

SUNSHINE FURNACE

And Coal Economy

COMBUSTION taking place in the dome or top chamber of furnace fire-pot is the result of air and heat mingling with fumes. This combustion produces heat-energy, which the radiating surfaces above and around fire-pot absorb or draw in and then deflect or throw off. Incoming cold air receives this heat-energy, the result being heated air. Now, if the combustion takes place at a faster rate than the radiating surfaces can absorb and deflect, the surplus heat-power will pass up the chimney or into cellar—a waste of coal.

There is no waste of coal in "Sunshine" Furnace. Circuit of radiator is so complete, and air-circulating space so large, that every bit of heat-energy is quickly absorbed and quickly deflected on the circulating cold air, which is thus quickly heated and ascends through the hot-air pipes to rooms above.

The check-draft of a furnace is situated on the smoke-pipe. When this draft is closed—especially on an "ordinary" furnace—heat particles can escape up chimney. When check-draft is opened the incoming cold air from the cellar drives all heat particles back into furnace proper. If the grates and fire-pot of furnace are not constructed properly, there's a clogging and gathering of ashes, and fire does not burn up readily. If no provision is made for gas escape, the check-draft must be left closed indefinitely—a waste of coal.

There is no waste of coal in "Sunshine" Furnace. No clogging can take place in the 4-piece grate, no ashes can gather on the straight fire-pot walls, and the Automatic Gas Damper makes every provision for the escape of gas; consequently, check-draft can be opened shortly after cooling and all heat-energy saved for radiation.

Invalid Ladies This Is For You.

There are thousands of females who suffer match miseries common to their sex. This is largely due to the peculiar habits of life and fashion, and the improper training of girlhood. Then, too, the physical changes that mark the three eras of womanhood (the maiden, the wife, and the mother) have much to do with her sufferings, most of which are endured in silence, unknown by even the family physician and most intimate friends.

To all such whose hollow cheeks, pale faces, sunken eyes, feeble footsteps, indicate nervousness, palpitation of the heart, weak, faint and dizzy spells, we would earnestly recommend a course of Milburn's Heart and Nerve Pills.

Mrs. Jos. Sharp, Brighton, Ont., writes: "I was troubled with palpitation of the heart, weak spells and nervous trouble, and found no relief until advised to try Milburn's Heart and Nerve Pills. I got one box and that helped me so much I sent and got five more. I am now cured completely."

Milburn's Heart and Nerve Pills are 50c per box or three boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The EDISON PHONOGRAPH

ARE you about to entertain—to give a party or a dance, have a few friends in? The Edison Phonograph fits in with any scheme of entertainment—it will as readily furnish an entire programme for a vaudeville entertainment as for a concert of grand opera selections. It will provide all the music for a dance as easily as for a concert of band or orchestral music, or you may combine a little of each and give your friends the most delightful entertainment/imaginable.

If you have not heard the new Edison model with the big horn, go to the nearest Edison store and hear it, or write to us for descriptive booklet.

May Records Out Today

LOOK over your Records and then look over this list and see if there is not at least one new Record that you would like to offer your friends or to entertain yourself. If you hear one you will hear them all, and if you hear them all you will buy more than one.
