

THE CHARLOTTETOWN GUARDIAN

FRIDAY, NOVEMBER 3, 1911.

MR. MATHIESON'S MANIFESTO.

We print this morning for the benefit of all concerned, the manifesto of Mr. Mathieson, leader of the Opposition, addressed to the electors of the Third and Fourth Districts of Queen's County, where bye-elections are shortly to be held.

Mr. Mathieson has not only dealt with existing conditions as he sees them, but he has outlined a policy for the future, indicating reforms in the educational system, in the road system, the equalising of revenue and expenditure, in providing for the public debt, modernising the public accounts, improving the election laws and pressing our claims against the Dominion.

We have no hesitation in commending the manifesto to the serious consideration of our readers, Liberal and Conservative alike. There is much food for thought in what the Opposition leader has to say on the various topics he has consisely dealt with especially in regard to our financial affairs and the working of our educational system.

No doubt in due time we shall have the answer and explanations of Premier Palmer and a statement of existing conditions from his point of view, which will be of great interest in view of the pending contests.

Premier Palmer, although somewhat new to party leadership, is not without experience in public life, having been elected to the Legislature eleven years ago and having

held the office of Attorney General for a considerable period when he was not a member of the House. He no doubt realises how much depends for himself and his party upon the result of the elections which are to be held only two weeks hence.

Mr. Mathieson has not only dealt with existing conditions as he sees them, but he has outlined a policy for the future, indicating reforms in the educational system, in the road system, the equalising of revenue and expenditure, in providing for the public debt, modernising the public accounts, improving the election laws and pressing our claims against the Dominion.

Abundant time has been allowed during the months past for the preparation of a comprehensive and progressive public policy, which if now formulated and presented to the electors would afford them fair ground for making a choice between the candidates of the opposing parties. Merely to stand upon the record of the party in the past would seem unlikely to meet with popular favor.

power in many cases to have a much larger per centage of majority in the House of Commons than in the country.

FARM AND AGRICULTURAL MERIT COMPETITION

The Guardian is pleased to learn that James Essery, Union Road, Lot 33, Queen's Co., has won the medal in the above competition. "Devon Farm" (Mr. Essery's parents have emigrated from Devonshire many years ago) is well known in the surrounding districts as a well kept and most productive farm.

The following letter speaks for itself. Ch'town, P. E. I., Oct. 21, 1911.

Dear Sir—I have now much pleasure in sending you herewith the medal which you won in the "Good Farms and Agricultural Merit Competition." I regret the delay in forwarding it, but we have only just received it from the Firm abroad, from whom they are ordered.

I beg to offer you my heartiest congratulations on having won the medal, not of course on account of its intrinsic value, which is but small, but on account of the worthy object for which it was given, namely to encourage thorough cultivation of the soil, without which it is impossible to produce the best and largest crops; the sowing of the best seed obtainable, the keeping, feeding and proper care of the best classes of Live Stock, better and more economic methods of farm management, substantial, well kept, conveniently planned farm buildings, neat and attractive grounds and premises, in a word, to encourage and promote everything which tends to more thorough farming in all these branches, and to make farm life more attractive.

The winning of this medal proves that you have kept all these worthy objects in view in your labours upon the farm and thus have not only added to its material value and to the attractiveness of the neighborhood in which you live but have also set an example for others to imitate.

Yours very truly JOHN RICHARDS, Commissioner of Agriculture.

MISCONDUCT AT SEARLETON AND NORTH CARLETON.

Sir:—Will you kindly permit me to say a few words, that may be the turning of a new leaf in the conduct of a class of young men of this locality, who have in the past, been a source of much annoyance, to residents, people in general strangers or otherwise, who have occasion to pass through various sections of Searleton and North Carleton. During the summer, a number of young men, congregated in front of dwellings, on Sunday evening, and passersby are subjected to slurring and vulgar remarks, in some cases accompanied by sods or sticks, from the hands of those malicious persons. One instance brought to my notice, was of this nature, amusing themselves by spitting on the windows of the home of a respectable woman.

Now such conduct should not, and will not be tolerated, and if those Sabbath breakers continue in their revels, their names will be handed to some one in authority, and such punishment as they deserve, will be meted out to them. If they would think a moment of how they are lowering the standard of the community, their parents, themselves, and young manhood, such actions would be unheard of. Complaints are heard on every hand, but so far no one has made any attempt to stop this intolerable

nuisance. People who allow their premises as a resting place for such a class, must know that it speaks volumes to strangers passing through the community. A word to the wise is sufficient. PRO. BOND PUBLICO.

LEADER J. A. MATHIESON ISSUES A MANIFESTO

Gentlemen:—As the fate of the present moribund Government now depends on your decision, I desire to place before you some of the principal issues involved.

You are asked to continue in power the party which for the past twenty years has controlled the destinies of this Province. Why should you prolong their useless reign?

Whatever they have done or left undone they have never failed to produce a deficit. The debt as shown by the Public Accounts was \$877,356 on September 30th, 1910, to which must be added the deficit of last year, estimated at \$21,435 and all the other unpaid liabilities, the total amount of which will only be ascertained on a proper audit. The interest on this debt now absorbs the whole of the land tax. The subsidies from Canada have grown from \$183,519 in 1890 to \$272,181 in 1910, an increase of \$88,662, but in the same period the expenditure has increased from \$395,779 to \$424,461 (the estimate for last year), being an increase of \$18,682. That is to say, leaving direct taxation out of the question, the increase of expenditure is \$39,000 per annum greater than the increase of income, and we are that much further from making revenue and expenditure meet than we were when the present Government came into power, notwithstanding that they have taken from the people in taxes more than one million dollars.

The public services are running down at a ruinous rate. There is no subject of greater importance than education. How has the Public School system fared at the hands of this Government? The number of pupils enrolled has decreased by 4590; supplements have been abolished and the bonus reduced, containing a yearly loss to teachers of \$10,579; the average salaries of teachers have greatly declined, yet the total cost of education has increased by \$17,754 per annum. The only remedy the Government was able to propose was a Commission upon whose report they refused to act and which has cost up to date \$4000.

The Department of Public Works is to be specially noted for inefficiency and waste steadily increasing. The Agricultural Department has

OLD-TIME REMEDY DARKENS THE HAIR Gives Co'or, Lustre To Faded And Gray Hair—Dandruff Quickly Removed.

From time immemorial, sage and sulphur have been used for the hair and scalp. Almost everyone knows of the value of such a combination for darkening the hair, for curing dandruff and falling hair, and for making the hair grow.

In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready-to-use product, skillfully compounded in perfectly equipped laboratories. The Wyeth Chemical Company of New York put up an ideal remedy of this sort, called Wyeth's Sage and Sulphur Hair Remedy, and authorized druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

If you have dandruff, or if your hair is turning gray or coming out, don't delay, but get a bottle of this remedy to-day, and see what a few days' treatment will do for you. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by E.A. Foster and McKinnon Drug Co., city. Special agents MacKinnon Drug Co., Kent and Great George streets, and E. A. Foster, Surryside.
