(Continued from page 1)

ad war equipment in Canada, just as he refused to allow Great Britain to establish pilot-training schools in Canada for its own pilots. The British Government sent a British purchasing delegation to Canada as soon as Canada declared war. This British Purchasing Board came prepared to purchase hundreds of millions of dollars of manufactured war equipment which would have permitted Canadian industry to boom, and would have given employment to thousands of men and women, besides assisting Great Britain during the war.

"Due to the lack of cooperation of the Mackenzie King Government on these and other war matters, these hundreds of millions of dollars for British war supplies are now being placed mostly in the United States. France was also prepared through this British Purchasing Board to buy from Canada, but due to the do-nothing Mackenzie King Government even after the war was declared a billion dollars of war contracts were lost to Canada, and went to the United States.

### Non-Assistance to Farmers

"Now, with Great Britain needing a large and assured supply of food stuffs, you, the farmers and fishermen in this Province can do your part to supply some part of these essentials of war—I have referred to the bacon contract with the British Government, but I want to repeat (again) that the farmers are not being given a chance to produce bacon on a paying basis, because your Government is doing nothing to assist the farmer to get his milkfields at lower prices. This has been tried again and again, but the do-nothing policy of the Government still leaves the farmer handicapped in the hog-raising industry. This non-assistance to the farmer will force them to ship many of their young hogs away to other places where feed is cheap, to be finished there and then shipped to the markets, making a further loss to the farmer and to the farmers in this Province.

"At this season of the year our farmers are asking what is the price of fertilizer, and to date no definite price is set, but I am told that fertilizer will be about 20 per cent higher. This higher price is no doubt due to war causing higher freights, insurance, etc.

### Fertilizer Bonus Needed

"We all know that Governments, to encourage farm production, have stimulated and recompensed the producer with a bonus. For instance, wheat farmers have been given a bonus—also a bonus has been paid on cheese of a certain quality. Now in view of the precarious condition of farmers in this Province, why cannot our Government assist the farmer who is buying fertilizer this season to produce larger crops—and pay or absorb this 20 per cent increase in the cost of fertilizer? It would be a war-time measure to stimulate production, and it would greatly help in the win-the-war plan.

Just a word regarding our fishing industry. I speaking a few days ago about the lobster industry, I was severely criticized by a Liberal mouthpiece because I dared to mention that new regulations were about to be put into effect this season. However, I hope that it was a warning that will cause these new, drastic regulations to be cancelled, because the lobster industry has enough to contend with as it is at present.

"With regard to this embargo, I am still of the opinion that had the Mackenzie King Government

### Industry Handicapped

"Canadian industry, by the bungling non-patriotic spirit of the Mackenzie King Government, has been prevented from making a great contribution to the prosecution of the war, and also this bungling has prevented labor, farmers, fishermen and others from getting their share of these millions of dollars for war work.

"Is it any wonder that Canadians are asking the questions 'Is Canada in the war?' 'Is Mackenzie King fighting Hitler?' or 'Is he still fighting off Great Britain?'"

"No wonder Mackenzie King is against National Government! No wonder he has declared that he will go into Opposition rather than support National Government! National Government means whole-hearted prosecution of the war on a strictly voluntary basis. Manion proposes National Government for that purpose. The Mackenzie King Government stands for an 'in-between' war effort.

"I wish now to refer to some matters which deal directly with our own domestic affairs.

### King's Dog-In-Manger Attitude

"Mackenzie King is opposed to National Government. He has declared that he will oppose it even if the people decide in favor of it. The only way for Canada to do her part in the winning of the war is to end the Mackenzie King dictatorship and its championship of a half-hearted war effort and replace it by National Government. Ladies and Gentlemen, electors of Queens County:

"This may be my last opportunity to speak to you over the radio. Therefore, on behalf of John O. Hyndman and myself, when you have the ballot in your hand on Election day—please mark your X for us. In doing so you will place us, as representatives of Queens County, in the position to have the rights and privileges of this Province, and the Queens County in particular, recognized and protected.

This column is open for the discussion by correspondents of questions of interest. The Charlottetown Guardian does not necessarily endorse the opinions of correspondents.

### MANION AND THE RAILWAY

Sir:—In Mr. McLure's speech broadcast from Charlottetown, he spoke of a whispering campaign of vilification. But they do not even breathe some things that are as true as the gospel. One is that the L.P. and R. J. Manion have been discharged sixteen firemen from the E. I. railway and replaced them with men from New Brunswick and Nova Scotia.

And ironical as it happens to be, the Hon. R. J. Manion, with that "amplifier" which he is being thrown at him is the man who, as Minister of Railways, issued the order that these men be reinstated in their positions and with all seniority rights retained.

