

## Comfort and Convenience

If you have never experienced the pleasures of living in a "Sunshine" heated house, let us tell you that it is a comfort and convenience which is fully appreciated.

For an average of seven tons of coal to an eight-roomed house, an even temperature of sixty-five to seventy can be kept up from October to April. Once a

## Sunshine Furnace

is started there is no work attached to its operation beyond placing in coal twice a day, and drawing out ashes and filling water pan every other day. Chains on a pulley fixed in the hall, or room above the cellar, answer the respective requirements for—Burning Up, or Closing Off.

No caretaker is necessary, no engineer has to be called in. No precautions, beyond following directions, are necessary.

If you can run a stove (and who cannot) you can run a Sunshine Furnace.

Phone or call on the furnace man in your town, whose name appears below, and secure full particulars.

## SUNDAY SCHOOL LESSON

May 23rd, 1909.

The Council at Jerusalem. Acts xv. 1-35.

Golden Text.—We believe that through the grace of the Lord Jesus Christ we shall be saved, even as they. Acts xv. 11.

Verses 1-5.—Are good men liable to hold wrong opinions? When good men differ in opinion what is the better way in order to reach an understanding?

When a professed Christian gets angry with another Christian, on a mere matter of opinion, has he not backslidden from the love of God, and what spirit does it show? (This question must be answered in writing by members of the club.)

Circumcision no doubt originated from supposed purposes of health, and physical cleanliness, and afterwards became a national institution of the Jews. State when God first made circumcision the sign, or token, of the covenant between him and Abraham and his seed, and to whom the rite of circumcision and God's covenant extended. (See Gen. xvii.)

Is circumcision now essential to salvation? Is the belief of any doctrine essential to salvation?

Verses 6-11.—Is experience of God and his dealings with us, conclusive proof of the will of God in the matters which the experience covers?

Is thorough discussion in church courts, a perfectly right way to arrive at the will of God on any matter?

Were those who taught that circumcision was essential to salvation, as well as being narrow, necessarily untrue men?

What is the difference between the "yoke" of the law and the "yoke" of Jesus? (v. 10.)

Verses 12.—Recall some of the wonders done through Paul and Barnabas, among the Gentiles, and say what bearing they had upon the dispute concerning circumcision?

Verses 13-21.—Who was James, who next addressed the council?

James, the brother of Jesus, was the president of this council; it is probable that his address was of the nature of the judgment of the council on this question?

Verses 22-23.—There seems to have been no formal motion passed by the council, but they appear to have reached an unanimous decision as outlined in the address of the president; say whether we are bound to take this decision as the voice of God.

In what particulars is the great wisdom of the council shown in settling this dispute?

Were each of the commandments given in verse 29 intended to be of lasting obligation, or were some of them only temporary?

From whom are Christians to get guidance on all matters in this day?

Verses 30-35.—There never will be a time when disputes may not occur, in the church and between individuals; how should they always be settled?

Did this trouble in the church help it or hurt it, and does God always over-rule trouble, whoever may be the cause of it, for the good of his children?

Lesson for Sunday, May 30th, 1909, Believing and Doing. James iii:14-26.

Minard's Liniment Co., Limited, Dear Sirs,—Your MINARD'S LINIMENT is our remedy for sore throat, colds and all ordinary ailments. It never fails to relieve and cure promptly. CHARLES WHOOTEN, Port Mulgrave.

# I'll Explain Why I Always Drive a GENDRON

"You see the breaking of the springs causes us baby drivers more trouble than any other weakness in carriage cars. But there is no spring weakness in the GENDRON car. Note that double curve. It is exclusive with the GENDRON. It so distributes the strain that the spring never breaks. And then the wheels,—you see they are specially welded, and cannot warp or break. Note also that little rubber cap over the nut of the axle. Sometimes when I have a restless passenger, I want to drive the car around the house without scratching the furniture—it is a little point, but a good one. The materials for all the GENDRON cars are the very best in the bodies, tops and every other part. There is style and service in every GENDRON model—Canadian made, so that any unexpected accident can be easily remedied."

*"The Gendron Driver"*  
 SOLD BY ALL FIRST-CLASS DEALERS.

A. ALEX MACLEOD,  
 Portrait Artist, 208 W. 15th St New York

### Makes "Blue Monday" Sunny Monday

## Naptho SOAP

No more boiling water or disagreeable steam—no more Wash Day chills, which mean Tuesday ills. Naptho does not require boiling water to assist it. Its mighty Dirt-Removing elements do the work alone, reduce washing hours, eliminate old-time rubbing, save clothes and your hands, and make "Blue Monday" Sunny Monday. Use boiling water if you wish—Naptho is an all-around Soap.

### Marine Gasoline Engines.

For the past six years we have been endeavoring to get a thorough knowledge of the severe conditions under which a fisherman's engine must be placed on the exposed coast waters of the Maritime Provinces, to consider the requirements of their business, what style of engine will best meet all demands put upon it and still not take up too much room or interfere with the handling of sails, trawls, etc., in boats. The engine which we are now offering is the result of these years of study and is for all practical purposes far ahead of anything yet sold in these Provinces. Our marine engines require little space, no elaborate pieces to get in the way of swinging booms or sails; they are entirely free from mechanical complications that require mechanical training or special engineering skill to operate. Our chief aim has been to secure a durable and simple engine that would withstand the constant use of constant usage, and we believe that our efforts in this regard have been entirely successful, and we now have a perfect engine to offer to the fishermen of the Maritime Provinces. We will be pleased to send catalogues and further particulars on request.

## The Proof of The Demand for The Gillette Safety Razor

Five years ago, the Gillette factory was a single room with a handful of employees. Since 1904, the Boston factory has been enlarged four times. The buildings shown above have four acres of floor space and house seventeen hundred workers. The world-wide demand for "The Gillette" has necessitated the establishment of factories in Montreal, London, Paris and Berlin. In Canada, the "GILLETTE" is made in the largest and most devoted exclusively to the manufacture of safety razors. "The Gillette" marks the final achievement in the largest and most

Your jeweler, your druggist, your hardware dealer, your favorite departmental store will explain the features of the "Gillette" to you and show you the different styles.
