Don't Neglect

your Watch

If you allow your watch to run cool without cleaning, or with damaged parts it may be worn so badly as to destroy its usefulness as a timepiece. Better have it examined by your Watch Doctor and if in need of repairs he will advise you accordingly and perhaps save your watch.

TOURISTS and persons bent on pleasure, should not forget that the Jacques Cartier runs a special excursion every Thursday afternoon at 3 o'clock to Orwell and return for but 25 cents, and every Saturday afternoon to Crapaud and return for but 40 cents. These are delightful outings, as they give passengers so much pure sea air.

GENERAL O'Grady Haly, commanding the forces in Canada, is expected to arrive here on the 22nd of September, and will be accompanied by Colonel Foster. On Sunday a church parade of the city companies of militia, and perhaps one or two of the nearby country companies, will be held. On Monday an inspection will probably take place. On Tuesday morning the General will leave Charlottetown.

A COMING ATTRACTION—On Thursday September 6th an opportunity will be given our citizens of hearing two of our most talented artists before they leave us for some time. We refer to Miss Gertrude Davies and Mr. Fred Morris, who will take part in an entertainment in St. Peter's Hall. A most excellent program has been prepared which will be rendered by some of our most talented performers and those who have not lately appeared in public entertainments. Particulars later.

BIDEFORD, P. E. I. Glad to inform you that the work of God is advancing among us on this Mission. On the 16th we received twelve persons into full membership, after they had served the term of three months on probation. Others are expected later on. At the last meeting of the S. S. Committee of management we decided to observe a "Rally Day" and also a "Decision Day" in our school at Bideford to which we are looking forward with much interest. The losses we are constantly suffering here from removals and death very seriously affect our financial returns, but being determined to make them up, if at all possible, our estimated receipts are placed as high as last year. Wm. R. Pepper.

MR. J. A. McDonald of, Hermanville, P. E. I. writes to The Farming World under date of Aug. 28th in part as follows.

We are having splendid growing weather in the Eastern Provinces. The crops never promised better for many years. Oats are making a grand crop and will apparently be the heaviest crop for the past ten years. Barley is superb. Wheat is excellent and our Maritime population will likely be quite independent of the upper and western Canada wheat fields this year. Manitoba's shortage may slightly raise the price of flour next fall, and while we sympathize with our western brethren in their crop failure, it will in no way affect our pastry bill. Potatoes are the most abundant crop in years, and what is more, there are no bugs this year to eat the crop. New potatoes are already in evidence, and are both big and mealy. Roots—rutabagas—are excellent, and so they should be, for the weather was all that crop could desire.

Good Rain Fall Continues.

LONDON, August 28.—The viceroy of India, Lord Curzon of Kedleston, telegraphs that good rain continues to fall but that cholera still prevails in many districts of that country.

ALMOST A MIRACLE.

Strange Case of Kidney Disease Reported in Smith's Falls.

SMITH'S FALLS, August 27.—One of the most remarkable cures ever performed by Dodd's Kidney Pills was that of Mrs. George Barnes of this town. Mrs. Barnes was afflicted with Female Weakness and Urinal Trouble resulting from Kidney Disease. The disease had also a serious effect on her senses of sight and hearing, for at times Mrs. Barnes would be exceedingly deaf and short-sighted.

Mrs. Barnes gives an account for her case for publication. "I have consulted a doctor," she writes, "who gave me medicine that seemed to make me worse at times. I was told of Dodd's Kidney Pills, and I got one box. I have used part of box and am completely cured, and strange to say both my hearing and eyesight are now unaffected.
