In Memoriam

MARY ELIZA MCINTYRE
The death occurred in the Provincial Sanatorium on Saturday August 14th 1941, of Mary Eliza McIntyre, daughter of William J. McIntyre and his wife Johanna McDonald McIntyre in her 44th year. The late Miss McIntyre received her education in the Millcove School, the district in which she was born, and later in Notre Dame Academy, Charlottetown, after which she spent ten years in Ottawa.

Her health failing, she returned to Charlottetown ten years ago, living quietly in her father's home where she enjoyed a fair measure of health and took an active and useful part in the family life. Early in January 1941 she became ill with Flu and did not readily recuperate, and on May 16th, she entered the Provincial Sanatorium, where it was hoped her condition would become improved. But this hope was not realised and having received the last solemn rites of the Holy Catholic Church from the hands of her spiritual advisor, Rev. Archibald Macdonald, C. S. S. R. her gentle spirit returned to its Creator, Saturday August 16th.

Her only sister, Mrs. Anne McLean, of Moncton, N. B., arriving on the 14th, was with her until she passed away bringing much comfort and consolation to her beloved sister.

Possessing a deep and profound faith, her devotion to the Catholic Church was exemplified by her constant attendance at its services and the devout practice of its teachings.

She will be deeply mourned and missed by all members of her immediate family and many relatives and friends throughout the province.

Requiem High Mass was celebrated Tuesday morning in St. Dunstan's Basilica by Capt. Rev. Wilfrid MacCardie, Rev. Dr. Gillis assisted in the choir by Mr. W. J. Brown sang the beautiful “Miserere” with feeling and devotion, Mrs. Joseph Dougan was organist.

The funeral cortege under the direction of Mr. Frank Hennessy proceeded to Corran Ban Church where a short service was held by the rector Rev. Kenneth McPherson officiating in the church and at the grave side Rev. Dr. Gillis assisting the choir here in the church.

The pall-bearers in Charlottetown were Messrs. John A. McKinnon, Gerard McKinnon, David McTague, Eugene Wynne, Guy Scott and Allan Macdonald.

At Corran Ban Messrs John R. McIntyre, Patrick McIntyre, John Arbing, Lorne Noonan, Peter Hughes and Daniel A. McDonald acted in the same capacity.

Many Mass Cards and Floral Offerings were received from friends and relatives in remembrance and appreciation of the lovely qualities of soul and mind possessed by the deceased.

Surviving beside her father and step-mother, Mr. and Mrs. W. J. McIntyre are her brothers Bernard G. Comptroller of the Treasury, Ottawa, Ont., James Ivan of Chicago, Ill., who arrived Monday night to attend the funeral, John J. of Charlottetown, Leonard D. of Moncton, N. B., Mrs. R. D. McLean of Moncton, N. B. and a half-brother Cpl. Frank M. of the staff at Beach Grove, Requescent In Pace.

OTTAWA, Aug. 25 — (CP) — Appointment of a Canadian Consul to the French-owned islands of St. Pierre and Miquelon off the Newfoundland coast was expected today to be announced in the near future.

While there were indications the appointment is forthcoming the Department of External Affairs refused comment before making an official statement and the full significance of any such move was not immediately apparent.

The islands and their status have been in the news several times since the outbreak of war and particularly since the French capitulation to the Nazis and the decision of the French government to collaborate with Germany.

The islands, situated as they are off the southeastern corner of Newfoundland, come into the territory which is of particular interest to the joint Canadian-American defence board.

At present, as part of the east coast defence measures, the Royal Canadian Navy and the Royal Canadian Air Force already patrol the area about the islands.

Only last night it was announced by the National Revenue Department that exports of Canadian coal to the French-owned islands had been prohibited due to shortage of coal in the Maritimes.

“Why should we send coal to St. Pierre and Miquelon which are owned by France when we haven't got enough for ourselves,” said a spokesman.

SAVE 20% ON TIRE COSTS

AS RUBBER-RATIONING LOOMS
B. F. Goodrich offers Motorists
20% More Mileage for
Tire Dollar!

KITCHENER, Ont., Aug. 27.—Rumoured rubber-rationing to build up reserves for war purposes would curtail civilian tire manufacturer which eats up approximately 70% of all rubber imported into Canada. Faced with increases in living costs—plus the necessity of making tires last far beyond their normal life—thousands of motorists are rushing to equip with the new B. F. Goodrich 1941 “Life-Saver” Silvertowns which add thousands of extra miles to tire life. These new Silvertowns with “Duramin” and “Safety-Weld” give five miles where the original Silvertowns gave four... actually save the motorists 20% on tire costs.

“Duramin” is a combination of chemicals proven to be the finest defence against rubber's greatest enemies—heat, sunlight and oxygen—keeps rubber young and alive—resistant to the grinding wear of the roughest roads. Not content with a 20% reduction in tire costs alone, B. F. Goodrich went even further... added one “super” on top of another... super mileage... super blow-out protection... super safety from skids. Result—this year's Life-Saver Silvertown is the toughest-wearing, safest-riding, smoothest-rolling tire in B. F. Goodrich history. It gives you more protection against blow-outs, more safety from skids, more riding comfort—without any premium in price.

“SAFETY-WELD” MAKES TIRES STEEL STRONG... LAST 20% LONGER
“Safety-Weld” accomplishes just the same thing that single-unit welding of steel body with frames has done for the auto. It builds a steel-strong tire carcass—bonds top-quality Hi-Flex and with “Duramin” toughened rubber compounds. It puts the famous “Golden-Ply” protection into every ply! Thus the new 1941 Life-Saver Silvertown is able to resist internal heat, withstand severe road shock, and protect against ply separations caused by high speed driving—proven to be “the safest thing on wheels.”
