A good day begins with a cup of good coffee—

Chase & Sanborn's SEAL BRAND

## TO OUR PATRONS:—

Make a memorandum right now on your calendar that Friday and Saturday, July 5th and 6th are S. A. McDonald's Dollar Days.

We are making this notice because we value your patronage, and want you to be fully prepared to spend the day here—saving money as you go about selecting the things you need.

Our add appears on Page Two. Go over it carefully. You will find many, many items of decided interest and it is well to remember that each department has more dollar specials than it can advertise.

All in all, this event is typical of its predecessors—both in variety and value.

A dollar saved is a dollar earned and the amount of dollars you save depends entirely upon the gross amount of your purchase.

Yours very truly,

S. A. McDONALD

—BAD ACCIDENT—Mr. Angus Cameron, son of Mr. Samuel J. Cameron, of Summerside, met with a regrettable accident as the result of a collision between automobiles last Wednesday night. The accident occurred near Searletown Hall and was the result of the two approaching cars trying to avoid a couple of cyclists on the road. Mr. Cameron was thrown out through the roof of the car by the impact but oddly enough none of the other occupants of either car sustained anything more serious than a bruise or two. Mr. Cameron was removed to a nearby residence and at last accounts his condition was such that it was considered advisable not to remove him for some time.

## Sportsmanship On The Highway

Is motordom an exception to the universal law that the poor sportsman forfeits the honor and respect of his fellow men? If this is true, is it due to the fact that there is no sportmanship on the highway?

Good sportsmanship is highly prized in America. Rightfully so. Any man or woman may be proud of a disposition to lean over backward to be fair to the "other fellow." But, is this disposition, manifested in social and business relations, in tennis, bridge, golf, and other games, carried over to the streets and highways upon which so many millions spend so much of their time?

Each man will have to answer this question for himself—and to himself. In answering it will he recall that he did not, say, stop on the hill to let his fellow motorist, struggling upward, pass when the latter's side of the road was blocked? Will he tell himself that he did the "sporting thing" in helping the "other fellow" out of the jam into which he selfishly or stupidly had placed himself.

If to these and a host of similar questions he can say, "I did", his sportsmanship is established. When every motorist can make the same reply, the sportsmanship of the highway will be established. And, what a happier, safer highway it will be!

HAYWARD—SEMPLE. An event of interest to many P. E. Islanders took place in the First Presbyterian Church Boston Mass on Saturday Evening June 2nd at 7 o'clock when the Rev. Dr. Watson pastor of the church united in the Holy bands of matrimony Miss Jean Semple daughter of Mr. Watson Semple of New Glasgow P. E. I. and Mr. Russell Hayward son of Mr. and Mrs. C. B. Hayward Everett Mass.

The Bride who was unattended was given in marriage by her uncle Mr. John Warren, Medford, Mass., and looked charming in a lovely gown of pale orchid silk georgette with picture hat to match. The spacious Parlours were filled with only intimate friends and relatives who gathered to witness the union of this popular young couple. Previouse to her marriage the bride was the guest of honor at several showers. On each occasion she received many useful gifts including sterling silver, pyrex, and cut glass, linen, china, and several substantial cheques, etc. These with the many good wishes they received on their wedding day testify to the esteem their friends hold for them.

## LIVE STOCK

An order has been received by the Live Stock Superintendent of the Department of Agriculture from the Government of Newfoundland for sixteen registered Ayrshire bulls round a year and a half old, well developed and of good milking strain, and also a number of registered Ayrshire females.

A similar order was filled for Newfoundland last year, while a large number of grade and purebred Holstein cattle were also sold in this market at profitable prices. It might be pointed out that in all cases where breeding and commercial stock for milking purposes have been purchased it has been insisted that the animals be of good type and well developed. Breeders who have males and females that are undeveloped or lack the proper characteristics have very little chance of realizing on this special trade. Very often producers, who have neglected to feed and care for their stock properly and who have on their hands, as a result, animals of reasonably good type but undersized, feel that they are being slighted if purchases are not made from them when orders of this kind are received. It should be remembered, however, that these orders are very definite in regard to the qualifications of the stock under consideration and while in most cases a point may be stretched, providing the breeding of the animal is very choice, yet the price paid must be reduced to such an extent as to leave a very small margin of profit. On the other hand if these animals have received careful attention and have been developed in their growth in a normal way the price that can be received in these cases represents the top of the market and a large margin of profit over cost of production.

Producers throughout the Province of both grade and purebred animals should pay careful attention to the quality and breeding of their sires and to the development of their animals during the early months of their life. The present year is one of outstanding prospects in the live stock activities of this province, and particularly so in the arena of dairy cattle production. The prospects, furthermore, indicate a strong demand for the surplus cattle of the province for some years to come and any program which is laid down should have for its object high class production extending over a period of years.

Enquiries have also been received from points in the United States and Canada from reliable purchasers and breeders for car loads of cattle of quality both grade and purebred. It might further be pointed out that there is a scarcity of cattle freshening from 21st September until the last of the year and any program of breeding should be so arranged as to have a fairly good proportion of the herd freshening in this period.

Provincial Department of Agriculture.

Stay Young with Your Daughter

As scores of mothers do by keeping that schoolgirl complexion, the result of natural ways in skin care. *The daily rule to follow:*

THE present generation recognizes charm only in Youth; with every daughter wishing, in her heart, for *her* mother to retain, above all things, her youthful allure.

Most mothers know how true that is. And those who are wise in modern beauty methods know too that natural ways in skin care are the most effective known for holding back the hands of time.

That means soap and water—a clean skin, pores cleansed regularly of age-inviting accumulations. Beauty experts advise it. Skin specialists urge it—but always, of course, with the *Right Kind of Soap.* That is the important point.

*The rule to follow if guarding a good complexion is your goal*

So, on expert advice, more and more thousands of women turn to the balmy lather of Palmolive, used this way.

Wash your face gently with soothing Palmolive Soap, massaging the lather softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be dry apply a touch of good cold cream—that is all.

Do this regularly, and particularly in the evening. Use powder and rouge if you wish. But never leave them on over night. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away.

*Avoid this mistake*

Do not use ordinary soaps in the treatment given above. Do not think any green soap, or one represented as of olive and palm oils, is the same as Palmolive.

And it costs but 10c the cake! So little that millions let it do for their bodies what it does for their faces. Obtain a cake today. Then note what an amazing difference one week makes.