There are times that try men's souls, and had not R. E. Bennett and R. J. Manion been in power at that time those men might still be unemployed.

There are times that try men's souls, and had not R. E. Bennett and R. J. Manion been in power at that time those men might still be unemployed.

I am, Sir, etc.

### FARMER'S ATTENTION.—This week we are receiving hogs on Thursday instead of Friday. DAVIS & FRASER. L-195-3-20-21.

### COLLEGE TIMES—The College Times for March has made its appearance, and is receiving very favorable comment both from the students and adult readers. The issue reflects credit on Editor-in-Chief John MacEwen and his associates in every department.

### ICE SLOWS FERRY—Communications between the mainland and the mainland across the nine-mile strip of Northumberland Strait water between Borden and Tormentine continued to be slowed yesterday by ice conditions yesterday. The ice breaking ferry Charlottetown lost a half hour on the crossing from the mainland last evening when it was delayed by ice conditions. The ferry carried passengers and mail last night. The big boat had more trouble with drift in doing so, but in the end it was able to carry on until morning moving freight cars between this province and the mainland.

### H-I-Y GRADS MEET—At last night's meeting of the Club the speakers were two of the members, Gordon Morris gave a very interesting talk on the history of aviation from its beginning up to the present time. The other speaker, George MacDougall, told the club of his experiences while flying from Montreal to Moncton. George gave a very interesting description of the plane and its staff. Cliff MacDonald expressed the regret of the club at the resignation of Ted Shaw who has been called for service with the Royal Navy. Jack Bosch was chairman of the meeting and the singing was led by Ralph Creighton.

### PERSONALS

Premier Campbell leaves today for Sussex N. B.

Mrs. Fred Howe is home from the P. E. Island Hospital where she underwent a successful operation.

Miss Catherine Johnston, Principal of Alaska School in Charlottetown attending the Teacher's Convention.

Mr. George Smith, S. D. U. has returned to his home in Kirkcubria to spend the Easter holidays.

Mrs. Molly Harrington, teacher of the St. George's school in Charlottetown, is in the city attending the Teachers' Convention. She is the guest of her cousin, Miss Mildred Harrington.

Miss Kay Johnston, Kirkcubria, Miss Laurens Streenan, Kelle's, and Miss Elinor Smith, Kirkcubria are among those attending the Teachers' Convention at P. W. College.

### DR. PATTERSON GUEST SPEAKER AT CONVENTION

#### Gives Interesting Address On "Teachers and Teaching" To Island Teachers.

Last evening's session of the P. E. I. Teachers' Convention was opened by Choral Singing by Pupils of Prince Street School under the direction of Miss Lillian McKenzie, Music Instructor. This part of the programme was greatly enjoyed by the large audience and judging by the many complimentary remarks passed by those present, much deserved praise is due to these pupils and to their instructor.

Programme, Grades 6-10

1. "Drink to Me Only With Thine Eyes" (with descant by Grades 9 and 10)—Old English.
2. "Who Is Sylvia" (unison)—Schubert.
3. The Forge (unison)—Brahms.
4. Dear Land of Home (2nd part)—Sibelius.
5. Cal John the Boatman (2nd part)—Hebridean.
6. T'ny Ye To Me (unison)—Hebridean.
7. Golden Slumbers (with descant by Grades 6 and 7)—Old English.
8. Hall Smiling Morn (unison)—Spofforth.

The chief attraction of the evening was the splendid address given by Dr. P. W. Patterson, President of Acadia University. He was introduced by the President, Mr. Edison MacDonald. Dr. Patterson had chosen as his subject "Teachers and Teaching." In beginning his address the Dr. stated that he recognized the importance of the teachers' work and regretted that the speaker's remarks were recognized by the communities in which they worked. He hoped that his address would help, if for no other reason than because of his experience and advanced years. The field of his labours was in some respects similar to that of the teachers. He urged the teachers to endeavour to develop some tenets of their own and to express other tendencies.

The speaker said that the chief problem of today is that the nations have not interest the art of living. The character of the work is dependent on the homes of the pupils and the kind of work the teachers do.

In a broad sense the teaching process begins at birth and ends at the grave. Any stimulus, that results in learning, is teaching, and teaching is co-relative with learning. The speaker said that there is no such thing as abstract teaching. There is always somebody to be taught and something about which to teach. To illustrate this point the speaker stated that we do not teach mathematics but we teach John Jones Mathematics.

