

Today's Probabilities.

TODAY, October 30. (Special) - Strong southwest winds cool and showery.

Bicyclists and all athletes depend on BENTLEY'S Liniment to keep their joints limber and muscles in trim.

THE MORNING GUARDIAN

FRIDAY OCTOBER 31, 1902.

THE BOARD OF TRADE MEETING.

We give up large space today to the publication of a full report of the speeches made at the Board of Trade meeting held in this City on the evening of October 28 last to discuss the proposed guarantee by the Government of the Dominion Packing Company's bonds. It will be remembered that on the morning following the meeting The Guardian printed an outline of the discussion. Since that time the interest in the matter has greatly increased, especially in the country districts of the Island, and many requests have been made for the full report which we know have much pleasure in laying before our readers.

The matter of the proposed guarantee and the agreement entered into is today of even more general and particular interest to our people than at the time when the Board of Trade meeting discussed the subject. Besides, that was the one occasion upon which representative men from all parts of the Island took part together in the discussion of this important matter. Both sides had a full and fair hearing at the meeting in question. Premier Peters and Mr. McKinnon, M. P., presented such arguments as they could find in favor of the agreement, while many speakers from city and country set out the various objections which occurred to their minds. The full report of these speeches will be found to be informing and instructive, and we ask a careful perusal by all of our readers who had not the opportunity to attend the meeting.

THE RAILWAY STATION.

There can be little doubt that if the people of Charlottetown as a body had the power to locate the new railway station a large and influential majority would be found in favor of a site as far west as the corner of Great George and Water Streets. Such a location would best convene the interests of the business and traveling public alike, and while pleasing the patrons of the road generally would give a more healthful site than any other that is likely to be obtained. This latter is a matter of no mere minor importance. It may be objected that this site would cost the Government something more

CORNS BETWEEN TOES.

Are removed without pain in 24 hours by Putnam's Painless Corn and Wart Extractor. Insist on your druggist supplying only "Putnam's," for it's the best and safest.

than another farther east. We believe the proper owners between Prince and Great George Streets would not be unreasonable in their demands and even if one or more should ask what might be thought a high figure, the Government would be amply protected by their right to fix the value by arbitration or recourse to the Exchequer Court. It further is of more value there than further east the Government would have that value in the property when they acquired it. The Grand Trunk and the Canadian Pacific Railways, which may be supposed to know their business thoroughly, have thought it worth while to secure, even at enormous cost, central locations for their stations in Montreal, Toronto, Ottawa and other cities.

The matter of a right location is relatively of equal importance in this smaller city and a few thousands of dollars difference in the cost of a site should not be permitted to weigh against selecting the best possible location. This is the more vital as the new station is to be a permanent and a creditable one. The location now to be adopted will be for generations to come, and we trust that all these considerations will weigh with the railway authorities in making their final decision. It is well worth while for the Government to please the people of Charlottetown and the patrons of the Railway in this matter, and we are not without hope that this will yet be done.

The Boston Post tells that hard coal is now arriving daily in New York in hundreds of carloads and is sold to customers at \$6.50 a ton. But Boston is plying a good deal more and the supply there is yet limited.

The matter of securing a successor to Mr. T. in the Cabinet has not yet been decided. It is understood that Mr. Prefontaine and his friends are urging his claims very strongly, and he may yet receive the position. He has undoubted talents, but is not in all respects the most desirable man for a Cabinet position. Premier Parent of Quebec would be more generally acceptable and would be a decided acquisition if he could be secured, but the matter is one which Sir Wilfrid Laurier will probably decide in accord with the wishes of the majority of his leading supporters from Quebec Province.

President Roosevelt was 44 years of age October 27th. He was born in 1858, entered Harvard in 1876, graduated in 1880, studied law with his uncle and was elected to the New York Assembly in 1881. In 1885 he started his western ranch. In 1888 he was defeated in his aspirations to be Mayor of New York. In 1895 he was made Police Commissioner of New York; in the following year Assistant Secretary of the Navy; in the following year took command of the Rough Riders, and after his return from the war was elected Governor of New York in 1898. Elected Vice President of the United States in 1900, he succeeded to the Presidency on the death of President McKinley, September 14, 1901.

