THE CHARLOTTETOWN GUARDIAN

FRIDAY MORNING SEPTEMBER 7, 1906.

A TORONTO VIEW.

The News of Toronto devotes a leading article to the discussion of the Prince Edward Island and his Island. The writer of the article appears to have visited this Province and speaks appreciatively of its pastoral beauty, "a rolling land of shallow river valleys, green in verdure, with a red soil that shines above the blue water. By the stone dykes along the fields the wild rose grows more perfectly than in any other part of Canada. It is a gentle, lyric country, with no cliffs high enough to be called dramatic, nor harsh stretches of barren lands." The splendid sea beaches, of the north shore and the pleasure of a dip in the sea also caught the notice of the News writer.

The Islander is described as "firm, sturdy, honest as the soil, somewhat controversial, industrious, and far removed from melancholy. He believes in recreation. He believes in his Island. . . defers to no superior authority."

An Island type, a fine amalgam of Scotch and Irish, a farmer modified by a fisherman, who is thrifty without being offensively ambitious, a tall man, generally well set up, apt to turn to any occupation that comes his way, rather slow of speech, disposed to fiddle a bit if he has the gift, and fond of singing and dancing. . . Attendance at one church service is regarded more as a principle than a duty. It is scrupulously fulfilled. Church matters are soundly and frequently discussed. Above all in Prince Edward Island men and things are exactly what they seem. No wonder that in happiness the Island has come under a blessing."

The Islander is further described as no mere stay-at-home, without sufficient energy to go elsewhere. He sent a colony to California in the days of the gold fever and another to far-off New Zealand long ago; and now his sons go to the Northwest. But the returning exile always protests that he "has found no place so pretty as Prince Edward Island." All of which is more or less discriminating and if not exactly as we see ourselves, is at least not harshly unfavorable. Again we quote:

"If the Prince Edward Islander regards himself as suffering from a grievance, it is undoubtedly with regard to communication with the mainland during the winter months. He was promised uninterrupted communication when he entered Confederation. No one knows better than he the difficulty of dealing with Northumberland Strait. He does not exactly advocate the building of a tunnel because of the enormous expenditure involved. But he believes that no Dominion Government has done its best to find a solution for the problem; and until the problem is solved he will, other things

being equal, remain in Opposition. Such an attitude is the most natural one in the world. For the Islander knows his well being, and his interest in national and international life, which is as seen here as it is all over Canada, depend on an uninterrupted winter communication."

Here we must register our dissent. The Islander does exactly advocate the building of a Tunnel notwithstanding the considerable cost. The several Boards of Trade, endorsed by the Maritime Board of Trade for the three Eastern Provinces have declared for the Tunnel and reaffirmed that declaration. The people of the entire Province by their delegates in Provincial convention have demanded it and sent an influential delegation to Ottawa to demand it in 1905. The Legislature by unanimous vote has demanded it, and also sent a delegation to Ottawa to assert our claim to that work. Nothing has since occurred to change or moderate this demand. If in Prince Edward Island as The News says, "men and things are exactly what they seem," then we affirm that our people not only advocate but expect the construction of the Tunnel. In this at least we are "firm and sturdy" and not disposed to "defer to any superior authority."

Half the Jews in the world live in Russia, and Jews are said to be the brains of the revolution now going on there.

The exhibitions going on in St. John, Toronto and elsewhere, give a hint to our people to prepare for the Exhibition here a few weeks hence. It will be the greatest the Island has yet seen. The date is rather late, but the chance of fair weather is as good then as earlier in the season.

SUFFERING WOMEN.

Need Just the Rich, Red Blood Dr. Williams' Pink Pills Actually Make.

From girlhood to middle life the health and happiness of every woman depends upon her blood. If her blood is poor and watery she becomes weak, languid, pale and nervous. If her blood supply is irregular she suffers from head aches and back aches, and other unspeakable distress which only women know. At every stage of woman's life Dr. Williams' Pink Pills are her best friend, because they actually make the rich, red blood which gives help and strength and tone to every organ of the body. They help a woman just when nature makes the greatest demand upon her blood supply. Mrs. H. Gannon, who for twenty years has been one of the best known residents of St. Roches, Que., says: "Dr. Williams' Pink Pills have been a blessing to me. I was weak, worn out and scarcely able to drag myself about. I suffered from headaches and dizziness, my appetite was poor, and to attempt housework left me utterly worn out. I slept badly at night, and what sleep I got did not refresh me. For nearly three years I was in this condition, and was constantly taking medicine, but found no benefit from it. One of my neighbors, who had used Dr. Williams' Pink Pills with much benefit, advised me to try them. I did so, and the whole story is told in the words 'I am well again. There are times yet when I take the pills for they seem to me a guarantee against the troubles from which so many women suffer.'"

Dr. Williams' Pink Pills don't act on the bowels. They contain just the elements that actually make new blood and strengthen the nerves. That's why they cure anaemia, indigestion, neuralgia, rheumatism, lumbago, headaches, backaches and heart palpitation, and skin diseases like pimples and eczema. That is why they are the greatest help in the world for growing girls who need new blood for women who are troubled with irregular health. Sold by all medicine dealers or by mail from The Dr. Williams' Medicine Co., Brookville, Ont., at 50c a box or six boxes for \$2.50.

RUMBLING BOWELS.

One of the very first lessons that ought to be taught every child is that the bowels must move regularly and freely every day, as more troubles arise from neglect of this duty than from any other cause. The effect matter that should pass out of the body remains in the bowels contrary to every law of nature. If it does not pass away by the natural channels then the other way to escape is through the pores of the skin. That is why people look so sallow and unhealthy. This causes pimples, blackheads and blotches. For immediate relief take two or three Hanch before you go to bed. The whole digestive canal responds to the healing effect of this tablet. Rumbling bowels recover quickly under its treatment. It neutralizes the foul gasses. It sweetens the stomach. It gives a good appetite. It's a doctor for ten cents. A big bottle with 300 for \$1.00 For sale by all druggists