Dr. Patterson stressed the fact that teachers must always endeavour to teach in such a manner and use such language that the material taught will be comprehended by the pupils. The Dr. inferred that frequently some teachers believe that they will be regarded as learned if they use

THE PRINCE Edward Island Travel Bureau is issuing this year one issue in which advertisements will be taken. Any person interested should communicate immediately with the Travel Bureau at Charlottetown, before March 23, 1940. L-174-3-19-51.

HAMPTON United Charge—Services on Sunday, March 24th as follows: Victoria 11 a. m.; DeSable 3 p. m.; Hampton 7 p. m. L-243-3-21-21.

WESTINGHOUSE Washers with the famous Cushioned Action Gyrotor washes clothes clean quickly without wear. On sale at Miller Bros. Ltd. L-242-3-21-23.

THE BAPTIST CHURCH—The guest speaker at the special service in the Baptist Church last evening was the Rev. J. A. Nicholson, York, Mr. Nicholson delivered a thoughtfully eloquent address on "The Christian in the World." It was intimated that the speaker for this evening will be the Rev. J. M. Blesedell of North River.

ISLANDER DEAD—Mr. J. Scott Cairns, Freetown received word that his uncle Mr. Haven B. Littlefield had passed away at North Berwick, Maine on Thursday, March 14th. The funeral was held Saturday afternoon March 16th at Congregational Church North Berwick. The late Mr. Littlefield's wife who predeceased him some years ago was formerly Miss Cora Picketts of Wilmore, Valley River of the late John Picketts of that place.

RED AND WHITE—The March issue of Red and White, just off the press, lives up to the high standard of previous issues of this popular quarterly of St. Dunstan's University students. It appeals to a wide variety of interests, and deals interestingly with each subject.

GOOD FRIDAY AT THE POST OFFICE—March 22nd being Good Friday and a Statutory Holiday the letter carriers will make the morning delivery only. Wickets will be open from 8:00 A.M. to noon and the public lobby as on a normal day. Air and ordinary mail will be despatched and received as usual and the regular City Delivery Service maintained. The usual street letter box collection will also be made. Rural Mail Couriers will observe the holiday and will therefore not make their customary trip. On Easter Monday, March 25th, a full service will be given.

ACTIVE SERVICE ELECTORS—Major Peak is in conducting the Poll for Active Service Electors, reports that the poll will be open at Beach Grove between 9 and 12 o'clock today and Saturday. There will be no voting on Good Friday or on Sunday or Monday. All Active Service Electors regardless of their age are entitled to vote at the Beach Grove Poll during above hours. However, their customary Service Regulations says, Any Active Service elector who is in the place of his ordinary residence on polling day at a Dominion Election must declare that he has not voted at the pending election before and also that he is 21 years of age or older.

language which is above the power of understanding of the pupils. The contrary is true. Frequently, too, the teacher has insufficient knowledge of the subject matter being taught, or that his own ideas or lack of interest by the pupils. Since pupils cannot for themselves choose subjects in which they are interested, the subject matter must be presented in an interesting manner. Their interest must be aroused by the teacher. Pupils do not get the habit of learning unless they get a pleasure out of it. The pupils are not interested unless someone is annoyed, so also nothing is interesting unless someone is interested. Nothing is interesting in the curriculum which is interesting in the classroom. The speaker stated that there is not any subject which cannot be tied up with the interests of people. We live in a mechanical age. There are many expressions in use today which were unheard of twenty five years ago as for example "You're a fat tire," "Step on it!" etc.

Every boy and girl has a desire to make good in life. While subjects must be taught, the pupil must be interested. The pupils' interests may or may not be due to inefficient teaching. That which is taught is what the pupil gets. Every "how-to" is some teacher's recommendation. The speaker remarked: How can we teach individual pupils with forty in a class? The result is, we teach forty different lessons with forty different results. He further stated that the same words do not always mean the same things to all. The speaker did not blame the teachers for such results. Different intelligence quotients tests prove that pupils have different capacities for learning. We cannot develop a capacity which was not always there any more than we can hatch a hen before hatching. Many physical and mental disabilities retard the progress of the pupils' work. There is no proper section of the thyroid and this may result in an emotional complex.

No subject is an exclusive subject but is co-related with some other. There are only two interests in the world we can study exclusively. These are electrons and their behavior and consciousness and its behavior. This fact was very clearly expressed by Dr. Patterson.

It is not the subject taught but how it is taught is the important thing.

In dealing with examinations the types used are not calculated to test the capacity of the pupil to think for himself. Very often we as teachers pass over a certain body of material to a pupil and expect it to be re-learned. Usually, pupils get "A plus" if the result or answer is identical as taught. We must on the contrary endeavor to teach mental discipline, teach the pupils think for themselves and not merely

## FUNERAL NOTICE