RESTOCKED BY CANADA.

OTTAWA, October 28.—Mr. Fisher, some time ago, wrote to Lord Strathcona in favor of Canada being allowed to supply horses and cattle for the re-stocking of Boer farms. Lord Strathcona referred the matter to Hon. Mr. Chamberlain, and the latter now advises Mr. Fisher that Lord Milner has charge of the work. The colonial secretary handed Mr. Fisher's request over to him.

CANADA-AUSTRALIA CABLE.

VICTORIA, B. C., Oct. 28.—It is expected that the cable between Canada and Australia will be completed on Saturday. The Anglia which is laying the 2,100 miles from Fanning to Suava, left Fanning Island on Oct. 18, earlier than was expected. That section will complete the line.

BIG ORDER FOR CANADA.

OTTAWA, October 28.—The crown agents of the Imperial government in South Africa have cabled another order through the Dominion department of agriculture to the Massey Harris Manufacturing Company, for 2,000 more zig zag harrows. This is a duplication of the first order, which was worth in the vicinity of \$40,000.

IF YOU HAVE A COUGH

Get after it at once—it may become dangerous.

Take our Word BRITISH COUGH CURE

Will cure you rapidly. It is pleasant to take. It is a good article. It is a large seller with us. It costs you but 25 cents a bottle. Money refunded if not as we say.

A. W. REDDIN, Phm. B., The Square Druggist, Sunnyside.

We Are The

Millinery Leaders

F. Perkins & Co.,

THE MILLINERY LEADERS.

TO ATTRACT RESERVISTS.

OTTAWA, October 27.—Copies have been received here of the special reservists edition of the official handbook on Canada, which is being issued in England by the high commissioner with a view to attracting this country some of the thousands of reservists returned from S.Africa.

HE CAN PROVE IT.

Mr Chalker is prepared to Substantiate the Truth of the Statements He Has Made.

HOUSEY'S RAPIDS, Ont. 27th.—(Special)—The open letter of Mr. George C. Chalker, of this place, published in the daily papers some time ago, has created quite a sensation and considerable inquiry from those who do not know Mr. Chalker. His friends are well aware that he would not put his name to any statement that he could not substantiate the truth of every assertion he made. In the letter he said—

"I was laid up with Kidney Trouble and was so bad that I could not do a day's work. My back was very sore, I had heavy, aching arms and dull, bloated eyes, I was very weak and much reduced in weight. Six boxes of Dodd's Kidney Pill cured me completely and I have not the slightest trace of Backache or Kidney-Trouble."

Many readers of the Guardian have no doubt seen the many advertisements of "The Macey Sectional Bookcase," in almost every magazine they pick up, but do not understand how this wonderful case is put together and grows as your library grows. We wish to announce that we have them in stock and will be glad at any time to have everybody in Charlottetown come in and see them, we will be happy to show you exactly how they work, and can save you money if you want to buy.—John Newson. 30 21

NOW READY FOR FALL

We have made our stock more attractive than ever before by large importations of the most popular makes of cloth in suiting, overcoating, etc. And are prepared to give our customers nobby garments hat cannot be surpassed in style, quality manufacture. We invite inspection of our large and select stock.

John McLeod & Co,

EGGS! EGGS!

Farmers keep your hens laying when eggs are a good price.

We have just received direct from the manufacturers a few tons of Lowell Bone and Meat Meal, Lowell Cracked Bone and Lowell Raw Ground Bone.

This valuable food for poultry is made chiefly from animals that have passed a rigid government inspection for human food. It is a high concentrated bone and meat food, contains several times the nutriment of fresh meat of equal weight. It is constantly growing in popular favor and poultry raisers will find it indispensable as an egg producer also for growing poultry for market.

A. HORNE & CO.
