A strange sight greeted residents here on Thursday: when a transfer truck enroute east stopped a large hog part of the cargo in some manner got out of its crate and climbed to the top of the load. Very few potatoes are moving here now and turnips at a standstill, the price of the latter being very low. Visiting the markets in different parts of the States it was found that fall squash was taking the place of turnips, but to some tastes they lacked the flavor. Yet in homes and hotels the turnip is considered some th of the past age. Squash prices were around one-half cent per pound and it was surprising to find cranberries on the retail markets at seven cents per lb. Apples are very low owing to the monster crop and new cider and lowest in years. some places twenty-cents per gallon and that included the fine gallon jug. B.

RED CROSS VETERAN ACTIVE THOUGH 90

WASHINGTON, Oct. 25— (CP) Mrs. Peter Voorhees DeGraw, only surviving founder of the American Red Cross, is still active in the organization despite her 90 years.

At the annual Red Cross roll call here recently Mrs. DeGraw stepped up briskly to become member No. 1 of the district of Columbia where the organization was founded on May 21, 1881 under the guidance of Clara Barton

"I was little more than a bride at the time," said Mrs. DeGraw explaining that she and her husband, a Washington political correspondent who died in 1914, went to Miss Barton's home and signed the foundation documents.

"There was no war then, so probably I didn't have a great deal actually to do for the organization. But I am proud to say I have never failed to pay my dues in the more than 50 years that have elapsed," said the vigorous nonegenarian.

Mrs. DeGraw admitted that being a founder did not entail very heavy duties for her today.

"They are very nice to me — never ask me to do anything that is strenuous," she smiled. "All I do really is to forward the donations people send me to the national headquarters."

MRS. FARMER

JUST A MINUTE PLEASE

It is traditional that the poultry money goes to you women. The egg receipts run the table, the dressed poultry helps out for clothing, etc.

You have been promised a new poultry house, possibly a new floor, a couple of extra windows, or any of a dozen different things that will help out your poultry problems.

Your man is a good man, he is working all the time, to the limit of his strength

BUT

This is no excuse for the poultry being neglected.

FIGURE THIS ONE OUT

For a good many years P.E.I. has produced annually, approximately one million lbs. of poultry. These figures are reasonably accurate for each individual year.

In years gone by you employed about fifty middle men to market this product. Today you employ three hundred.

A few thorough poultrymen, energetic salesmen, keen students of poultry marketing are a necessity. Why waste money on three hundred?

Purchasing poultry, (empty crops) every day. Please do not market poor chickens.
