase price, determines the economy of a motor car. And so great are the ownership economies of Dodge Brothers motor cars that in final cost they actually prove less expensive than many cars lower in purchase price.

The Dodge Six and Eight-Line are deliberately built better than just good enough. The chassis is extra sturdy. Bearings are extra fine and extra large. Sturdy, efficient Dodge engines get the most out of fuel and oil. The safe, silent Mono-Piece Steel Bodies require no maintenance expense. The internal hydraulic brakes increase the life of tires.

Drive a Dodge Six or Eight-Line and learn that Dodge economy goes hand in hand with brilliant performance.
